THE
MARMOR
VOLUME XVI 1947
McMASTER UNIVERSITY
HAMILTON · ONTARIO

HENRY FRANKLIN DAWES, M.A., PH.D., F.R.S.C.

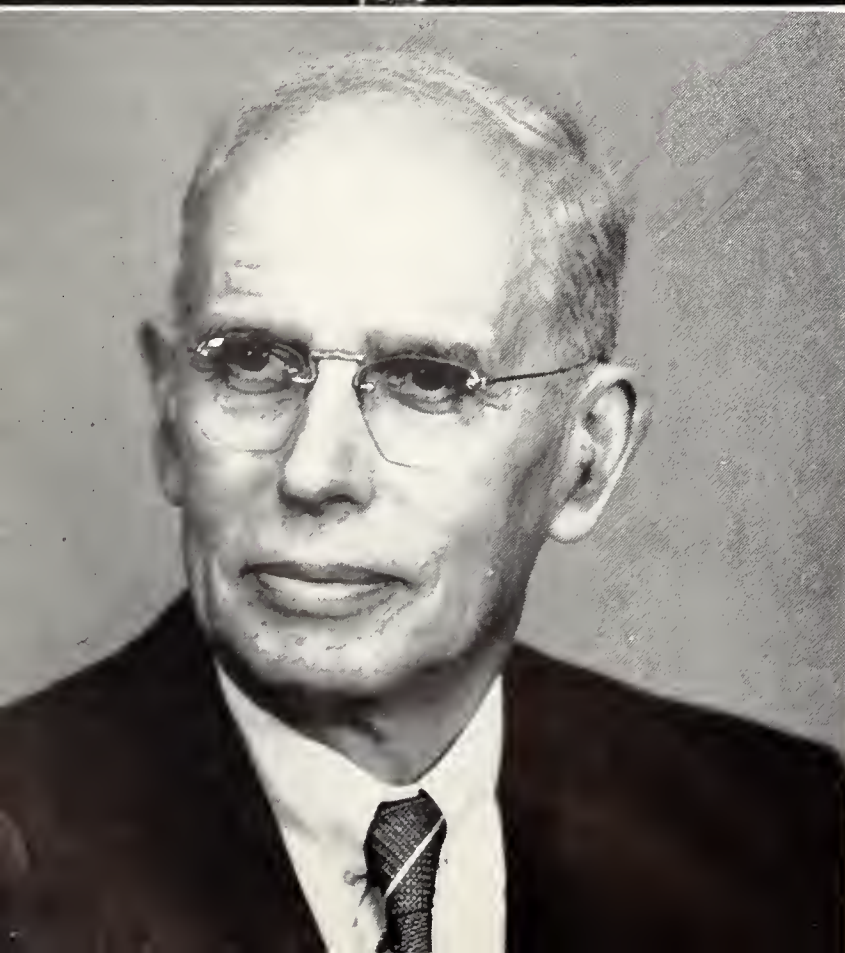

Dr. Dawes was born at Paisley, Ontario, in 1881. A résumé of his life is a record of scholarly achievements. He graduated from Woodstock Collegiate Institute with three scholarships, and from Toronto University with the Loudon Gold Medal in Physics. He spent two years in Toronto as a demonstrator in the Physics Department, during which time he took the degree M.A. and was awarded the Wollaston Research Scholarship. He was a member of the research group at Cambridge for the following two years. When he returned to Canada he lectured in Toronto University for a brief period, and in 1911 came to McMaster as Professor of Physics. In 1917 he received the degree Ph.D. from Toronto. He is a Fellow of the Royal Society of Canada and of the American Association for the Advancement of Science.

Allen County Public Library
900 Webster Street
PO Box 2270
Fort Wayne, IN 46801-2270

WILLIAM FINDLAY, M.A., PH.D.

Dr. Findlay was born in Wentworth County in 1874. He obtained his early education from the Owen Sound, Caledonia, and Parkdale High Schools, and came to McMaster in 1892. After graduation he taught here for two years and in 1898 received the degree M.A. for his work in Mathematics. In 1901 he received his Ph.D. at Chicago magna cum laude. During the next four years he was Mathematical Tutor at Columbia University and Secretary of the American Mathematical Society. In 1905 he returned to McMaster and joined the staff as Professor of Mathematics.

ELVEN JOHN BENGOUGH, B.A., C.S.R.

Mr. Bengough was born in Toronto in 1881. He attended the Jarvis and Parkdale Collegiates in Toronto, then came to McMaster and in 1903 took the degree B.A. Later he qualified as a chartered stenographic reporter. He taught in Woodstock College from 1903-4 and was Associate Editor of *The Canadian Engineer*, *The Pulp and Paper Magazine of Canada* and *The Canadian Journal of Fabrics* from 1904-5. The following two years he spent as a reporter in the York County Courts. In 1907 he joined the McMaster staff as Registrar. He has been Secretary-Treasurer of the Alumni Association for twenty-nine years. He is to continue to serve as Secretary of the Senate.

TO

Henry Franklin Dawes

William Finlay

Elben John Bengough

*EACH OF WHOM HAS GIVEN McMASTER
OVER THIRTY-FIVE YEARS OF SINCERE
AND FAITHFUL SERVICE, THIS VOLUME
IS GRATEFULLY DEDICATED.*

GEORGE PEEL GILMOUR
B.A., B.D., M.A., D.D.
Chancellor

Chancellor's Message

WHEN Cardinal Newman wrote: "It is the fault of all of us till we have duly practised our minds to be unreal in our sentiments and crude in our judgments, and to be carried off by fancies instead of being at the trouble of acquiring sound knowledge," he uttered one of those troublesome truths that never cease to rebuke us and to remind us of our profession that we can be satisfied with nothing short of the truth. It makes us also weary of sentiments loudly proclaimed around us. What, for example, is more unreal than much that calls itself realism, what more crude than many of the judgments that profess to be final?

It should move us also to a special gratitude to our university. We realize dimly how grateful we shall become later in life for the undergraduate years in which we were permitted the voluptuous self-indulgence of expressing assured but fallacious opinions and were privileged to dissolve the foundations of society, religion and morals in our discussions without having to face responsibility for the result. But as undergraduate years draw to an end, it is too early to anticipate the mellow influence of memory. It is instead time to recall that we are now supposed to "have duly practised our minds", to have sucked the deceptive sweetness out of youthful cynicism, and to

have learned to take responsibility for anything we propose to destroy or to establish. We are expected to have learned a little caution without having lost our sense of righteous indignation and divine discontent, to be true radicals, concerned with the roots of things not their surface passions.

As for "acquiring sound knowledge", we should have learned that no knowledge is sound that is not built of bricks of information cemented together with the mortar of character, and that half-baked bricks and untempered mortar are alike despicable, however pretentious the façade we build. Soundness is an affair of the soul as truly as of the reason. We talk glibly about intellectual honesty, but know in our hearts that we must also have moral honesty. Neither is honest without the other.

To the class of 1947 I extend my grateful thanks for their help in managing our internal affairs here in a crowded and difficult year, and my prayerful wish for their useful and rewarding labours hereafter. If into the words useful and rewarding I personally read a definitely Christian meaning, it is because that is both my personal conviction and the purpose of the academic foundation to which we all belong. I am confident that it is or will become your conviction and purpose also.

G. P. GILMOUR.

The Faculty

AGNEW, LADY SWANZIE, M.A. (Edinburgh)
Sessional Lecturer in Geography, 1946

ALBAUGH, GAYLORD PIERCE
B.A. (Ohio State), B.D. (Colgate-Rochester)
Assistant Professor of Church History, 1943

ANDERSON, O. LYNDSEY SAVAGE, B.A. (Toronto)
*Graduate Assistant in Zoology and
Organic Chemistry, 1946*

ARMSTRONG, HERBERT STOKER
M.A. (Toronto), PH.D. (Chicago)
*Assistant Dean of Arts and Science
Assistant Professor of Geology, 1941*

BANKIER, CATHERINE HOLGATE
B.A. (McMaster), M.A. (North Carolina)
Lecturer in French, 1943

BANKIER, JAMES DOUGLAS, M.A. (Queen's), PH.D. (Rice)
Lecturer in Mathematics, 1945

BAXTER, CLAYTON AMOS, M.A., PH.D. (Toronto)
*Sessional Lecturer in Philosophy and Psychology
1946*

BRISTOL, LYLE OSBORNE
B.A., B.D. (McMaster), S.T.M. (Union Theological
Seminary)
Lecturer in Greek, 1943

BRITTON, FRANCIS RONALD
B.SC. (University College of Wales)
Sessional Lecturer in Mathematics, 1946

BRONNER, FREDERIC JEAN LIONEL
B.A. (Queen's), M.A. (McGill), PH.D. (Ottawa)
Assistant Professor of French, 1944

BROTHERS, MURIEL, B.A. (McMaster), M.A. (Oxford)
*Acting Dean of Residence
Sessional Lecturer in English, 1946*

BROWN, IVY JEAN, B.A. (McMaster)
Graduate Assistant in Botany, 1946

BURKE, CHARLES ELDRID
M.A. (McMaster), PH.D. (Illinois)
*Dean of Arts and Science, Professor of Chemistry
1930*

BURRIDGE, ARTHUR ALFRED, B.A. (McMaster)
Director of Physical Education, 1930

CARDINAL, CLIVE H., M.A. (McGill)
Sessional Lecturer in German, 1946

CRAGG, LAURENCE HAROLD, M.A., PH.D. (Toronto)
Assistant Professor of Chemistry, 1943

DAWES, HENRY FRANKLIN
M.A., PH.D. (Toronto), F.R.S.C.
Professor of Physics, 1911

DEAN, GORDON HOWLETT, M.SC. (McMaster)
Instructor in Physics, 1946

DULMAGE, HORACE ANSON, B.A., B.D. (McMaster)
Lecturer in Philosophy and Psychology, 1943

FINDLAY, WILLIAM, M.A. (McMaster), PH.D. (Chicago)
Professor of Mathematics, 1905

FREEMAN, HAROLD AUSTIN, M.A. (Saskatchewan)
Associate Professor of French, 1931

GAISER, LULU ODELL
B.A. (Western), M.A., PH.D. (Columbia)
Associate Professor of French, 1932

GILMOUR, GEORGE PEEL
B.A., B.D. (McMaster), M.A. (Yale), D.D. (Victoria)
Chancellor, Principal, ex-officio, of the Faculty, 1929

GRAHAM, RONALD POWELL
M.A. (Queen's, Columbia), PH.D. (Columbia)
Assistant Professor of Chemistry, 1942

HADDOW, GEORGE CALDWELL, M.A. (Toronto, Oxford)
Professor of English, 1926

HURD, WILLIAM BURTON, O.B.E. (Military Division),
B.A. (Manitoba), M.A. (Oxford), F.R.S.C.
*Professor of Political Economy, 1935
(on leave of absence 1946-47)*

JOHNS, ALFRED EDWARD, M.A., PH.D. (Toronto)
Professor of Mathematics, 1931

JUDD, WILLIAM WALLACE
B.A. (McMaster), M.A. (Western), PH.D. (Toronto)
Lecturer in Zoology, 1946

KIRKCONNELL, WATSON
M.A. (Queen's), PH.D. (Debrecen), LL.D. (Ottawa),
F.R.HIST.S., F.R.S.C., O.P.R.
Professor of English, 1940

The Faculty

KITCHEN, LEWIS CLAYTON, M.A. (McMaster),
PH.D. (Hartford Seminary Foundation)

*Lecturer in Missions and Religious Education, and
Director of Field Work for Theological Students, 1945*

KRAUSSE, WALTER, M.A. (Toronto)
Sessional Lecturer in German, 1946

LAKING, LESLIE, B.S.A. (Ontario Agricultural College)
Special Lecturer in Botany, 1946

LANG, HAROLD WOODWARD, M.A., B.D. (McMaster),
S.T.M. (Union Theological Seminary)
*Associate Professor of New Testament Interpretation
1942*

LEWIS, LORNA GWENDOLYN, B.P.H.E. (Toronto)
Assistant Director of Physical Education, 1946

LINE, JOHN, M.A., S.T.D., D.D.
Visiting Professor of Christian Ethics, 1946-7

MACDONALD, NORMAN, B.A. (Queen's), M.A. (Harvard),
PH.D. (Edinburgh), F.R.HIST.S.
Professor of History, 1930

MACKAY, ERNEST G.
B.A.SC. (Toronto), A.M.E.I.C., O.L.S.
Special Lecturer in Surveying

MCCALLION, WILLIAM JAMES, M.A. (McMaster)
Sessional Lecturer in Mathematics, 1943

MCCREADY, HERBERT WILLIAM, M.A. (Toronto)
Lecturer in History, 1943

MCIVOR, RUSSEL CRAIG, B.A. (Western), M.A. (Chicago)
Assistant Professor of Political Economy, 1946

MCKEON, MARTHA YOUNG
B.A. (Pennsylvania College for Women)
Sessional Instructor in English, 1945

McLAY, ALEXANDER BOYD
B.A. (McMaster), M.A., PH.D. (Toronto), F.R.S.C.
Professor of Physics, 1930

McMULLEN, GEORGE A., B.A. (Toronto)
*Special Lecturer in Public Reading and Speaking
1940*

MARTIN, ALBERT PRAY
B.A. (Brown), M.A., PH.D. (Wisconsin), R.B.L.
Professor of German, 1939

MARTIN, EDITH MARY FORSTER
B.A. (Alberta), M.A. (London)
Sessional Lecturer in English, 1946

MICHELL, HUMFREY
B.A. (Oxford), M.A. (Manitoba), F.R.S.C.
Professor of Political Economy, 1919

MOON, ROBERT JAMES
B.A. (Southwest Missouri State Teachers College),
PH.D. (Chicago)
Professor of Physics, 1947

NEW, CHESTER WILLIAM
B.A. (Toronto), B.D. (McMaster),
PH.D. (Chicago), F.R.HIST.S., F.R.S.C.
Professor of History, 1920

PARKER, NATHANIEL HERRINGTON, B.SC. (Mississippi),
TH.M., TH.D. (Southern Baptist Theological Seminary)
*Professor of Hebrew and Old Testament Interpretation
1925*

PATRICK, ARTHUR WILLIAM
M.A. (Manitoba), PH.D. (Paris)
Assistant Professor of French, 1946

PETTIT, L. J., B.A. (Queen's)
Sessional Instructor in History, 1946

PRINCE, LESLIE ANDERSON
Assistant Director of Physical Education, 1946

RADFORTH, NORMAN WILLIAM
M.A. (Toronto), PH.D. (Glasgow)
Professor of Botany, 1946

SALMON, EDWARD TOGO
B.A. (Sydney), M.A., PH.D. (Cambridge)
Professor of Ancient History, 1930

SALMON, MARINA TEODORA, L. es L. (Bucharest)
Special Lecturer in French, 1945

SCOTT, HARRY STUART, M.A.SC. (Toronto)
Sessional Instructor in Geology, 1946

SCOTT, VIOLET TERRYBERRY, B.A. (McMaster)
Demonstrator in Physics, 1943

SHARPE, GLADYS JOSEPHINE, B.S. (Columbia), REG.N.
Lecturer in Nursing Education, 1946

SHAW, J. M., M.A., D.D.
Visiting Professor of Systematic Theology, 1946-47

The Faculty

SHORT, FREDERICK WALTER
B.A. (McMaster, Alberta), M.Sc. (Minnesota)
Sessional Lecturer in Economics, 1945

STEARNS, CLEMENT HODGSON
M.A. (Cambridge), B.D. (London), Ph.D. (Toronto)
Director of University Extension, Professor of Classics

STEWART, HAROLD STANLEY, B.A. (Harvard, Rochester),
B.D. (Rochester Theological Seminary),
D.D. (Rochester)
*Dean of Theology, Professor of Practical Theology
1939*

THODE, HENRY GEORGE
M.B.E., M.Sc. (Saskatchewan), Ph.D. (Chicago), F.R.S.C.
Professor of Physical Chemistry, 1939

TULK, ALEXANDER STUART, M.Sc. (McMaster)
Graduate Assistant in Chemistry, 1945

WARREN, ARTHUR EMERSON
B.A. (Acadia), Ph.D. (Harvard)
Professor of Zoology, 1933

WATERS, FREDERICK WILLIAM
B.A., B.D. (McMaster), Ph.D. (Yale)
Professor of Philosophy, 1936

WATSON, JAMES WREFORD
M.A. (Edinburgh), Ph.D. (Toronto), F.R.G.S.
Associate Professor of Geography, 1939

WILES, ROY McKEEN
B.A. (Dalhousie), M.A., Ph.D. (Harvard)
Associate Professor of English, 1935

WOODS, MELVILLE EDGAR, B.A. (Toronto)
Sessional Lecturer in Science, 1943

SHARPE, MISS GLADYS J., B.S., REG.N.
Director of Nursing Education

SPURR, JOHN W., B.A., B.Ed.
Librarian

MEIKLEHAM, MARGET H. C., B.A., M.A.L.S.
Assistant Librarian

BENGOUGH, ELVEN J., B.A., C.S.R.
Registrar, Secretary of the Senate

BRIDGE, HAROLD E., B.A., B.Th.
Director of Admissions and Freshman Studies

PATERSON, WILFRID N., B.A.
Bursar, Secretary of the Board of Governors

FROST, RUSSELL W., B.A.
Director of Planning and Development

SELDON, DONALD G., B.A.
Director of Alumni Activities

AIKENHEAD, GERTRUDE
Special Lecturer in Mental Hygiene

ANDERSON, H. OLGA, B.A.
Special Lecturer in Russian

ANDISON, JOHN GORDON, M.A., Ph.D.
Special Lecturer in French

ARMSTRONG, GEORGE, B.A.
Special Lecturer in Cost Accounting

BRIEGER, PETER, Ph.D.
Special Lecturer in Fine Arts

CROMWELL, R. FLOYD, M.A., Ph.D.
Special Lecturer in Vocational Guidance

DENISON, H. J., C.A.
Special Lecturer in Accounting

HARKNESS, REUBEN ELMORE ERNEST, A.M., B.D., Ph.D.
Special Lecturer in History

HENRY, H. G.
*Special Lecturer in Industrial Organization
and Management*

LEWIS, RALPH HARTON, B.A.
Special Lecturer in Vocational Guidance

LINTON, E. B., B.A.
Special Lecturer in Accounting

MANN, S. H., M.A.
Special Lecturer on Russian Civilization

McCREARY, JOHN KENNETH, M.A., Ph.D.
Special Lecturer in Psychology

PRICE, GORDON EDWARD, M.A.
Special Lecturer in Political Economy

SOLT, JAMES EARL, M.A.
Special Lecturer in Psychology

STEVENS, VERNON S., M.A.
Special Lecturer in Psychology

WATSON, JESSIE, M.A.
Instructor in Crafts and Hobbies

WHIDDEN, REGINALD WILBUR, M.A., Ph.D.
Special Lecturer in English

Faculty of Arts and Science

GRADUATES in ARTS
HONOUR COURSES

Gordon H. Allison
HAMILTON

Honour English

At the age of two, Gordon moved to the ancestral farm at Ryckman's Corners. Hamilton Central Collegiate and Caledonia High shared in his secondary education. Hamilton Normal was followed by a year at Mac. He taught five years in Norfolk County, and three as principal in Barton. After graduating in Course 18, he joined the staff of Caledonia High. Future: Teaching English.

Mildred Barrett
BRANTFORD

Honour History

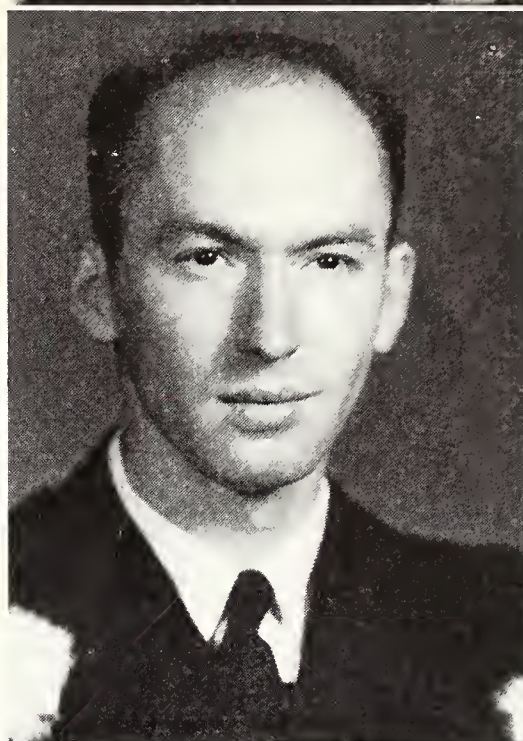

A lively interest in things in general and in History, Modern Literature and International Relations in particular, has led Mildred with her capacity for intelligent discussion, to success in the field of debating. Executive ability, tempered by a sense of humour, has made her invaluable to many clubs. Her friends know that she deserves the best the future can offer.

William Richard Bergey
KITCHENER

Honour Chemistry and Geology

"Radcliffe" arrived from "Krautville," immediately became absorbed in the "Bottom Floor Gang" of North House, and never failed to participate in their ignominious activities. His familiar shouts of "No, no, I won't go, I have to study!" as he was swiftly ushered down the stairs and out the door will long be remembered. He played every inter-year sport and spent his summers swatting mosquitoes in the N.W.T. With his generosity and earnestness, "Ouiff" will travel a long way down the road of life.

Donald Mackay Beaumont
CAPREOL, ONT.

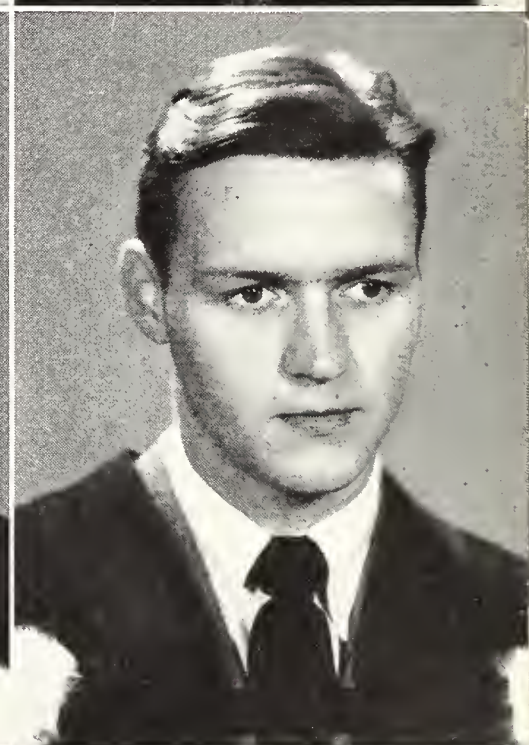

Honour Chemistry

Don was the first connoisseur of languages to find his way into the Chem. lab. (where he needed his linguistic knowledge to follow the conversation). He made himself famous as one who was ready to try anything. When the lab. filled with smoke and fumes, the inevitable question was "Where's Beaumont?" With such an inventive nature, he is bound to go far. His ambition is to travel around the world. Good luck, Don!

Arthur Bowes
HAMILTON

Honour French and German

What with his occasional jaunts to New York, Buffalo and the theatre world of Toronto, Art has somehow found time to complete an honour course in French and German here at Mac. His extra-curricular activities have brought him in close contact with the entertainment world and this contact makes him an interesting and amusing conversationalist and also "Director of Entertainment." Future: He won't say.

Abbie Carolyn Brown
PRINCETON, ONT.

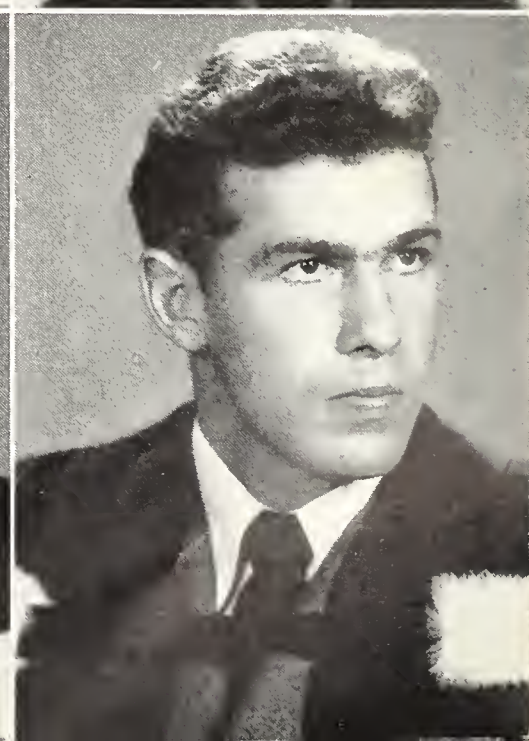

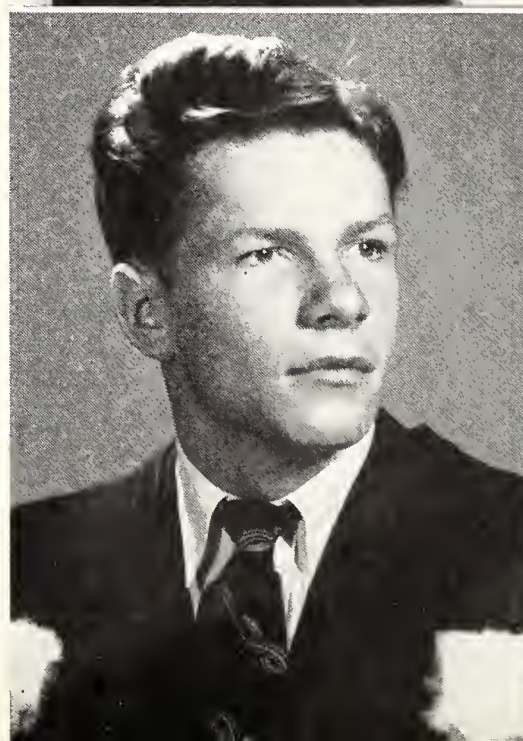

Honour English and French

Natural friendliness and charm, combined with a knack for throwing parties and playing bridge have made Abbie a true Wallingfordite. During her years at Mac she has given her whole-hearted support to M.C.U., Modern Literature, Modern Language, W.I.R.C. and Year '47 athletics. Of her intellectual ability it is enough to say that she chose Course 25 and stayed with it. Abbie's plans for the future include a year at O.C.E.

Stan Kelly Campbell
BOTHWELL, ONT.

Honour History

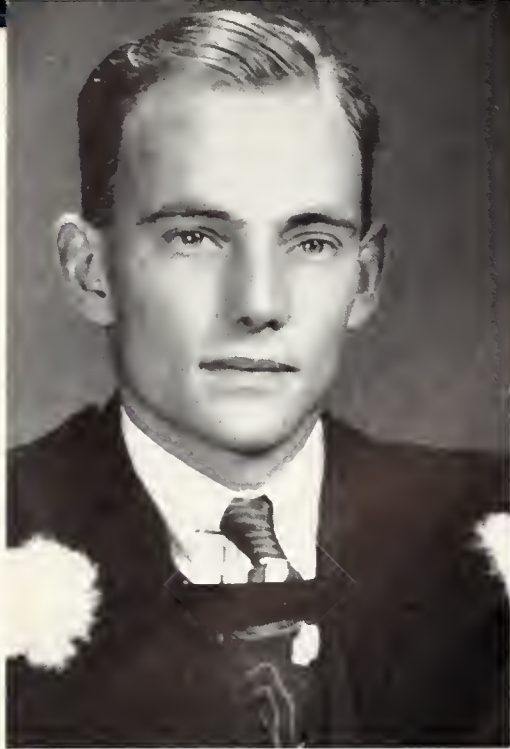

"Soup" arrived at Mac encumbered with a great many convictions and conventions. After four years of rigorous training in the traditions of North House, he emerges unconventional, and as yet, unconvicted. His participation in the Triple C involved him in numerous anti-social "do's" where he became outstanding in his organization for crime. His future, like his past, will leave nothing to be desired. It involves a trip around the world in general, and beachcombing on some South Sea island in particular.

William MacD. Bryden
GUELPH

Honour Geology and Chemistry

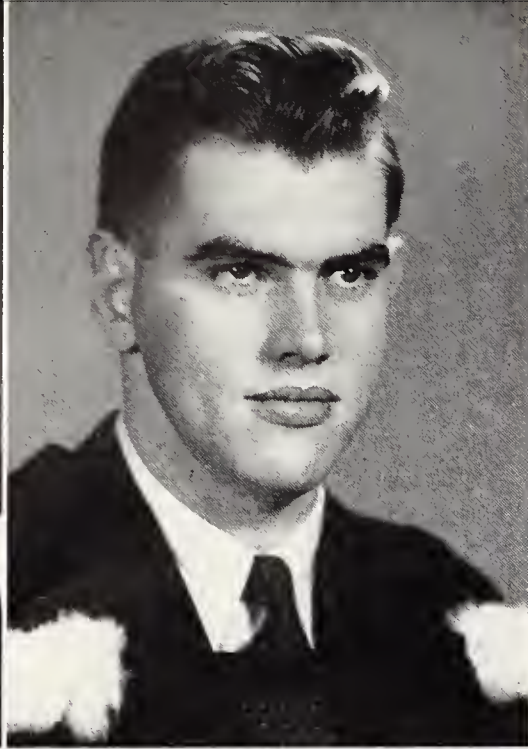

"Mo" came to Mac from Guelph C.I. on an O.H.A. Scholarship. With a flare for sports and a mild interest in Geology he spent four hectic years playing Varsity rugby and hockey while his summers were taken up by hard-rock mining in the Rockies. "The Kid," a denizen of North House, soon became an integral part of the social life there, where as a member of the Triple C he became the perpetrator of many crimes and an eager participant in others.

James Sherly Cross
COBOURG, ONT.

Honour History

Jim made his entrance to McMaster on a Peterboro-Lindsay Scholarship. During his first two years he participated in Varsity soccer (I and II) and Harrier (II). Then he took time out to serve in the Air Force ('42-'45) with his target Germany, and came through with flying colours and a D.F.C. On his return, soccer (III and IV) M.I.R.C. (III and IV), Muse (III), Muse Editor (IV) showed his fine ability and wide interests, and kept him busy, but still he found time to win the I.O.D.E. History Scholarship (III) for which he gives due credit to his stay with "the Senator" (III). As Centre House Housemaster he administered discipline with personality—a great little guy.

William George Davey
HAMILTON

Honour Chemistry

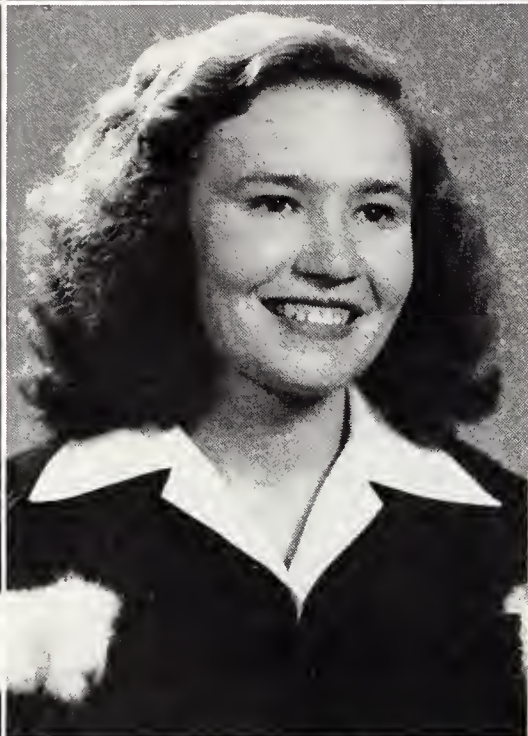

Graduating from Westdale, Bill sought higher academic honours (it says here) at McMaster. Always hustling, Bill took more than a major part in extra-curricular work. He played Varsity basketball (II, III-IV) and football (IV). He was Frosh. Rep. Sophomore and Senior Year President. The "Guardian of the Gowns," Bill made many true friends throughout his star-studded career. He was easy to know and hard to forget, and altogether, a grand guy. Future: ?

Bruce Davies
HAMILTON

Honour French and German

Emerging from a hermit-like existence at H.C.C.I., I entered upon a new life at McMaster. I enjoyed myself very much in Dramatics, in several clubs, and finally as a "hanger-on" in the Board of Publications. Post-graduate work in the field of Romance languages is my immediate goal. Travel in foreign parts and further activity in dramatics would be welcome additions.

Laura Margaret Flatt
HAMILTON

Honour Latin and English

Spiced with English and salted with Latin, Laura's quick wit has surprised many an unsuspecting victim. Her victims are won to friendship, however, by her ready smile and delightful sense of humour. We know that as she leaves Classics Club and Mac behind, and goes on to her chosen profession, her personality and her capacity for hard work will bring her success.

Glenne Anne Growcock
HAMILTON

Honour Chemistry

Glenne came to Mac from nearby Westdale Collegiate, to learn more about chemical reactions. Her interests were divided between science courses and science clubs. She was a member of the Science Club (II-III), Vice-President (III), and C.I.C. (III-V), librarian (IV). Winning friends was easy for Glenne, and she well exhibited her interest in her fellow-students as a capable Vice-President of the W.S.B. in her senior year.

Bernice Matilda Halfpenny
HAMILTON

Honour English and French

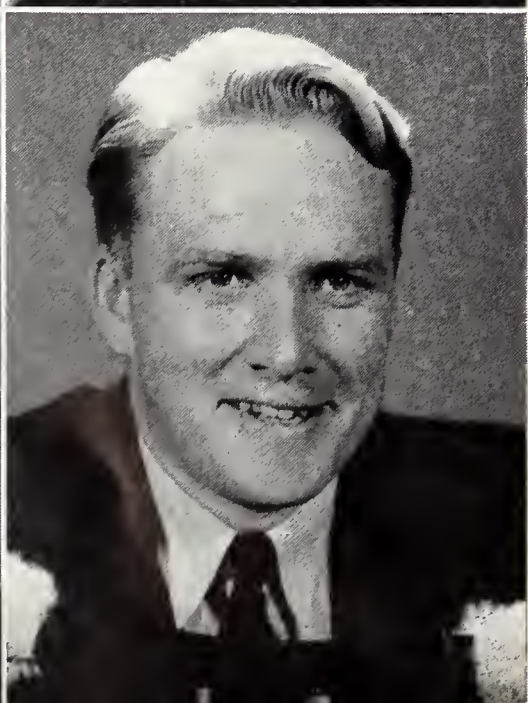

Vivacious and attractive, Bunny has been very successful in dramatics. She has been an ardent member of the French Club, serving faithfully as its energetic president this year. We hear that besides her talent in English and French, she has culinary ability. We trust that this latter avocation will win her a happy future.

Harris Hendricks Hord
RICHMOND HILL, ONT.

Honour Biology

Tiring of the "idle-rich" life of a junior bank clerk, Harris came to Mac in 1940, but left two years later to join the R.C.A.F. He returned early in 1946 to sample the communal life of Edwards Hall, then having decided in favour of matrimony, was married in July to Lois Borden, class-mate of '44. He plans to do post-graduate governmental research on the production of a new, non-destructive, photo-synthetic ship-worm.

Raymond A. Jenkins
HAMILTON

Honour Mathematics and Physics

In 1937 a scholarship in Maths. and Physics started Ray on his way through Mac. Three years later, world events forced an interruption, and until 1945 he applied himself to the task of thwarting the Nazis in many parts of Europe. His task completed, he was happy to return to his friends and studies at Mac. An avid reader, straight thinker, and eager conversationalist, his interests include philosophy and Pol. Econ. In the future he hopes to do post-graduate work in Maths. Good luck, Ray—You've earned it.

Ernest R. MacKenzie Kay
HAMILTON

Honour Zoology and Chemistry

Ernie came to McMaster with a Scholarship from Westdale. His cheery disposition and ready wit made him a popular and valued member of the Science Club (I and II), C.I.C. (III and IV), Operetta (III), and Men's Choir (IV). The Pre-Med. Club claimed his extra time (Treas. III, Pres. IV). Ernie is a trustworthy friend and an ambitious and ardent worker. His pleasant disposition, along with a detailed knowledge of the beauty spots of the Dundas Marsh, assures Ernie a bright and profitable future. We wish him the best of luck as he goes on to post-graduate work.

Garnet Paul McCandless
HAMILTON

Honour Political Economy

"G.P., Jr.", wheeled into Mac six years ago on a Frost-Rotary Scholarship. Except for two years which he devoted to bolstering the R.C.A., he has enthusiastically applied his energies to a wide field of campus activities varying from Varsity harrier (II and III), writing poetry (Muse I-IV), Political Economy Club (III-IV) and inter-year Dramatics, to Romance (I-IV). His offices ranged from Frosh debating to President of the Students' Council. His quinitic enthusiasm and indomitable personality assure him of a well-deserved success.

Peter Richard MacGibbon
WINNIPEG, MAN.

Honour Political Economy

Pete left the windy City of Winnipeg arriving at Mac in '41, and stayed until '47 with a period of two years out in the Navy. During his time here he sojourned with "true-love" Trotter without succumbing to his influence, and with G.P. Jr. without being talked into anything else. In his final year, Pete was Kakiak of Edwards Hall, and catered (with an iron hand) to the ethereal whims of the gentlemen quartered there.

Norman James Maxwell
HAMILTON

Honour History

Norm came to Mac in '42 and travelled west with the harvesting party. After completing his freshman year he entered the R.C.A.F., returning to Mac in January, 1945. Norm is an athletic "M" winner. His extra-curricular activities such as Varsity football and basketball, inter-year sports, and the M.I.R.C. have helped prepare him for O.C.E. and a future teaching history and P.T.

Karmian Alice Anita Kent
HAMILTON

Honour Latin and French

In her four years at Mac, Karmy has done more than most people do in a life time. Her undying enthusiasm has added to the Classic Club (II-IV) as Sect.-Treas. (III) and President (IV); French Club (II-IV); Operetta (II-IV), Ass. Sect.-Treas. (III); and she has been the student representative on the Eligibility Committee (III-IV). Sports are high in her favour and as well as being the Athletic Rep. in her first year, she has been manger of badminton (III), and volleyball (IV). She doesn't know yet whether she is headed, but we know that she will make a success of whatever she does.

Donald Angus McMillan
HAMILTON

Honour Mathematics and Physics

Don blew in from the windy west, breezed through upper school at Delta C.I., then drifted into Mac. In his first year, a "fog" from Aerovox settled over him, obscuring all Wallingford's gracious charms. Other extra-curricular activities included Science Club (I-IV), Math. Club (I-IV; Vice-Pres. IV). To gain experience for his future career, he worked as a stopper at Dofasco during summers. His future is connected with condensers and O.C.E.

Edward Markarian
ST. CATHARINES

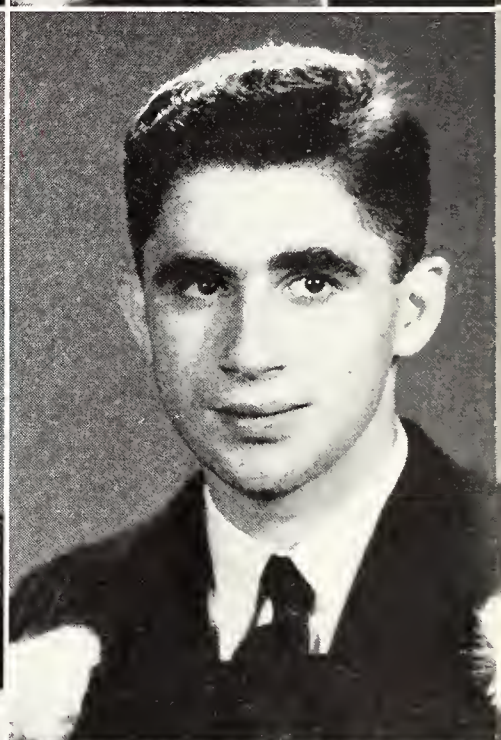

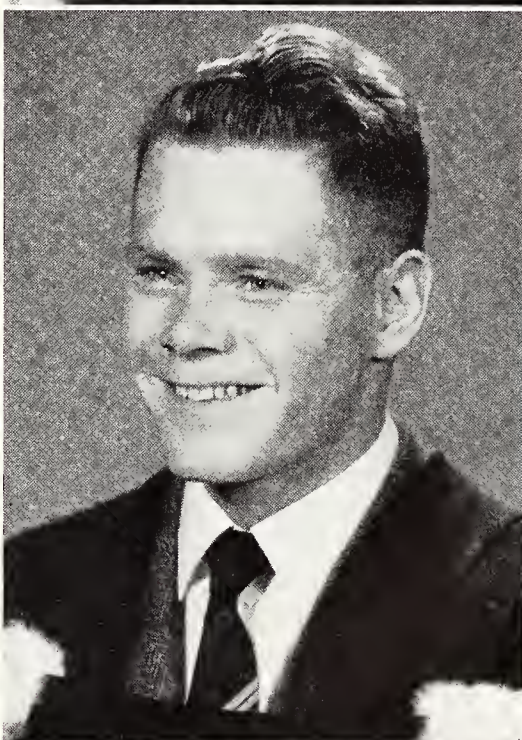

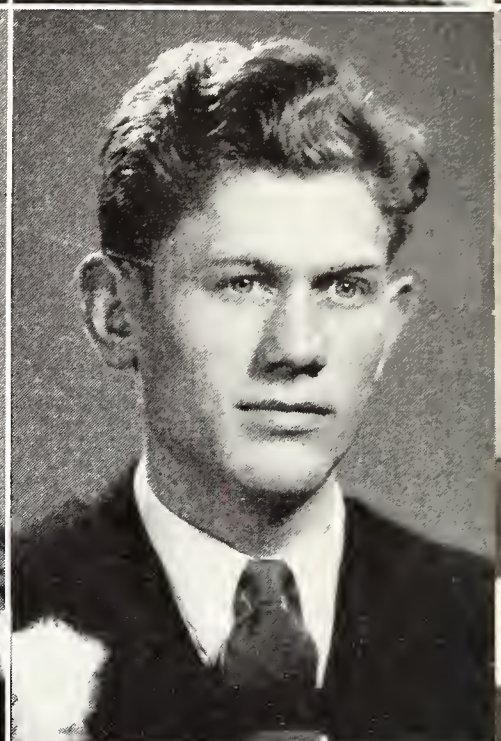

Honour Chemistry

Though he came from the Garden City of St. Catharines, Mark showed little interest at first in the flowery belles of McMaster. This year, however, under the influence of a new room-mate, this thin veneer of disinterestedness was peeled off and since then frequent sorties have been made from Centre House to Wallingford. In spite of such distractions, Science has remained Ed's chief interest and he has worked diligently at the task of getting the most that chemistry has to offer. His perseverance and industry assure him of success in his chosen field.

Paul William Miller
WELLAND, ONT.

Honour English and French

Coming to Mac from Welland on a Regional Scholarship, Paul added to his scholastic achievements by taking the McGregor-Smith-Burr Scholarship in English. After touring the boarding-houses of Hamilton, he came to roost in the "Shambles" where his aesthetic and philosophical tendencies have been sedulously fostered. Modern Literature, Modern Language and Philosophy Clubs, Operetta, "pole-inspecting," Sil reporting, reflect his multifaceted interests.

Beatrice Marion Pickett
STONEY CREEK, ONT.

Honour English and French

With her shy and retiring nature, Bea has won a place for herself in the hearts of her Mac friends. She has been a conscientious library assistant as well as a member of the Modern Language Club. Although we hear her saying, "I don't want to go to French," she feels her course will be a valuable asset to her future in library work.

Gene Eleanor Plowes
BRANTFORD

Honour Political Economy

Gene came to Mac via the Albert Matthews Scholarship in Foreign Languages, but being more interested in finance and affairs of state, registered in Honour Political Economy and won the T. Dowsley Kennedy Scholarship in Year II. Her interest in this field shows up in her activities—Math. Club (I-III), Pol. Econ. Club (II-IV), W.I.R.C. (III, IV), Finance Committee (III), (Chairman IV) and Treasurer of the Students' Council (IV). Her ambition is "to get a job."

Linton D. Read
DUNDAS, ONT.

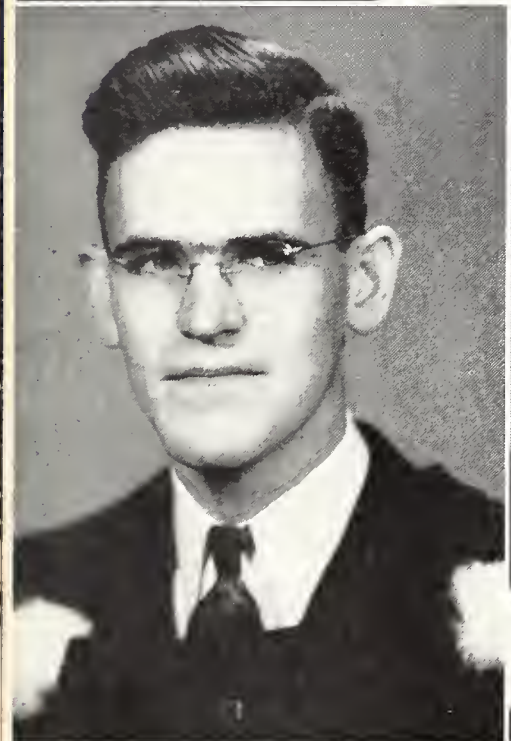

Honour English and French

"Lindy," the little man with the congenial personality, has contributed much to the life of the university. He will be remembered chiefly for heading the Operetta's most successful production "The Mikado" and for his weekly column, "Profs in Profile." He has held offices on the Board of Pubs, and this year was Pres. of the Men's Choir, and held a position on the Students' Council. His wide interests and academic ability ensure for him much success in the teaching profession.

John E. Reble
KITCHENER

Honour Political Economy

John, with his ever-ready, be-dimpled smile, has endeared himself to all who have come to know him during his four years in Course 35. His unbounded energy and enthusiasm have won him the distinction of holding several major positions in the Board of Pubs and on the Junior Year Executive. He sang in the Men's Choir and also engaged in inter-year sports. Certainly a fine future awaits him, since he combines a grand personality and an academic ability with a notable breadth of extra-curricular talent and experience.

Charlie A. Robinson
STAYNER, ONT.

Honour Mathematics and Physics

Coming to Mac on a provincial scholarship, Charlie enrolled in pass Maths. After one year, however, the lure of Physics labs. became too much for him and he switched to Course 30. Between labs. and lectures, he found time to appear in the Operetta (I, II), Math. Club (I-IV) and Men's Choir (I-IV). Like most of his Maths and Physics friends of '47, Charlie plans to attend O.C.E. after graduation.

Arthur Schaber
CARBON, ALTA.

Honour Science

After spending some time in practical training in various fields, Art finally came to Mac for more theory. While no pretender to brilliance, as a student here he has achieved a nature and masterly compromise between catering to convention and behaving as if he had just arrived from Mars. As a broad-minded biologist he now views the field of education.

George Scroggie
HAMILTON

Honour Mathematics and Physics

As well as for remaining four years in "the hardest course at Mac," Scroggie is well-known for his athletic ability, his trombone, and his aversion to gowns. An all-round sportsman, George participated in inter-year football, hockey, track, basketball, Varsity football (IV), and was awarded the Chancellor's Medal and the Chief's Trophy (III). With his good-natured grin and ability to make everyone like him, George is bound to be successful in whatever he does. Immediate future: O.C.E.

Robert S. Shelley
HAMILTON

Honour Chemistry

Westdale's contribution to Honour Chemistry arrived with a deep appreciation of women, sports and science (in that order). As a star of Year '47's championship rugby teams (II and III) and playing manager (IV), not to mention inter-year hockey (I), Bob showed his sporting ability. His interest in Science found an outlet in the Science Club (I and II) and C.I.C. (III and IV), while his interest in women in general, and Wallingford women in particular, has never flagged. With his natural friendliness and his personality, Bob will go far in life.

Arthur J. R. Smith
SIMCOE, ONT.

Honour Mathematics and Political Economy

Few students have entered Mac with so colourful a background, or left the university after such an outstanding career. Gifted with a sincere and likeable personality, remarkable academic ability, and an incredibly wide scope of interest and general knowledge, Art, though undecided about his future, will make a success of whatever he does—a success that will lead many of us some day to say, "I knew him when . . ."

Russell Tartaglia
FORT ERIE, ONT.

Honour Chemistry

Rusty, the "Fort Erie Mudder," after spending a year at Toronto University, saw the light and came to McMaster. Majoring in Varsity football (III, IV), many inter-year sports, "do's", "Rache," and giving the odd moment to Course 33, Rusty's quiet manner and winning smile won him innumerable close friends who wish him all success and happiness in the future. They don't come any better. Future: Inevitable!

Raymond Arthur Sims
BARTONVILLE, ONT.

Honour Biology

Ray came to Mac from Saltfleet H.S. the proud possessor of a great curiosity to find out "what makes things tick." Although his course has forced him to confine much of his attention to stale fish, dead cats, dry weeds, and bacteria with unpronounceable names, he is still fascinated by life. Besides belonging to several clubs, Ray has had, ever since his first year, another extra-curricular interest which we don't expect him to give up when he graduates. His fierce independence and his untiring unselfishness will distinguish him wherever he goes. Best wishes, Biolog!

James H. Smith
NIAGARA FALLS, ONT.

Honour History

"Ring in the valiant man and free,
The larger heart, the kindlier hand."

Jim hails from Niagara Falls as a star-pupil of Stanford Collegiate—"The best school in the province." At McMaster, after two years with the Bank of Montreal, his talents were revealed in the Orchestra, Rugby Team, Dramatics Society Executive, Best Actor Award in '46, and Presidency of the M.I.R.C. Class-mates think highly of Jim's friendliness and steady diligence. We know he will do well at O.C.E. and in the teaching profession. That nurse seems to be "The Right Gal," Jim!

Margaret Elizabeth Urry
BARRIE, ONT.

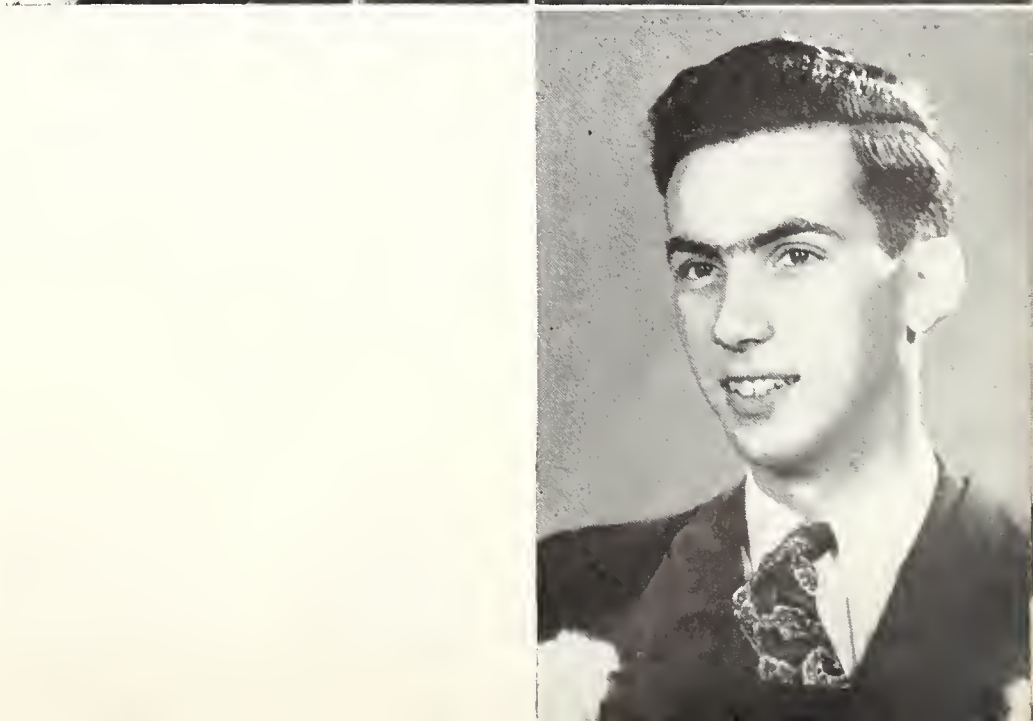

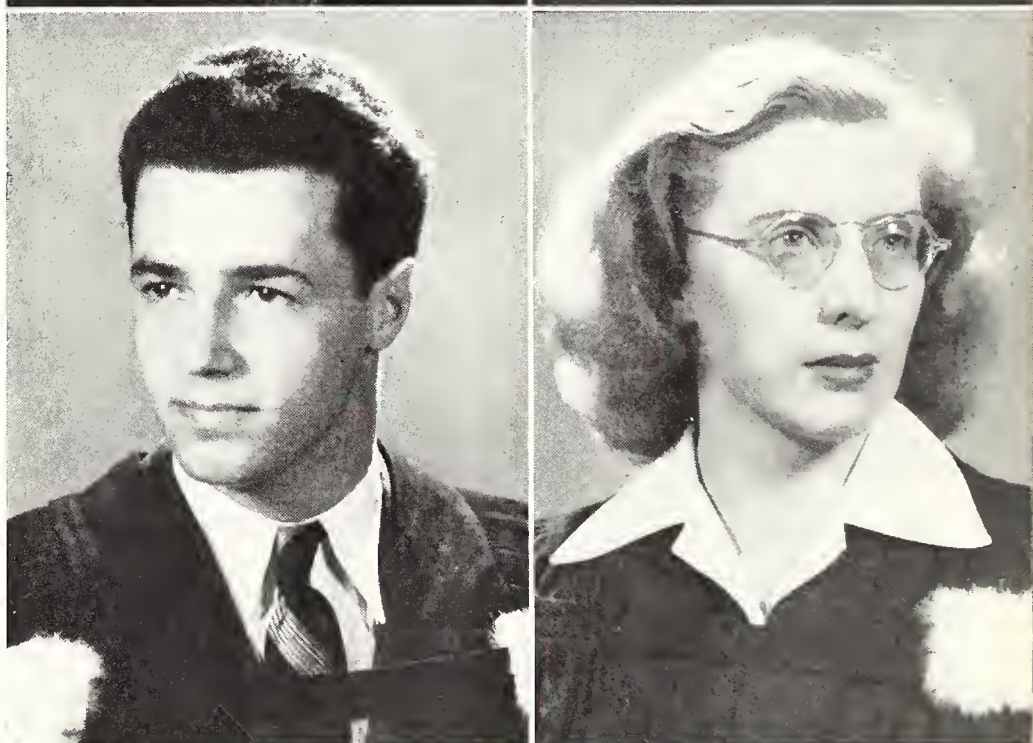

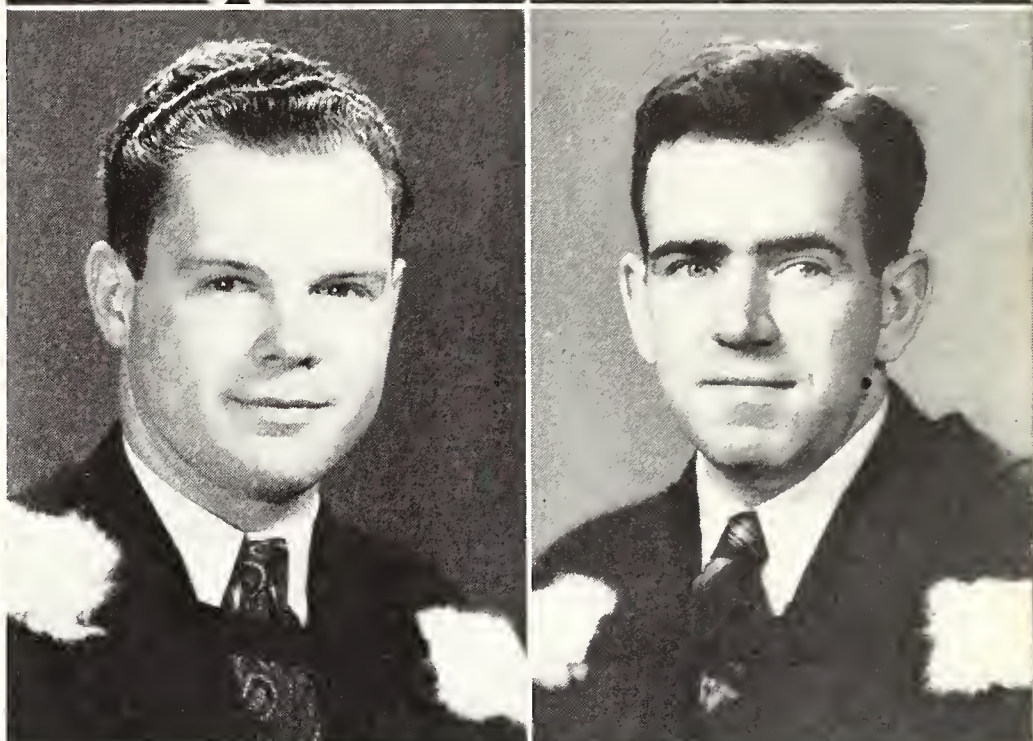

Honour Mathematics and Physics

Blonde, good-natured, trim and diligent—Natch! that's Urry. Marg. came to Mac on a regional scholarship and soon proved herself a capable executive as Vice-President of her year III, Secretary-Treasurer Maths. Club (III) and President (IV). It is rumoured that Marg. has never lost an argument. Could it be that the Debating Society overlooked an ardent debater? Future: Undecided but definitely successful. Marg. will always be remembered as the fastest friend but the slowest room-mate.

Howard Rowe Vardy
HAMILTON

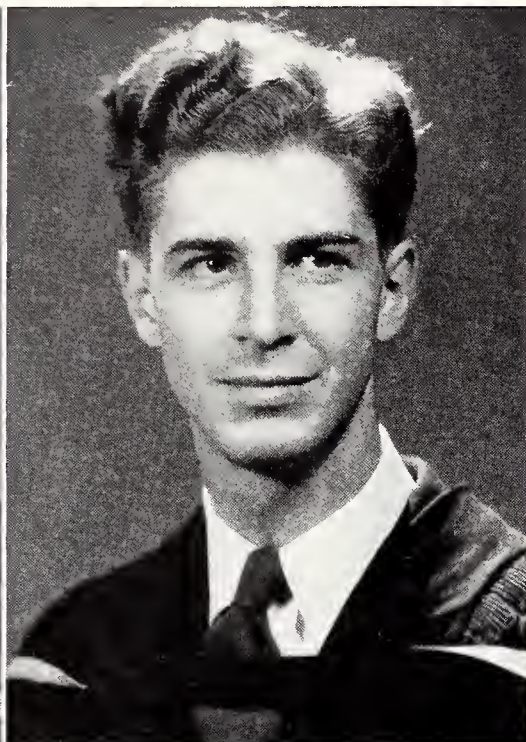

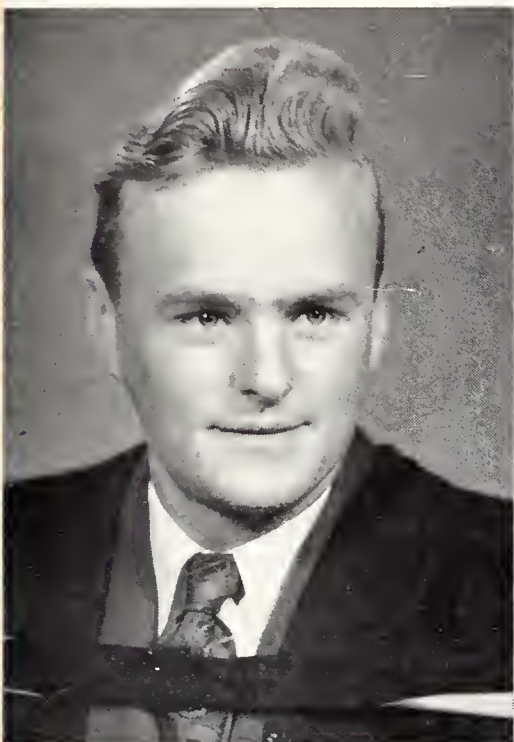

Honour Mathematics and Physics

Almost constantly in a physics lab. since leaving Burlington High, Howard alternated between Mac's labs. and Stelco's physical lab., where he worked for a year before coming to Mac. Mastery of the equation $PV = RMT$ in year III, won for him the Gill Scholarship in Physics. His spare time was occupied by Mac dances, Math. and Science Clubs, and assisting in labs. (III-IV). This character, who would "try anything once," hopes to respond to the beckoning of O.C.E. after graduation.

GRADUATES in SCIENCE

B. Sc. COURSE

Albert Edward Cheadle

LEAMINGTON, ONT.

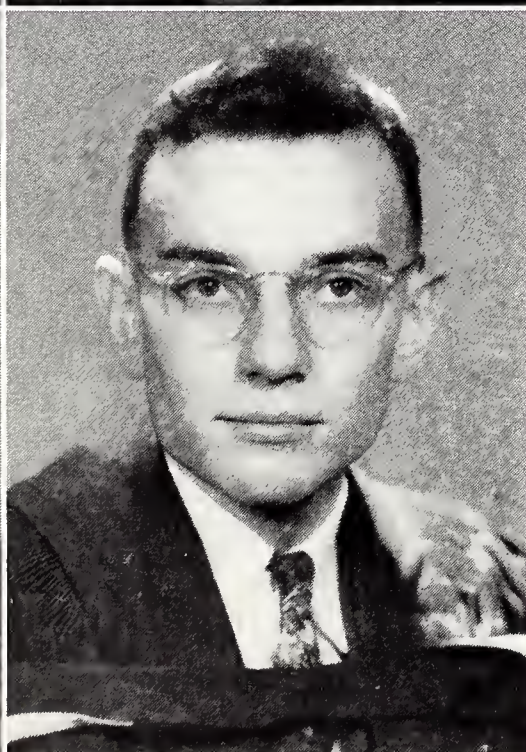

Honour Chemistry and Physics

Little Albert, a graduate of Leamington High (wherever that is), arrived at Mac tooting his trumpet. (Long will he be remembered as one of the few characters to pay his way through university by blowing hot air.) Seeking and finding only the best, Al registered in Course 40. The time not taken by his studies he spent as secretary of the C.I.C., as a member of M.S.P.L. and the Llama Herder's Association, and cleaning up a fortune as middle-man in the hand-painted tie business. Best of luck, Al! May you have a "Sussex-ful" future.

Donald James Crawford
ST. CATHARINES, ONT.

Honour Chemistry and Physics

"Crawf" came to Mac to flunk all the Bible courses he could in four years, and to pick up a few clues in Chemistry on the side. The former he succeeded in doing, but the latter is still shrouded in doubt. During his spare time (that is between Wallingford excursions and the breaking of glassware), Don graced Edwards Hall Executives, the Jr. Year Executive, the Marmor Staff, Science Club, C.I.C., and Dramatics. As for the future: Post-grad work, he hopes. Whatever it is, we know his sparkling wit and keen mind will carry him to the top.

Dorothy Frances Dawes
HAMILTON

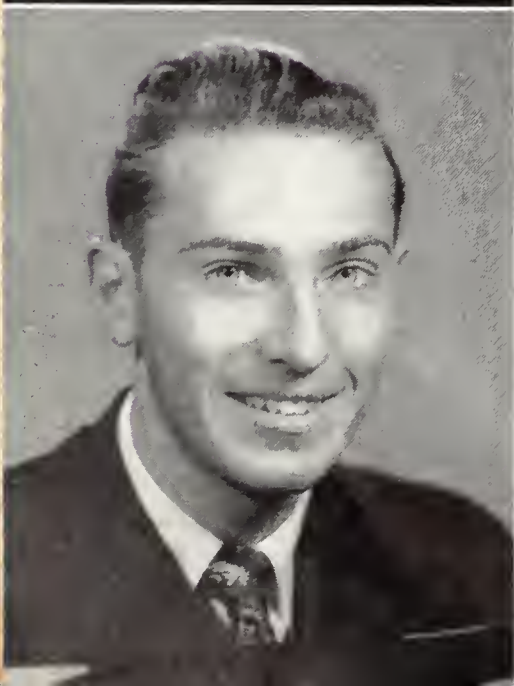

Honour Physics and Chemistry

Frances came from Westdale with her heart set on Maths and Physics, in which course she won the Squire Scholarship. But soon her interests bent towards Chemistry with the result that by year IV she found herself in Physics and Chemistry. Fran found time for numerous activities: Science Club (II-IV), C.I.C. Treasurer (III); Math. Club (I-IV); Operetta (I, III, IV). Beyond graduation, Fran looks forward to research in the field of atomic energy.

John W. Dewdney
HAMILTON

Honour Physics and Chemistry

From Westdale Collegiate, John's character pushed him to McMaster on a Frost-Rotary Scholarship. His perseverance, however, kept him from decaying in Hamilton Hall, which he proceeded to do also in the Board of Pubs. From reporter on the Silhouette in his Freshman year, he rose through News Editor to Associate Editor in Years III and IV. His final year saw him as Vice-President of the Men's Student Body. In this position he produced peerless assemblies and an unsurpassed Mac Formal. John has proven that science men can acquire an education and live.

Warren George Linkert
HAMILTON

Honour Chemistry and Physics

Warren came to Mac by the Delta route and spent four years here playing his trumpet, singing songs and achieving popularity. He was a member of the Science Club (I, II), C.I.C. (III, IV) and was Year Treasurer (IV). Somewhere along the line he picked up the J. W. Gill Scholarship and found time for some lab. assisting. Link will always be remembered as one very fine fellow.

William C. Luton
HAMILTON

Honour Chemistry and Physics

Bill arrived at Mac with a great capacity for hard work, but it was not long before other of his qualifications appeared and he carried off the City of Hamilton Scholarship, as well as played inter-year football and soccer. This demonstration of ability was interrupted when he volunteered for overseas service. As a Lieut. in the South Alberta Regiment, he spent two years in Canada and two more overseas, receiving a citation from Field Marshal Montgomery for gallantry in action. Then he came back to Course 40 and more honours. The future looks merry and bright for Bill as he begins post-graduate work!

Keith A. Lounsbury
SMITHVILLE, ONT.

Honour Chemistry and Physics

Neither a "scab" nor a scatter-brain, Keith has achieved no colourless compromise, but rather, a refreshing norm. Although his proportioned temperament has prevented him from extremely angular concentrations of interest, he has contributed more than his share of genuine cheerfulness and sincerity to the frigidly impersonal plateaus of higher learning in Hamilton Hall. On the same even keel he faces future research.

William Cassels Lyne
HAMILTON

Honour Chemistry and Physics

"Wee Willie" has gone through Mac (and several frosh pins) proudly wearing his Central Collegiate ring. A good Course 40 man, Willie specialized in bridge, Freshman Chemistry, inter-year football, Science Club, C.I.C., M.S.P.L., Llama Herder's Association and Outside Rep. to the Men's Student Body. (We're still trying to find out what that is.) His future plans include metallurgy; his expectations at present are bachelorhood. His academic promise, coupled with his amazing ability to discuss (amicably or otherwise) anything or everything, should carry him far. Best of luck, Will! May your future give you all the good things you deserve.

Robert Wright Slater
HAMILTON

Honour Chemistry and Physics

Hopping to Mac from old H.C.C.I. on a Steel Co. Scholarship, Bob sampled a year of Pre-Engineering. When the light dawned, an assistantship there was exchanged for the weird and wonderful ways of the Course 40 "boys" whom he led as Vice-Pres. of the C.I.C. Such sterling organizations as M.S.P.L., Llama Herder's Union, and "Les Joueurs de Pont" Club claimed his active membership. Posterity will remember him for (1) his periodic fluctuations from women-loving to women-hating (and the simultaneous cycles in mustache growth). (2) his indifference to prescribed courses and yet intense interest in all things scientific — especially aeronautics. The broad scope of his interests and talents both in and outside of the field of science are unique and assures him of great success.

John Macnamara
HAMILTON

Honour Chemistry and Physics

"Handsome John" came from Hamilton Central along with many other future Mac athletes. Gifted as an all-round sportsman and honour student, Johnnie breezed through Course 40, having enough spare time to be his year Athletic Rep. (II, III), Athletic Pres. (IV), and a star member of the Varsity hockey and track teams. His participation in social, academic and athletic events has won him a host of friends who wish him every success in his quest for higher honours. Future: "Thode's Boys" "Blackie" and M.Sc.

Howard Fred Olds
HAMILTON

Honour Chemistry and Physics

Freddie bounced in from Westdale High clutching the Rotary Scholarship in one hand and his Chem. texts in the other. Although a capable Science Club President (III), it was not until his final year that the true variety of practice in SRE 2 led to the Operetta chorus, and as a sideline, he managed the track team and was Year '47 Secretary. Keep up the good work, Fred!

Ransom Harold Vrooman
HAMILTON

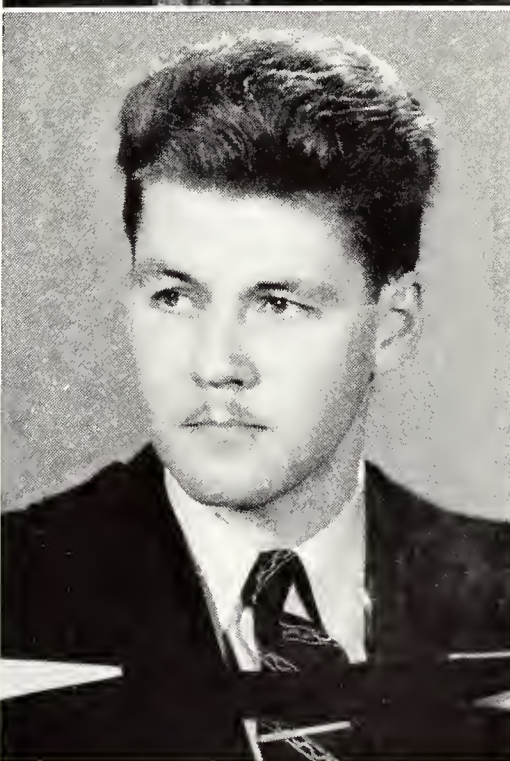

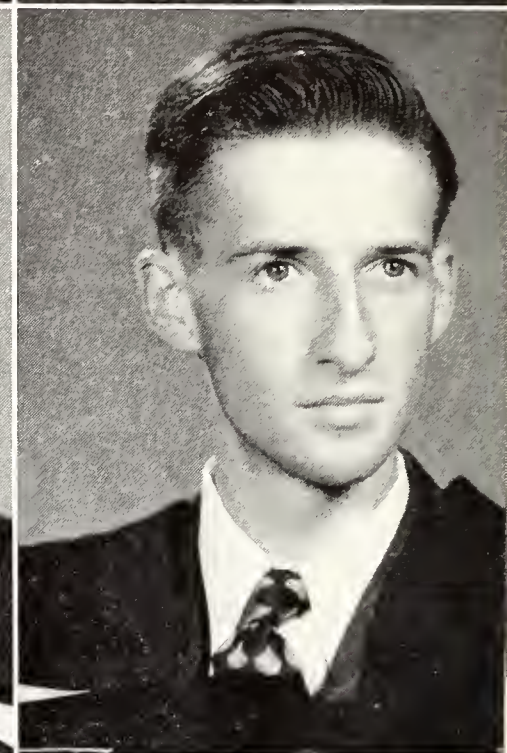

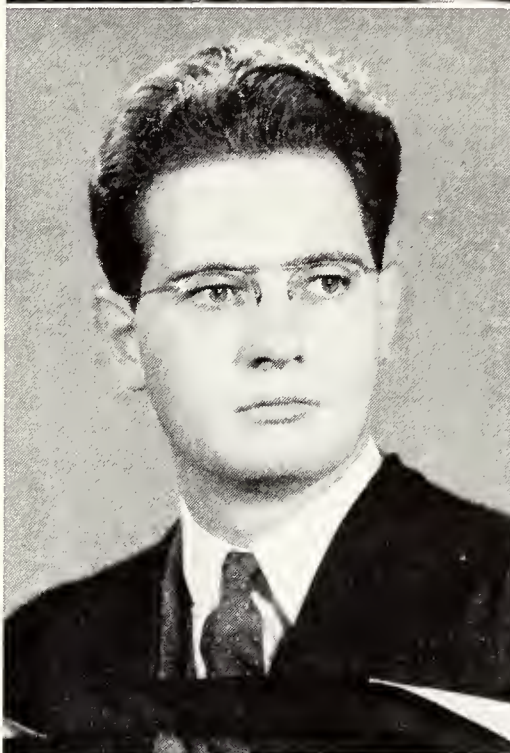

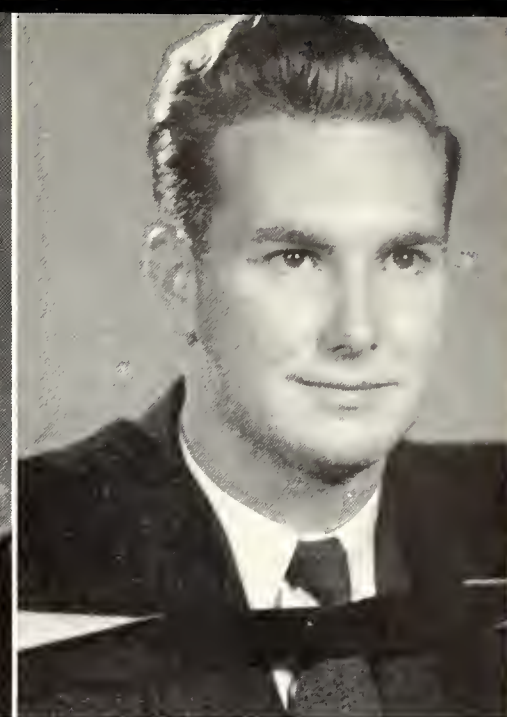

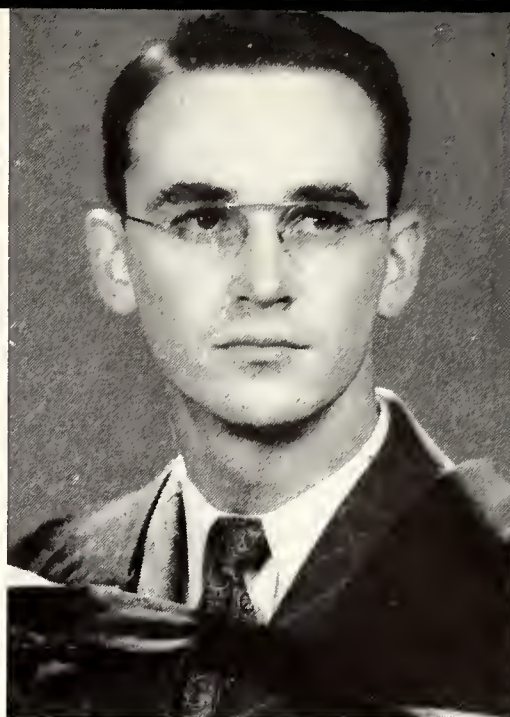

Honour Chemistry and Physics

Rans came from Westdale with a flare for all things scientific, and a yen for higher education in the field of chemistry. In pursuit of this ambition, he won the City of Hamilton Scholarship in his second year. The Science Club (I-II) and the C.I.C. (III-IV) provided him with educational diversion. His abilities showed themselves along another line as member of the stage crew in Year IV. With a record such as his, success is assured.

Robert Wesley Walls
SOMBRA, ONT.

Honour Chemistry and Physics

"Hugo" came from Hamilton Central C.I. to manipulate Science formulae. He was an ordinary fellow, very interested in the unordinary odours of the Chem. 42 lab. Part of his time he spent on the soccer field and in his final year he played on the Varsity team. He was a member of the Science Club (I and II) and C.I.C. (III and IV), and during his stay at Mac acquired many close friends. Impression: The more one learns the more there is to learn. Future: Dow plastics.

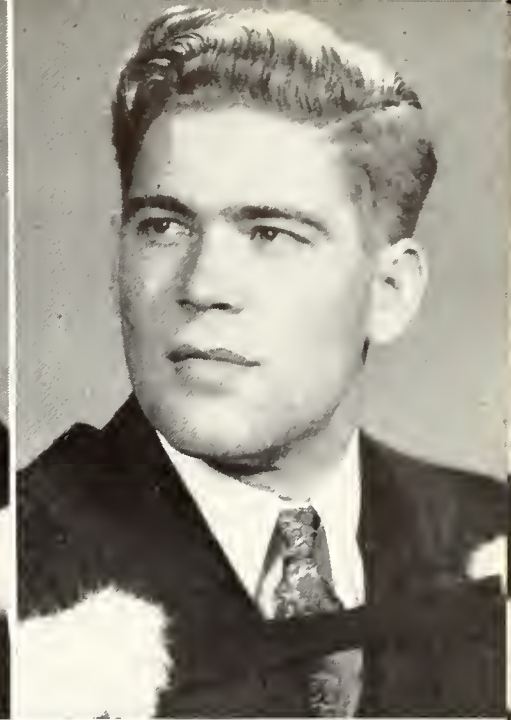

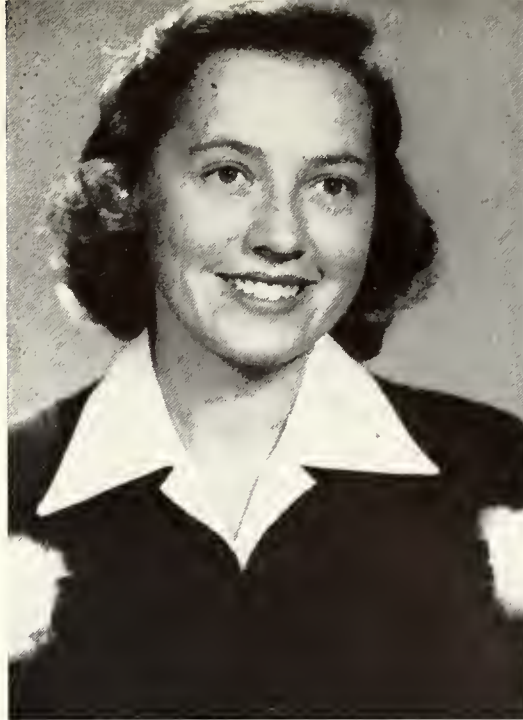

GRADUATES in ARTS
PASS COURSES

Robert James Arnott
TORONTO

History Option

Back on the road to learning after some detours, Bob came to Mac from Runnymede Collegiate and Toronto Bible College. Detours include: two early trips to England, two years with the Dominion Bank, plus a year's absence from McMaster as Associate-Minister to First Baptist Church, Calgary. Regarded as brilliant by his classmates, and constantly industrious, his overflow of energy is expended in preaching, M. I. R. C. Executive, Operatic Society and leader of the McMaster Quartet. Ambitions: M.A., B.D., post-grad. work in Old Testament, travel in Europe.

Ellen Margaret Alton
BURLINGTON, ONT.

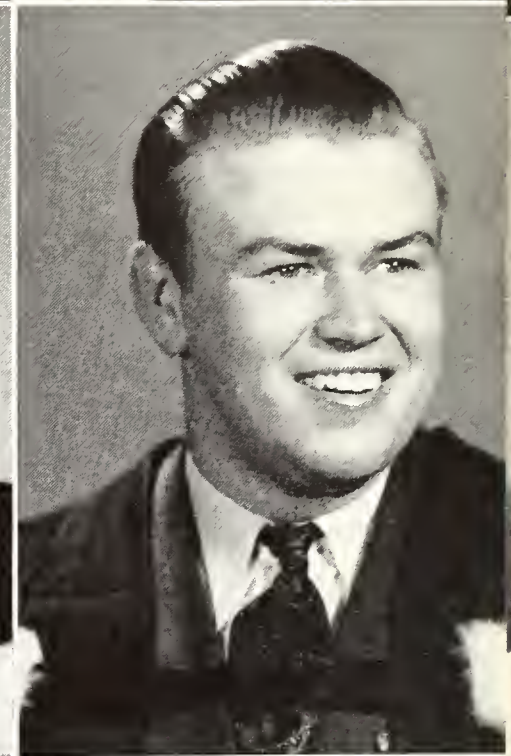

Social Science

Ellen left Burlington High for Mac and Social Science. Alternating her studies with various extra-curricular activities, she became a member of the Sociology Club (II, III), Pol. Econ. (II, III) and manager of table tennis (III). Good natured and friendly, Ellen has enlivened many a tennis and bridge game. Her many friends here at Mac wish her every success.

Fenton Beeler
HAMILTON

Science Option

A product of Central C.I., Fenton entered Mac fixed with a burning ambition for knowledge. With the passing of the years ambition waned and he became content to spend his time playing Varsity hockey and rugby, reading the North House paper, attending the occasional "do" with the boys and showing "The Girl" a good time. Future: Assured in some ways but vague in others.

Elizabeth M. Atkin
LEAMINGTON, ONT.

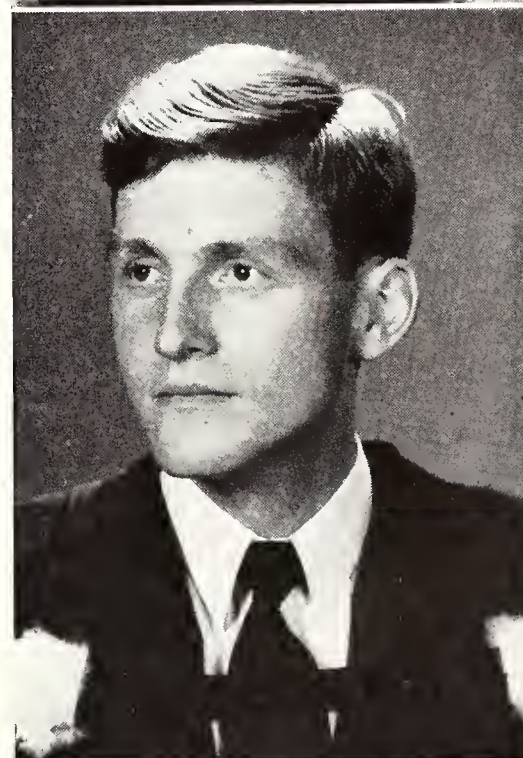

Biology Option

An energetic red-head, Betty led an active four years at Mac. She added colour to the Operatta in her second year and revolutionized the minutes of Wallingford in her junior year. A participant in inter-year sports, Betty specialized in fencing as its able manager (II, III, IV), and in the same years supported her course in the Science Club. Future: Can hardly be dull, in fact it will probably be "sharp!"

Roy Ernest Bolt
BRANTFORD

General

Born: Brantford. Educated: Brantford. Past: Public School Teacher. Present: War veteran. Future: Teaching profession again.

Don "Shorty" Bethune
HAMILTON

General

"Shorty", a graduate of Central Collegiate in Hamilton, came to Mac in '41, entering the Pre-Med. Course. In '42 he joined the R.C.N.V.R. at which operation he spent the next three years. In '44 he returned to the fold, entering Science, and in '46 switching to Arts. During his time at Mac he participated in the activities of the Soc. Club, the Pre-Med. Club, inter-year rugby, and intermediate Varsity basketball. In his senior year his time was occupied with U.N.T.D.

Alice Elizabeth Brown
PRINCETON, ONT.

Social Science

Elizabeth leaves as quietly as she came. Nevertheless, she was a library assistant and belonged to the M.C.U., W.I.R.C. and Sociology Club. In residence, she expended much time and energy keeping her friends from working. Pranks were not beneath her, and parties were her glory. Notorious as the last one ready, she usually caught her train, made her lecture or got her breakfast. Her future: Vague but hopeful.

Elizabeth Britton
BRANTFORD

General

When Betty joined our throng, she changed from teacher to student. Although her daily patronizing of the Canada Coach Line Co. took much of her time, she was a member of the Women's Choir (I), W.I.R.C. (II), and worked in the Board of Pubs (III). Friendly, thoughtful, and diligent — that's Betty. We wish her the best as she goes to resume her work in the teaching profession.

Gerald Reside Brown
WATERDOWN, ONT.

History and Political Economy

Gerry came to Mac from Waterdown High to spend three enjoyable years in the Lower Hall, the Rec. Hut, every show in town, and even the occasional lecture. He was a member of the Pol. Econ. Club (I-III), and a corporal in the C.O.T.C.; he took part in the Inter-year Drama Festival (I) and Varsity Track (II), besides being a very willing "fourth." Gerry's future is indefinite, but whatever it may be, we wish him the best of luck.

Lorna Margaret Brown
RIDGEWAY, ONT.

History and Political Economy

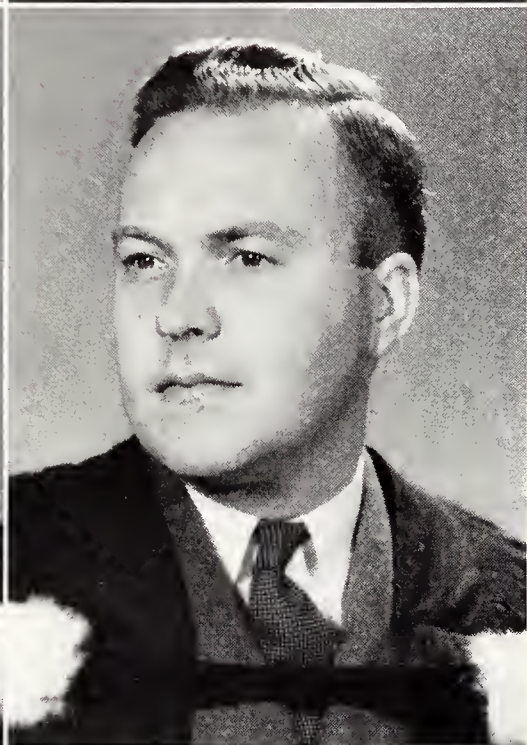

Our head girl, Lorna, with her charm and sincerity, has graced our campus for the past four years, in which time she has enthusiastically participated in Varsity basketball, inter-year sports and executive work. Majoring in Pol. Econ., she intends to enter Law School—but her interest in the I.S.S. has given her new "food for thought". Who knows, maybe it'll be Europe after all!

R. Fred Bullen
ST. CATHARINES

Social Science

Graduate English Theology '41. Ordained, Wellington Ave. Baptist Church, Sault Ste. Marie, '41. Jan., 1944, Supervisor, Auxiliary Services for Merchant Seamen. Sept., 1945, Student again at Mac, and pastor of Facer St. Baptist Church, St. Catharines. March, 1946, winner of Oratorical Contest. Future: Will probably finish B.D. work.

William Clair Bush
CAISTOR CENTRE, ONT.

Political Economy Option

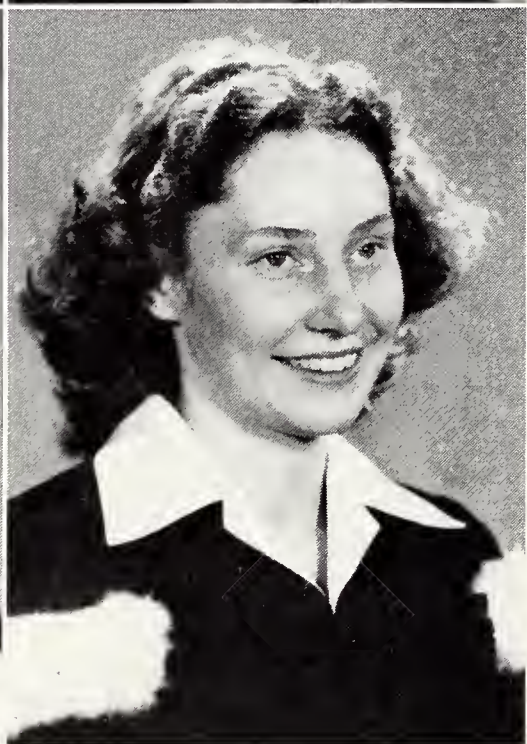

A graduate of Smithville High School, Bill tasted Course 30 at Mac, then entered the services of the Royal Bank of Canada. In '40 he enlisted in R.C.A.F., from which service he was released in time to join the fine fellowship of the Special Session in Jan., '46. After his one and a half years of intensive study of Economics and Spanish, he will return to his former employer where he will write another chapter—perhaps in the West Indies or South America. What would North House have done without your sense of humor, wealth of experience, and good, fatherly advice? We will miss you "Dad." "Hasto Luego!"

Enid E. M. Cameron
CARGILL, ONT.

History Option

Enid interrupted her McMaster career at the end of her Junior year to attend Stratford Normal School, and has since been teaching school. After graduation, she intends to teach again.

Ruth Hulbert Campbell
OTTAWA

Biology Option

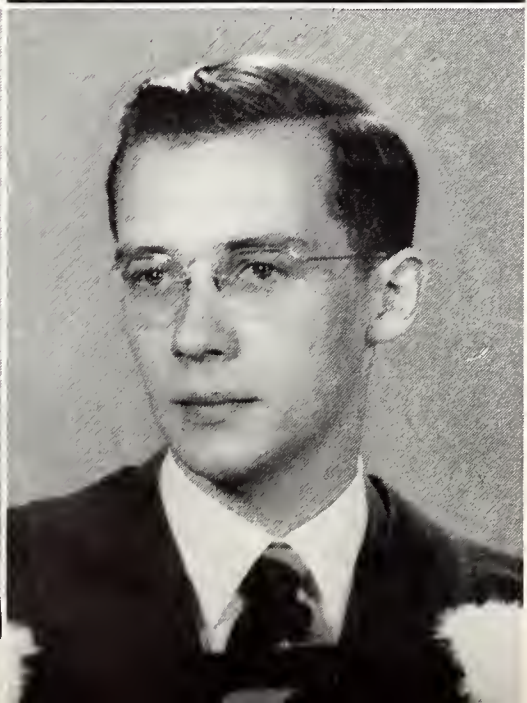

She came, we saw, she conquered, and we shall never forget her. Her quiet dignity and charm, and her knack for proof-reading essays are her special gifts. Her pet diversions are 7.00 a.m. showers, cat naps, and the Oils and Fats Administration where she spends her summers. About her future she says, "The world is so full of a number of things."

W. Gordon Carder
BURGESSVILLE, ONT.

General

Gord came from the Moody Bible Institute of Chicago to spend his winters in McMaster halls and his summers on a dairy farm. To provide himself with diversion, he played at inter-year football. He was a member of the M.C.U. and Philosophy Club in years II and III. Future: Theology.

James Ross Carey
HAMILTON

History Option

From Central C.I., and with high ambitions for teaching, Jim enrolled in a History Course. Having changed his mind about the above mentioned profession, he transferred to another History Course. He was a member of the Political Economy Club (II and III), and a participant in the Operetta (II and III). To pass the summer months, Jim "scabbed" at Stelco. During Year II he took up the art of skiing and entered the Ski Meet. This same year Jim discovered bridge and found the study so interesting that it was necessary to give up certain undesirable lectures in order to keep pace with the latest conventions. Future: Indefinite.

Mary Ellen Carnahan
CHATHAM, ONT.

Social Science

"Carnie," a combination of poise and friendliness, excelled as vice-president of her year, '45-'46, and Secretary of the Dramatic Society, '45-'46. Her widespread interests included: Sociology (II) and (III), Women's International Relations, (III), tennis, badminton, inter-year baseball and basketball (I, II and III)—all this, and archery, too! Her Irish charm assures her of a happy future, whether in social work or —?

Mackenzie Alan Chown
HAMILTON

History Option

Mac entered Mac in '41, passed a studious frosh year, and left unnoticed. A mad career in the R.C.A.F. made him the fast-talking, energetic Mackenzie we know today. He returned with the Special Session, and has lived in the Board of Pubs ever since, editing "Silhouette" features, directing the Student Memorial Fund, learning his line for the big play, and thinking student veteran thoughts.

Grace Margaret Cockburn
ST. CATHARINES

Social Science

I never seen a night
So dark there wasn't light
Somewhere's about, if I took care,
To strike a match and find out where.
As Gracie prepares to leave us and take her friendly cheerfulness to Scotland, we wish her much happiness and good fortune!

Elizabeth Jean Coon
TORONTO

Political Economy Option

Betty came to Mac from Toronto, bringing with her a liberal education acquired in the Kingsway, Queen's and Wellesley Hospitals. While here, she struggled to stay in training for swimming, bridge and lectures without much success. She dabbled in life insurance during the summer and in Pol. Econ. during the winter. Future: Third secretary in the diplomatic service of Guatemala.

Frederick Ozmer Catt
ST. CATHARINES

Science Option

Oz ambled into Edwards with a lacrosse stick over his shoulder and such an avid interest in sports that study and women were only minor diversions. He participated in Varsity soccer and hockey, inter-year rugby and basketball, inter-house lights, Marsh-rat shinny, and played a crafty game of bridge. After a year of Biology, he took Chemistry, but after a year of that he took to the woods and hitch-hiked across Canada three times to be stevedore, sailor, miner and logger. Fuming colonels, irate professors, or lost suspenders never disturbed Zoot's calm equilibrium. With such composure, good nature, and a generous interest in others, he'll get somewhere some day.

Ariel Cleaver
BURLINGTON, ONT.

History and Political Economy

This liberal-minded flying meat-chopper came to Mac via Burlington H.S. and 5-8 C.A.T.S. The dreamy look in lectures is not a result of the profs. but of canoes, sunsets and ski trails near Huntsville. Besides lectures, her activities here have included: Debating II (Sec'y Women's Debating Society, III Pres. of Debating Union), Pol. Econ. Club (I, II, Vice-Pres. III), Operetta (I minor lead, II, III Vice-Pres.), Dramatics (III, make-up), and driving Hortense (I, II). She had fun being a waitress in the summer months. Now its a toss-up between an M.A. or an LL.B.

Lorne Franklyn Cook
STEVENSVILLE, ONT.

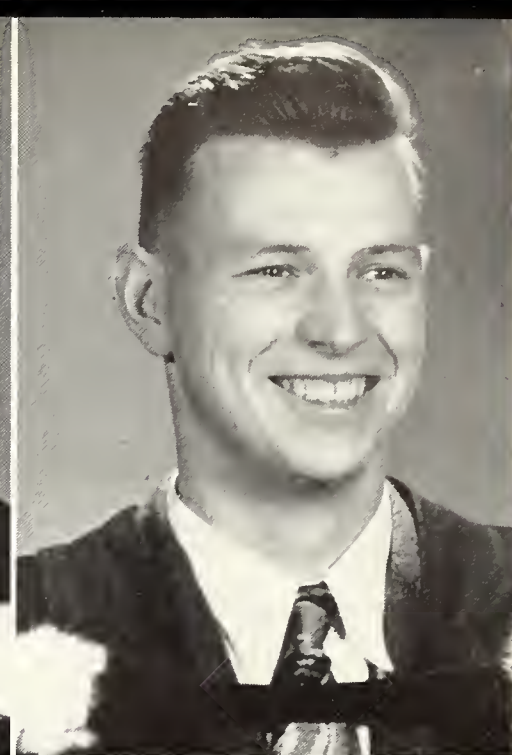

Science (Pre-Medical)

After discovering there was no future in punching time clocks, our boy with the curly locks decided to exchange his screw-driver for a scalpel and came to Mac. "Cookie" is a confirmed bachelor and has but two loves—medicine and eating. (His specialty is beefsteak.) His future lies in Medical School and surgery. Good luck, Cookie!

Margaret Coulter
ALBERNI, VAN. ISLAND

Science Option

Peggy is another W.D. turned student. In spite of being a Westerner, she wields test-tubes with skill equal to that of any Eastern "lab-scab." Her future lies in some Victorian hospital.

George Currie
HAMILTON

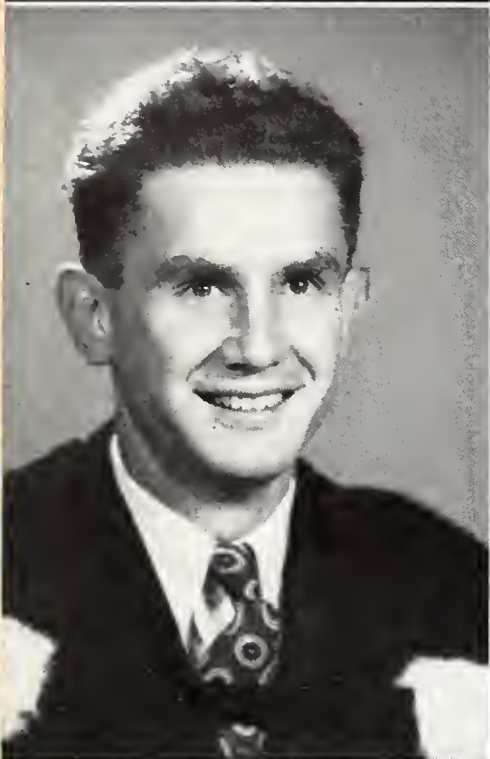

History and Political Economy

"Gorgeous George" returned to Mac in '45 after spending two and a half years in the R.C.N.V.R. as a sub-lieutenant. He lent his talents to athletics and other extra-curricular activities. He was a member of the Varsity football team (II and III) and of the make-up crew (II and III). The climax of his career came in '46 when he was President of the Pol. Econ. Club. McMaster's loss will be Osgoode's gain.

J. S. Cymbalisty
KAMSACK, SASK.

History and Political Economy

After teaching school in Saskatchewan for several years, and radio mechanics in the Air Force for several more, Joe settled at McMaster. Here he supplemented his athletic interests—curling, baseball and hockey—with an academic achievement—a scholarship. The business world will welcome his economic ability and typical western friendliness.

Robert N. Davidson
CAYUGA, ONT.

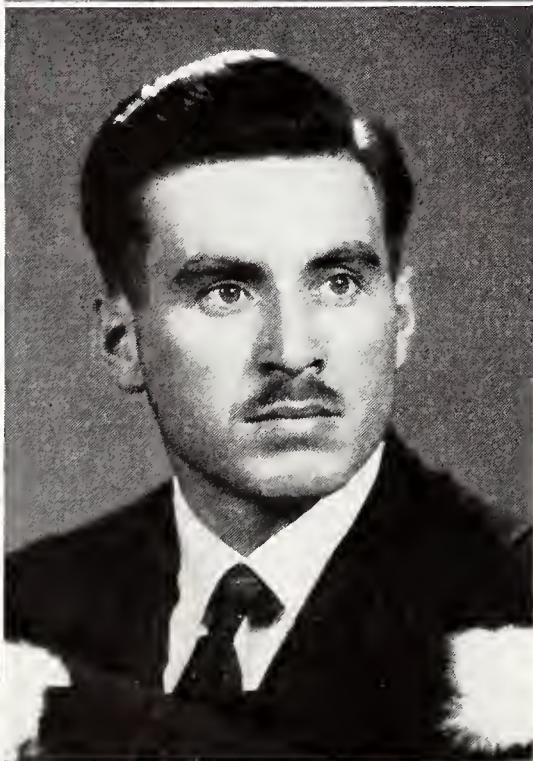

Science Option

Those who know Bob Davidson have great respect for a personal integrity, quiet reserve and strength of character that have made him dependable as a friend and teammate. He has played inter-year football and hockey here at Mac, as well as in Hagersville High School and in the Army. After a year at O.C.E., Bob plans to combine adventure and teaching in the north land. We wish him the best of luck.

Florence Dickson
DUNDAS, ONT.

Social Science

Florence won more than friends at Mac, for in the middle of her stay here, she changed her name from Collum to Dickson. Her life seems to be clearly planned and we wish her much happiness in married life.

Stuart E. Dixon
TORONTO

Pre-Medical

Having chosen the vigorous vocation of the mission field, Stu came to McMaster from T.B.C. to prepare for Medicine. Regarded by his class-mates as friendly, witty, enthusiastic and industrious, Stu found time for preaching, "Lab-assisting," Pre-Med. Club (of which he is Treasurer) and "The Young Pioneers of Canada." We wish him the best as he anticipates Medicine and Baptist Missions in India.

K. Calvin Doka
KIPLING, SASK.

General

Cal came to McMaster from a little red schoolhouse on the wide Saskatchewan prairie where for six years he ruled as pedagogue until the thirst for wisdom led him to Mac. During his three years here he held forth on philosophy and other weighty matters—and also studied. For his future, Cal has an eye on the Presbyterian ministry. Good luck, Cal, and "may your windows ever open on Jerusalem."

William Edward Duxbury
JARVIS, ONT.

General

Bill started out in Course 30, but at the end of his second year decided he wanted to graduate sooner, and so changed to Course I (a "normal" decision). Despite his outside interests, he found time for the Math. Club (I, II) and the Science Club (I, II, III). His immediate plans include O.C.E., and with his lively sense of humour and ability to make friends, we predict for him a happy and successful future.

Eileen Mary Dyson
HAMILTON

Arts and Nursing

Eileen came from Delta C.I. to become one of the "pioneers" of the McMaster School of Nursing. During the past two summers she has brightened the corridors of the H.G.H. with her winning smile and cheery disposition. Her interests have included: Pre-Med. Club (I, II, III), M.C.U. (II, III). Her motto—"Life is sweet and life is earnest."

Alan James Eatock
HAMILTON

History Option

Al was a public school teacher and an extension student here before he joined the Army in 1941. He served approximately five years, and attended Khaki University of Canada in England. When he obtains his degree this summer, he expects to return to the teaching profession.

Nial C. Eastman
BELLEVILLE, ONT.

General

Coming to Mac in 1942, Nial was Belleville's gift to the Anthropology Lab! After taking time out in 1943 to further his education in the Air Force, he returned to his Alma Mater in 1945. Commonly known as the "mad minister," he plans to continue his study in the field of Theology at Mac. His future is rather dependent on at least half a dozen women!

Irene Amelia Ellison
HAMILTON

Political Economy Option

Nikki came to Mac via Calgary, Detroit, and Delta Collegiate. She could usually be found in the Rec. Hut tramping her partner's ace, but took time out to become a member of the Pol. Econ. Club and the Operetta. Her future plans include music, which, in the last three years, she has neglected for bridge and Pol. Econ.

Kenneth W. Elliott
HAMILTON

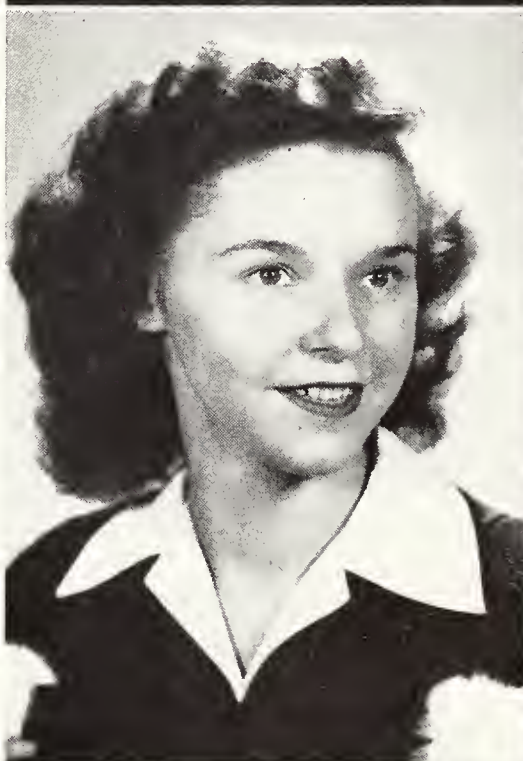

General

In 1943 Mac received an interesting personality on the wings of a scholarship in English. He spent two years in Course 19, and found time to exercise potential journalistic ability in the Board of Pubs and to exhibit some histrionic skill in Dramatics. In 1945 the U.S. Army drafted Ken from the C.O.T.C. and sent him to the U. of Minnesota to learn Japanese. This year he returned to the Senior Year of Course 1. His next step: U. of Missouri; his ambition: Journalism; his future: Success.

Marguerite L. Ellsworth
WELLAND, ONT.

Arts and Nursing

To be a nurse was Margie's aim, So down to Mac she promptly came. Her days at Mac are at an end, Now Hamilton General gets a friend. "We'll miss you in the choir, my dear, And Wallingford will seem quite drear. Our loss will be the sick folks' gain, As deftly you relieve their pain."

Shirley Elsley
GUELPH, ONT.

General

An inherent love of mischief tempered with a sweet and sympathetic nature gave us an ideal friend in Elsley. In her three years at Mac she engaged in many pursuits. She starred at basketball, dabbled in dramatics and was Soph. Athletic Rep.—but she gave most of her time, energy, and "pursuit" to Rusty and Wallingford's door-step.

Helen Louise Eydt
ALDRESHOT, ONT.

Science (Pre-Medical)

Helen is a daughter of which Westdale Collegiate is proud, and with whom a lab partner is perfectly happy. Success is sure when she is lending a helping hand. Her capability speaks for itself when we know the offices she held. She was a member of the Pre-Med. Club (I-III) Secretary (III), Science Club (I-III) President (III), and the M.C.U. (II-III) Vce-President (III). Her ambition is to be a doctor. The best of luck, Vicki!

Joan Ann Evans
HAMILTON

Political Economy

Our cheerful Joan is a lass who wins friends easily, a fact which only partly accounts for her being made Vice-Pres. of the Freshman Year, '44-'45. Her fellow freshettes spotted at once the organizing ability that was to make her an energetic charter member of the Rec. Hut workers, and a valued committee head when the Hut opened. Of course she was busy with other things too, such as the Pol. Econ. Club, the Operetta, and that Accounting Class! Altogether, 'twould seem she's one of those rare beings who has a well-rounded personality.

Marion June Fleming
GALT, ONT.

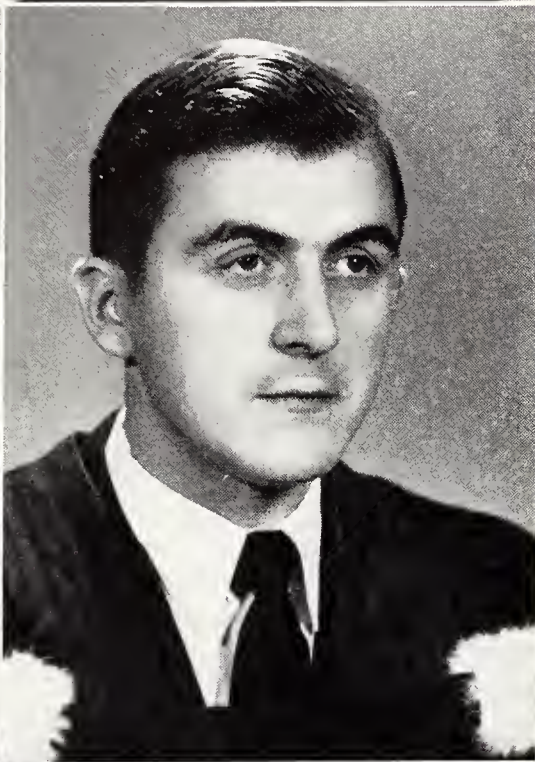

Science (Pre-Medical)

Fleming hailed from Galt Collegiate to spend four mad years pursuing higher learning. She participated in Science Club (II-IV), inter-year sports, and the antics of Wallingford. The display in Room 20 showed her affection for dumb animals—only her room-mate had precedence over cats and dogs. Her delightfully impulsive actions gave variety and fun to Wallingford's halls. Future: Laboratory work (but it may include designs on houses and "barns").

Franklin Henry Foley
BELLEVILLE, ONT.

Political Economy Option

After graduating from Belleville C.I. in 1942, Frank enlisted in the R.C.A.F., where as a W.E.M. Radar, he did a lot of travelling for the next three and a half years. Discharged late in '45, he enrolled in the Special Session, and with three years at Osgoode still ahead, "young man in a hurry" would best describe his career at Mac. Frank's keen appetite for peanut butter sandwiches, his aptitude for invention, and his skill at repairing broken appliances combined with a pleasing personality, will ensure his popularity wherever he goes.

Currie Gardner
HAMILTON

Political Economy Option

"R.J.C." first came to Mac in 1939, and like many others, lost a large piece of university life to the R.C.A.F. He returned in '45 and experienced little difficulty in "rehabilitating" himself. Besides worrying about Course 9, he's been spending summer days selling hearing aids—strange, but profitable! The future's indefinite but sure to be good.

Mario Giacomelli
HAMILTON

Political Economy Option

One of Cathedral's many gifts to McMaster and women, Mario walked through Course 9 with lots of time left for his extra-curricular activities such as the Chess Club and M.S.P.L. Mario's smile has won him many friends at Mac, and his sense of humour will ensure him success in his post-graduate days. His announced future is teaching, and perhaps it will include "G.Y." too.

William Frederick Grant
HAMILTON

Science (Pre-Medical)

Westdale C.I.'s gift to the Pre-Medical Course came to McMaster with aspirations of being a doctor. Three years of drawing and dissecting has made Bill perfect—a perfect scab. His geniality has made him an admirable associate around the lab. and elsewhere. His future is in medicine and we wish him every success.

Eleanor Joan Gray
TORONTO

General

Joan floated to Mac on a little pink cloud with a head full of dreams and a yen for all things fine and beautiful. Lectures and studies brought her down to earth momentarily, but could not claim her full attention, and she has the distinction of never having handed in an essay on time. In times of agitation, she could be heard exclaiming "My Hat" or "My Aunt Harriett" as she invoked her two guardian deities. Joan will always be remembered for her sweet disposition and her loyalty to her friends.

Jack Wallace Hillyer
LA PAZ, BOLIVIA

Science (Pre-Medical)

"Jackson," who comes from an illustrious missionary family, lived the first years of his life in Bolivia. At an early age, however, he decided he needed a few clues and some northern atmosphere, and so he came to Canada and Mac. After three years in the Pre-Med. Course he concludes that there is a future for him in medicine. We hope that the Medical Schools feel the same way.

Vivian Hoffer
ELMIRA, ONT.

English Option

Viv graduated from Elmira High School with a yen to study English, so she came to Mac where she maintained her creative ability by writing innumerable letters plus the occasional essay. The remainder of her time has been taken by Modern Literature Club, W.I.R.C., and knitting. Viv's attractiveness and personality have won her a domestic future.

Kathleen Hosford
BLYTH, ONT.

Latin Option

"Kay" came to Mac from Guelph Collegiate. The Library and Latin translations claimed most of her time. She was a member of the Classics Club (I, II, III) and was interested in hiking, bowling and badminton. Those who know her will remember her sincerity, her friendly smile and her keen sense of humour. As for the future: "Not teaching, I hope!"

Betty Marie Huff
BRANTFORD

Science (Pre-Medical)

Coming to Mac from Brantford via U. of T., Beth has spent three years finding out about the rudiments of science. Those who have known her intimately will remember her best for her keen and penetrating wit. Future: Osgoode Hall.

Catharine Marie Inch
HAMILTON

English Option

"It has been more wittingly than charitably said that hell is paved with good intentions. They have their place in heaven also." Westdale's impulsive social convenor arrived at Mac as a vivacious freshette, possessed of a sense of humour and self-assurance. She dabbled in sports, modelled for the J.F.C., took an active part in dramatics, and attended all the social events of years I, II and III. Future: Successful.

Jean Isobel Isard
PORT NELSON, ONT.

Social Science

"Brimful of quality, sunshine and jollity," that's our "Wiz." In her first year she showed her athletic ability by capturing the tennis championship which she held for three consecutive years. Outstanding on the Varsity basketball team, a peppy cheer-leader, and a capable Athletic President, Wiz has won the hearts of many—N.B. "MacD." Future: Obvious. Gee, Wiz!

Roy Milne Howard
HAMILTON

General

After two years with the R.C.A.F., Roy came back to Mac. A graduate of H.C.C.I., he attended Normal and took his first year at McMaster, then left to join the Hamilton School Staff. A "regular" at Summer School, his main interest was in Dramatics and he showed his acting ability in '39, '40 and '41. He also had a "lead" in the Big Play in '37 and '38. He was a member of the Classics and Philosophy Clubs and his remaining spare time was claimed by the Boys' Dept. of the Y.M.C.A., to the joy of the "mop-pets." Good luck, Roy, in your chosen profession. Your tact and kindness will be of great value.

Gene Illsey
HAMILTON

Political Economy Option

Gene came to Mac in 1942 and spent a successful year, although distracted at times by more pleasant subjects than Mathematics. After spending two happy(?) years in the services, Gene returned to his old stamping grounds where he won many new friends. He hopes to go to Osgoode Hall next year and to become eventually a successful lawyer.

Margaret Jamieson
HAMILTON

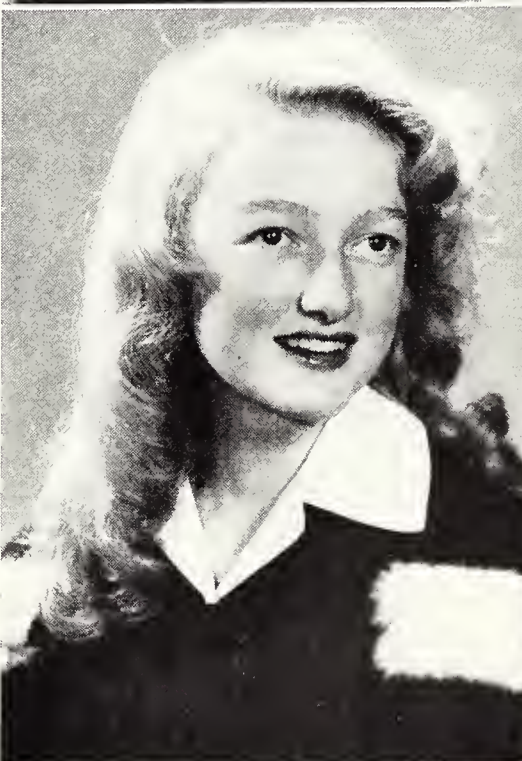

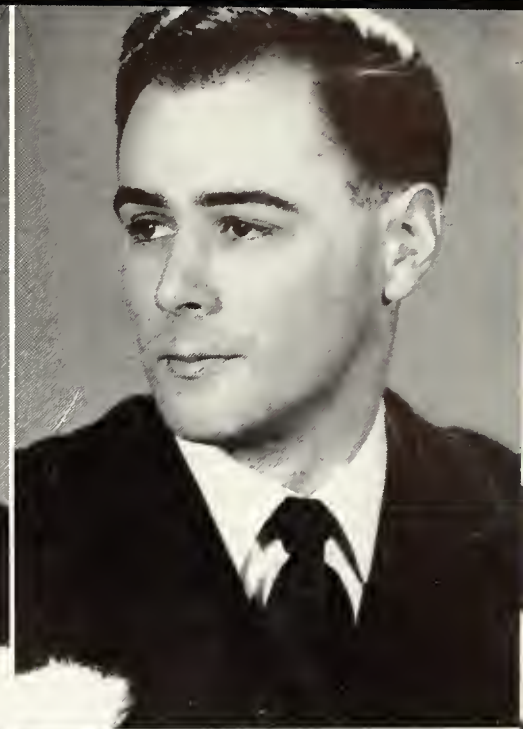

English Option

Witty, independent and likeable, Marg. performed not only for the W.C.R. gang, but as a sideline, portrayed Mrs. Bennett, Mrs. Farnsworth, the titling Eloise, and finally settled down in year III on the dramatic executive. Marg. possesses an air of originality and an unusual frankness. "That virtue of originality that men so strain after is not newness, as they vainly think,—there is nothing new. It is only genuineness."

Audrey Edith Jenkins
HAMILTON

Pass French No. 5

Audrey is a woman of many parts. She won a scholarship for Mac and then in her senior years her friends discovered that she had a wonderful singing voice. At present she is winning acclaim as the soloist at a large city church. Audrey looks forward to a career in radio and on the concert stage. With her talent she will succeed.

(d)
Alexander Robert Kaye
TORONTO
General

Alex arrived from Toronto but soon transferred his allegiance to St. Catharines (Edwards Hall being merely the starting point for these excursions). During his stay here he has been intensely interested in the practical side of Social Service, and has faithfully supported the M.C.U. Alex leaves for study at Osgoode, and a future which includes another Kay. We wish him the best in these two great ventures.

Jacqueline Helen Kenyon
HAMILTON
Biology Option

From Loretto to Mac, from Mac to the Air Force, and back to Mac again, this was the path that led Jacquie to a hospital lab.

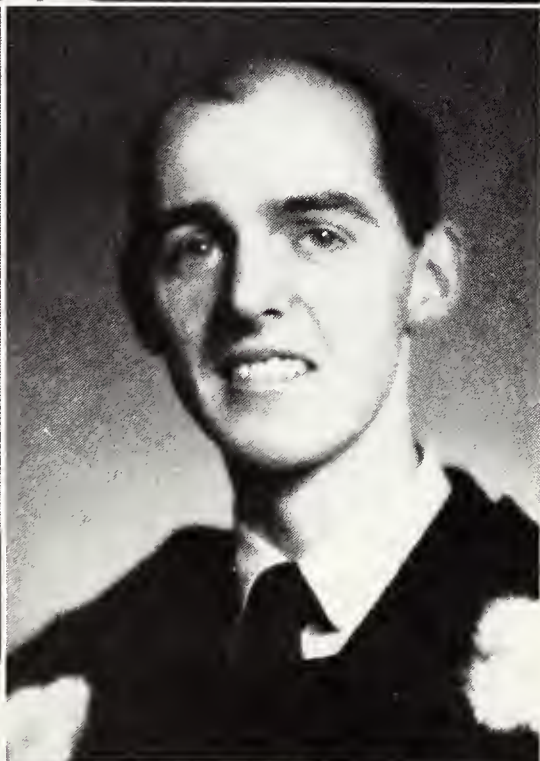

Albert Kime
COBOURG, ONT.
General

Albert came to Canada from England in 1930. After graduating from Toronto Bible College in 1942, he spent some time with the Salvation Army War Services before entering Course 1 at McMaster. When he completes the B. D. course he looks forward to his life work in the Baptist Ministry.

Judith Rachel Kirsch
MONTREAL, QUE.
Social Science

Judy's favourite refuge is Montreal, where she attended Montreal High for Girls. Having had enough of girls, Judy came to Mac to take up Social Science. An active member of the stage crew, she also participated in the Soc. Club, and sports. Pet hobby: Wallingford coke machine. Pet aversion: the vocabulary of her room-mates. Concerning her future she says, "I'm going to be a personnel manager, by gum!" Good luck, Judy.

John E. Koegler
WATERLOO, ONT.
Science Option

Waterloo contributed "Johnny" to our Edwards Hall fraternity, and he has contributed much to Mac through his genial personality, and his talent in the realm of music. Johnny's interests have been many. He has been an active supporter of his year, being Frosh treasurer of year '48 and Soph. secretary of year '48. In addition to this, he was an active member of several University organizations, but still found time to indulge in romance. We wish Johnny the best in his chosen profession of teaching.

George Gordon Lendeg
HAMILTON
General

Lois Helen Landreth
GALT, ONT.
History Option

Lois entered Course 7 in '43, coming from Branksome Hall, Toronto. She has participated in golfing and skiing events. Upon completing her university course she hopes to secure a position with the Diplomatic Corps. She is well-known on the Campus for her general good-will and her contagious happy-go-lucky air.

Ethel Doris Lawrence
AGINCOURT, ONT.
General

Public school "brats" drove Doris to Mac but a year of residence life sent her back to teaching. She ended up, however (you guessed it), back at Mac participating in the pranks of West Wallingford. Her real passion was for sports. She liked everything, but tennis was tops! To fill her leisure hours, Doris attended W.I.R.C., M.C.U. and (believe it or not) the French Club. We wish her good luck as she leaves us to teach high school "bobbysoxers."

Edward James Johnson
HAMILTON

Biology Option

H.C.C.I. whetted Ed's insatiable curiosity and sent him to Mac to investigate knowledge and life in every shape and form. Here he combined lab sessions and assisting with interests in art, music, literature and philosophy, with executive work as year treasurer (I-II) and with varied summer jobs as farming and stoking fires on freighters. Since graduation he has been doing research in Botany in the Hamilton Hall "Hermitage".

Bob Leggatt
HAMILTON

Political Economy Option

Quiet and unassuming, Bob came from H.C.C.I. His outstanding athletic ability has been brilliantly displayed in Varsity rugby and basketball, years I, II, III and IV. Since he is admired by all who have come in contact with him, his future in the business world is assured.

Samuel Lichtiger
HAMILTON

General

Sam is one of Poland's finer sons. After graduating from Kamenetz Rabbinical College seven years ago, he came to Canada to become Principal of Hamilton's Hebrew School. Following up earlier ambitions, Sam has continued studies at Mac, contributed to the Philosophy and Sociology Clubs, and has been active in the Y.M.C.A. fication of friendliness and sincerity, and wish him the best as he proceeds to post-graduate work in History and Philosophy. Class-mates see in him the personi-

John Wyatt Lowry
HAMILTON

Political Economy Option

"Johnny" blew into Mac via Westdale C.I., and made serious efforts (crowned with considerable success) to sit fairly and squarely upon this seat of higher learning. Registering in Pol. Econ., he devoted his time to the study of the almighty dollar. His pastimes included Pol. Econ. Club (II and III) and U.N.T.D. (I, II and III), not to mention campus co-eds. After graduation, Jack plans to enter Osgoode Hall or the business world. His even, happy temperament assures him of a host of friends in whatever career he chooses. Best of luck, Jack.

Margaret Anne Learoyd
CAYUGA, ONT.

Social Science

"Bugs" romped her way through Social Science flavouring a sincere interest in her course with the spice of her wit. Sporadic bursts of ambition led her to an occasional period of study, and extra-curricular activities claimed her peculiar brand of efficiency. She was a member of the Wallingford Council (I), Sociology Club Executive (II and III), Secretary-Treasurer of the W.S.B. (III); she sang in the Women's Choir (I and II), and Operetta (III). Bugs won renown harmonizing in the showers, teasing Bobs, ringing the gong in quiet hours, escaping Moo's righteous maledictions, and generally adding dignity to Wallingford's halls. Those who know Marg will never forget her beaming smile and spontaneous friendliness.

Frances Marian Levine
HANOVER, ONT.

English Option

"Frankie" is one of those people "you have to meet" before your university life can be complete. Being possessed of a natural and deep-rooted charm, our "Bernhardt's greatest talent lies in her ability to form and keep friendships. Like the lady with "rings on her fingers and bells on her toes" our Frankie will have happiness wherever she goes. And then of course, there's Vince—.

Harold David Linden
TORONTO

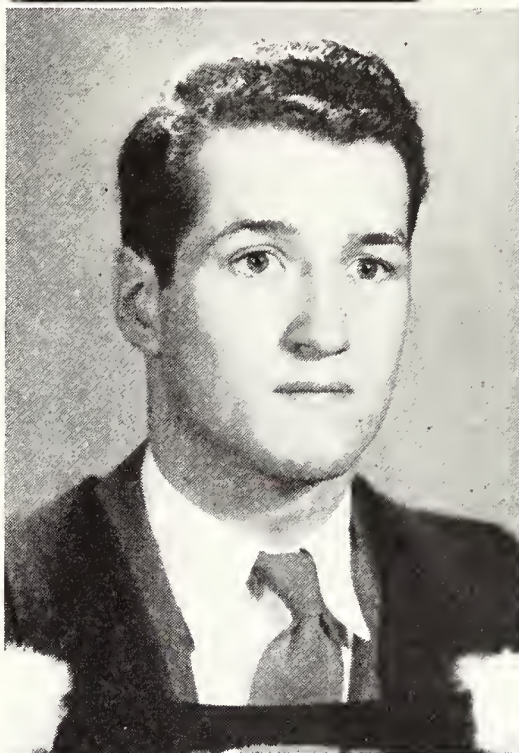

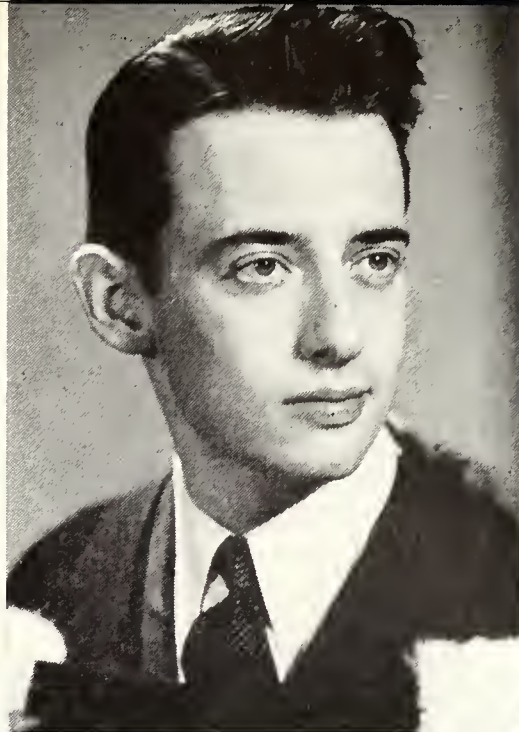

Political Economy Option

Harold came to Mac from Harbord Collegiate and moved directly to the sedate surroundings of North House. His various interests found expression at Summer school, the M.S.A. and Padre Greens. He also found time to play rugby, soccer and stuke. A member of the Dramatic and Operatic Societies, Pol. Econ. Club, Sociology Club, C.O.-T.C., U.N.T.D. and Punjab Fusiliers, Harold spent a final dissipated and hectic year in Centre House in the company of Sandy and Sleepy. With Harold's ability and dynamic personality, he will undoubtedly make a success of his chosen profession.

Donald Lyon McArthur
ROCKWOOD, ONT.

Political Economy

The year 1944 saw two great events: the war turned in favour of the allies, and "General McArthur" strolled into Mac with a suitcase full of corny songs in one hand and a trumpet in the other. Since then, although Don has been a leading tenor in the Men's Choir, a member of the Triple C, and has taken an active part in inter-year hockey, soccer and rugby, the boys of North House feel that his place was at the piano. In between choruses of "A Farm Down in Iowa," General managed to attend the odd lecture, and graduated with "The Alma Maters Pride," year '47. Future: O.C.E.

Muriel Margaret McEwen
HAMILTON

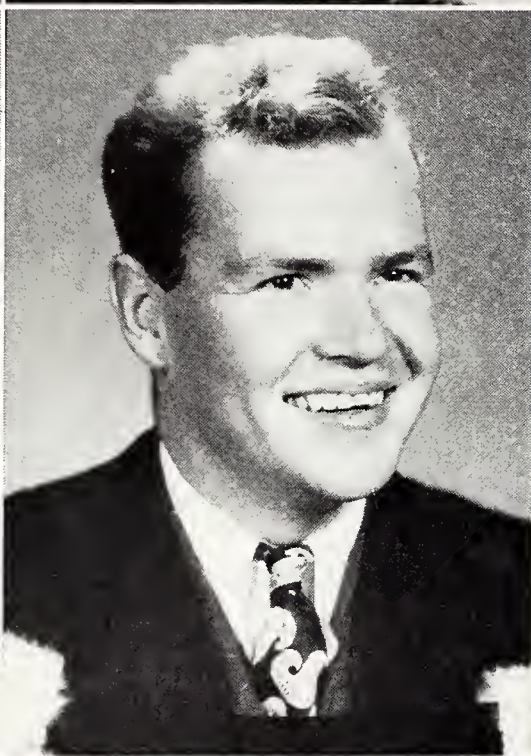

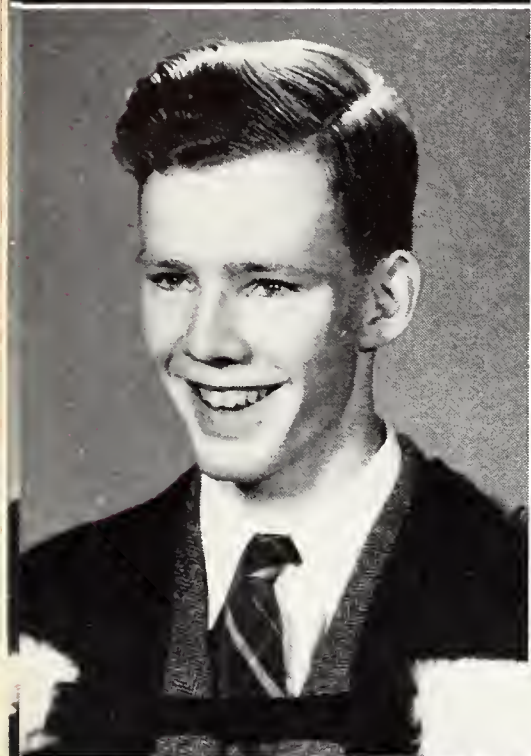

History Option

Latin 20's most attractive member and the University's most indispensable asset, Babs was a welcome guest at any gathering. She was continually bubbling over with good humour, and had a genuine appreciation of people. Few girls in the annals of McMaster have left a more enduring impression on those who knew them. To such a congenial person as Babs, life cannot deny a happy future.

Lillian Jean McGeoch
HAMILTON

General

Jean came to Mac this year by way of Central C.I. and U. of T., and feels sure her choice has been for the best. Her bright smile and eager interest in all university activities have won her many friends here. Her future: Undecided, but with that combination of beauty and brains, anything can happen.

Geoffrey A. MacGibbon
WINNIPEG, MAN.

History and Political Economy

Jeff, on graduating from Gordon Bell, came to Mac to shout the praises of the West, learn about Eastern women, and study History and Political Economy. Sports interests? Yes — assistant hockey manager (I and II). Literary interests? Yes — Sil sports reporter (III). Jeff leaves with a good name, and will long be remembered by his many friends on the Mac campus.

Alexander Neill McGregor
OTTAWA

History and Political Economy

Sandy returned to Edwards Hall and the Sacred Sanctum of Padre Green's after four years in the Army. Ex-'43 and a veteran of the S.S. Noronic (I, II) and the Mac Soccer Team (I), (that is, in his younger days), Sandy has dabbled in many things. The M.C.U. and M.S.A. are his main interests; the Sociology Club, Pol. Econ. Club and W.I.R.C. are his sidelines. With such a varied experience, Sandy leaves well-equipped to pursue his career at Osgoode and in the Civil Service.

Jean M. McGregor
HAMILTON

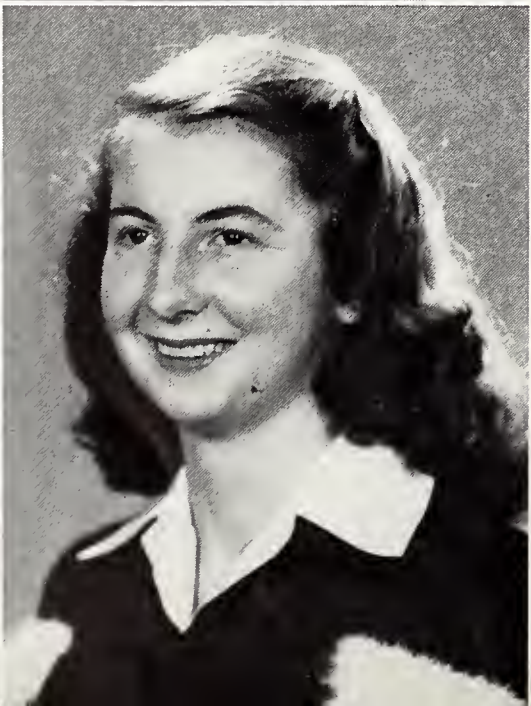

Arts and Nursing

Jean was the blue-eyed blonde in Course II whose interests are in the field of medicine! Her two summers were spent with "Schubie" at H.G.H. and in the winter, Jean found time for Biology, Pre-Med. Club (I-III), Biology and Biology. Her vivacity and charm make her a valuable 25 per cent. of the pioneer-quartet of the Mac School of Nursing. Good luck, Jean.

Marjorie Laing McGregor
OTTAWA

Social Science

Marj came to Mac from Ottawa after a stop-over at U. of T. In her two years here she worked off her excess energy at Varsity basketball, ping-pong and any other available sport. Attending Sociology and Pol. Econ. Clubs, W.I.R.C. and the occasional M.C.U. meeting took care of her remaining time. Favourite expression: "I'm frustrated", (probable cause of which: Refectory meals).

Marjorie Jean Mackenzie
WATERLOO, ONT.

English Option

Jean took music-minded McMaster by storm and captured the contralto leads (The Duchess, Katisha and little (?) Buttercup) in three successive operettas. Her musical talent has been enjoyed at many Mac functions, as well as in the Women's Choir, of which she was President (III). The M.M.A., Modern Lit. Club and W.I.R.C. have benefited by her membership; she has also been of valuable assistance to the Muse. Jean is well-known for her readiness of wit, her talent for friendship, and her outward expression of inward delight. A resident and vice-president of Wallingford, Jean leaves us for O.C.E., and a future in Toronto.

Edith Shirley Macnamara
HAMILTON

French Option

Shirl (G.C. that is) hailed from H.C.C.I. She was a member of the W.C.R. Discussion Group, and specialized in "Magazine 40." She also managed a French Course and made a "smashin' good" waitress in the summers. Her 100 per cent. attendance at lectures is especially note-worthy. Future: — ?

John Alvin McGrath
ST. THOMAS, ONT.

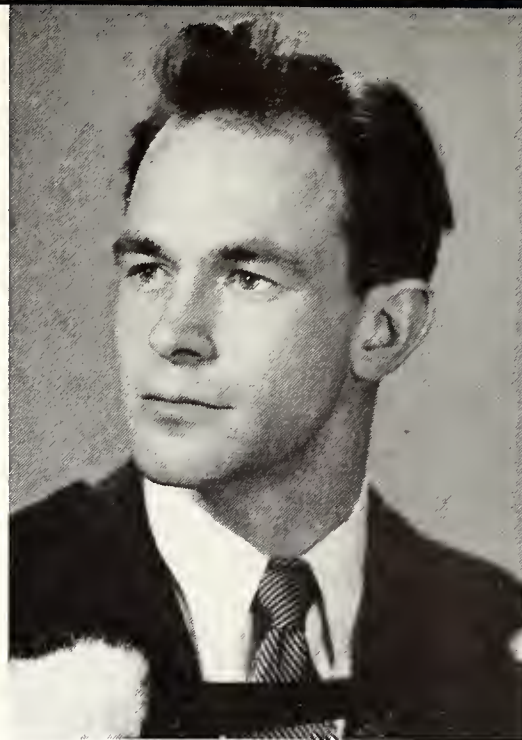

Political Economy Option

When John left the flowering City of St. Thomas and came to the beaming Hamilton metropolis, he experienced a great environmental and attitudinal change which resulted in an enrichment and solidarity of his Christian principles. Though modest and unassuming, he contributed much to student activities and was quite indispensable in everything from blind dates to ticket sales. He was active in the Men's Choir and in inter-year sports, and in his final year was Secretary-Treasurer of the Men's Student Body and Editor of the Directory. Future: O.C.E.

Shirley Martin
GUELPH, ONT.

Arts and Nursing

Guelph sent Shirley to Mac to unfold the secrets of Biology and microscopes for her future lab work at O.A.C. A friendly and fun-loving personality assured her of a ready welcome in her two Mac homes—Wallingford and the Rec. Hut. This, plus a natural aptitude for her two hobbies—bridge and men—form our unpredictable, and we hope, unchangeable "Mart."

Ward B. Melenbacher
BRIGHT, ONT.

Social Science

Ward, who hails from Ayr (near Galt, he explains), came to Mac from Urbana Jr. College in Ohio to finish his B.A. Course in Social Science. His main interest was the Sociology Club. He had a bit of fun avoiding the "powers that be" who insisted that he wear a gown. We wish him the best of luck in his post-graduate work.

Kathleen R. Mathews
HAMILTON

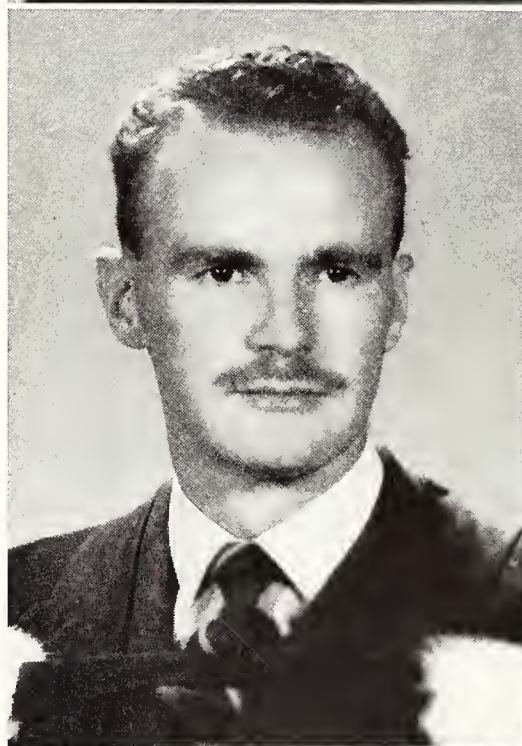

General

After Kay received her diploma from the University of Toronto Library School, she worked in the Hamilton Public Library, and enrolled in Course 18, attended McMaster. She served later in the W.R.C.N.S. as a librarian. After graduating, she hopes to do post-graduate work in Library Science at

Sasha Mendl
PRAGUE, CZECHOSLOVAKIA

General

Sasha, better known as "Sash," is a member of high standing in the Rec. Hut Bridge Association. This is only one of her varied activities which include the W.I.R.C., Mod. Lang., Mod. Lit., Pol. Econ., and Flying Clubs. She has excelled as manager of the Varsity volleyball team, and in varsity basketball, varsity swimming, track and softball. Sash has made many friends through her vivid personality and happy spirit. Good luck, Sash, for next year at O.C.E. and every year after.

Jeoffery Robert Mellon
HAMILTON

General

Mel wandered into Mac in '39 with a trim athletic record from Central Collegiate. After a dash of rugby and C.O.T.C., he spent four "flying" years in the Air Force before wandering back to continue his athletic interests as Sports Editor of the Sil (III). Bridge, snooker and the expression "tasty" intrigue him.

Ruth Anna Mitchell
HAMILTON

History Option

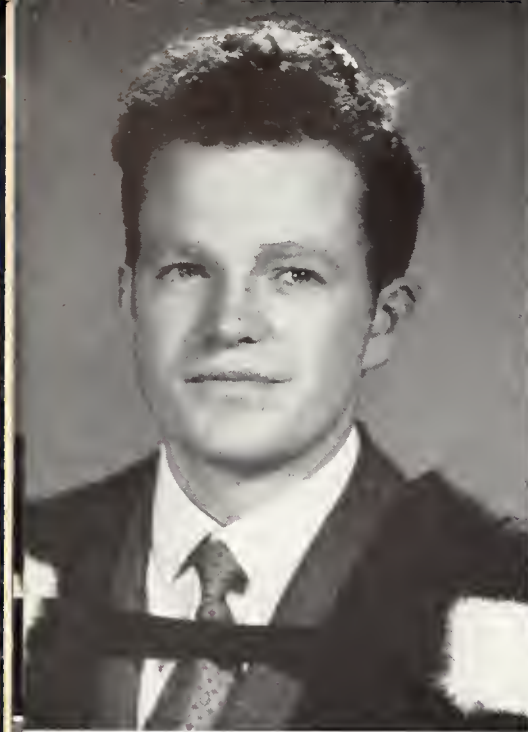

Ruth came to Mac from Westdale Collegiate to study history. Always active in volleyball, she supported the inter-varsity and inter-year teams in her second year. With her pleasant smile and friendly nature, Ruth has made many friends at Mac. We all wish her the best of luck for the future.

Elizabeth Jean Miller
ROCHESTER, N.Y.

Social Science

Those twinkling eyes, that ready smile and friendly manner led Miller to the presidency of Wallingford in her last year. Although very modest, Miller is exceptionally capable, and has been one of Wallingford's well-loved presidents. During her four years at Mac she was a member of the Sociology Club (II, III, IV), Secretary of the W.I.R.C. (III), and a member of the make-up crew (II, III, IV). It's a question as to where Miller is from. For obvious linguistic reasons she will never tell you that she is from "Raa-chester!"

Brian W. Morison
HAMILTON

Political Economy Option

"Buzz" came down from the "mountain" to take up his quarrel with Adam Smith. He soon fell victim to the lure of the recruiting posters, and was next seen sporting "Bell Bottoms" in the Fleet Air Arm. In winding up his under-graduate days at Mac this year, he has concluded that Economics has opened the door to a realm of possibilities, and will facilitate his transcendent aspirations.

Joan Newell
HAMILTON

Social Science

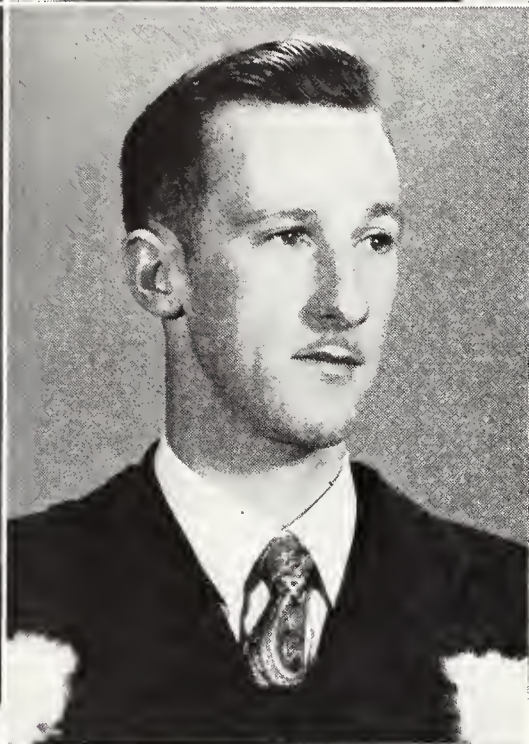

Joanie came to Mac after graduating from Delta Collegiate. Her activities consist of inactive membership in the Pol. Econ., Sociology, and Modern Literature Clubs. Her greatest ambition is to attend at least one meeting in each club before she graduates. Her time is divided between the Rec. Hut and the Library. Future: Post-graduate work in cooking school!

Robert John Oliver
HAMILTON

Science (Pre-Medical)

Out of a background intimately associated with medicine and biology, Bob came to McMaster to make these part of his life. The combined Arts and Sciences of the Pre-Med. Course have broadened his thinking and crystallized his interests. With characteristic honest modesty, Bob anticipates a future in Medicine.

Leonard Raymond Patrick
HAMILTON

Science Option

Leonard came from Hamilton Technical School where he was prominent in Dramatics, to spend most of his time in the Science Hall. Though he is quiet and reserved by nature, in his first two years he bowed his violin enthusiastically in the orchestra. He is headed for O.C.E. and the teaching profession this fall. All the best, Len!

Barbara Louise Peat
HAMILTON

General

Peter came to us from Branksome in '43, and wasted no time in charming the male populace with her friendly smile and gay chatter. Pol. Econ. Club claimed part of her extra-curricular time in year I, but the strain of keeping up with Course I and her social life left no time for further club activities. Her future is indefinite, but sure to be bright.

Mary Peebles
ANCASTER, ONT.

Science Option

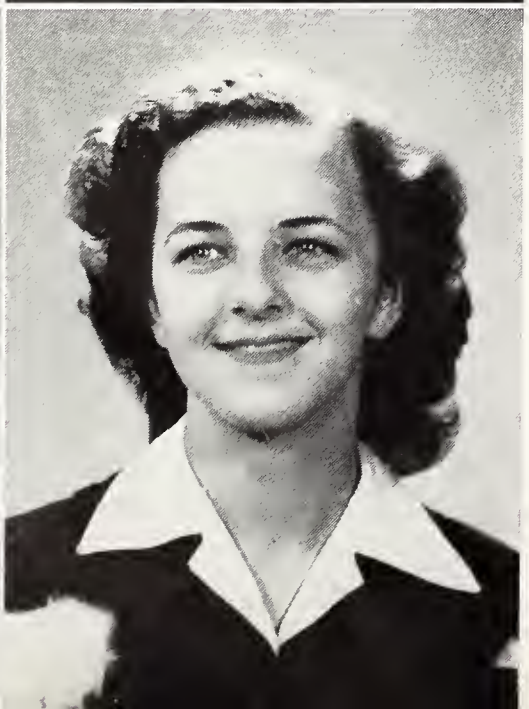

Westdale C.I. prepared Mary for Mac and the Ancaster bus deposited her on the door-step. Science labs attracted her and 'tis said she has helped make them attractive for the last three years. Her great interest in student activities might be attributed to the influence of the Senior President.

John Beverley Pickering
HANOVER, ONT.

Science Option

"Pick" entered Mac resolved to become a scholar and a gentleman. After five years of earnest endeavour (one of which was spent with the R.C.E. at Petawawa), his objective remains the same. His flare for disorganization found expression in the "Triple C," while his interest in sports involved him in numerous North House games. He leaves behind him a distinguished career, since he rose through the ranks to become headwaiter in the Refectory, and housemaster of North House in his last year. Future: Indefinite, but successful.

Anna Kathleen Pond
GUELPH, ONT.

English Option

Anna Pond spelled backwards is music, black coffee and "Oh dear!" Music means an A.T.C.M. in organ and a future Mus. Bac.; black coffee signifies a 3 a.m. rendezvous with an essay; "Oh dear!" implies "I shouldn't do it. Do you really think I should?" Fluttering from real to imaginary worries, from French to "figures," Anna braced herself with language and literature clubs, the Women's Choir (I-III), and especially with her position as pianist of the Operetta (III). The future is settled at last, with music notes as the stepping stones to happiness.

Norman Lang Pring
FORT ERIE, ONT.

Science Option

"The Deacon" came to Mac seeking the essentials for leading a full and enjoyable life. As Vicar of North House, he has done much to convert his fellowmen to his way of life. He spent his first two years in Honour Chemistry, but was in the Navy long enough to acquire a great appreciation for terra firma, and spent the rest of his time studying Geology. He played Varsity hockey and inter-year football and basketball. Future: Anything but hard work.

Shirley Irene Ramsdale
HAMILTON

Social Science

Shirley came to Mac from Delta C.I. with definite ideas about a career in social work. Course 16, and experience with a local welfare agency have done much to sharpen this interest, and it is likely that McGill will claim her for a post-graduate course in Psychiatric Social Work. A quick sense of humour and a genuine liking for people ensures her success.

Brenda Muriel Redick
HAMILTON

Political Economy Option

This glamorous red-head came to McMaster via Westdale to major in bridge and other extra-curricular activities. She turned her talents to track, field and tennis, and did a good job in the cheer-leading department in her final year. She spent the rest of her time worrying her way through lectures and Pol. Econ. Club meetings. Future: Definite, as long as there are telephones!

Shirley Ridge
GLANFORD STATION, ONT.

General

Black curly hair, blue eyes, pixy grin—that's "Cliff"—a dynamic personality with a mania for short sleeps, "snacks" and bridge. She satisfied her enthusiasm for athletics in softball, jaunts to the Rec. Hut, and shouting sprees. It took two years for such a programme and Course 30 to disagree. She wanted to live! Pass Arts was the answer.

Romney Robinson
HAMILTON

Political Economy

He came to McMaster after a number of years spent in business, under the impression that a university course would provide academic leisure. He is now thinking of continuing to post-graduate work, still cherishing the faint hope that academic leisure is to be found if pursued hard enough.

Otto Regier
COGLAN, B.C.

Social Science

Otto came from the University of Sask., and sojourned in Service Camps in Alta. and B.C. before settling down at Mac. Here he spent his time chasing rainbows, patching tires, taking down the mutterings of mental patients on the mountain, and attending a few lectures between long week-ends of hamburg-selling. Future: Toronto School of Social Work.

Charles A. Robinson
HAMILTON

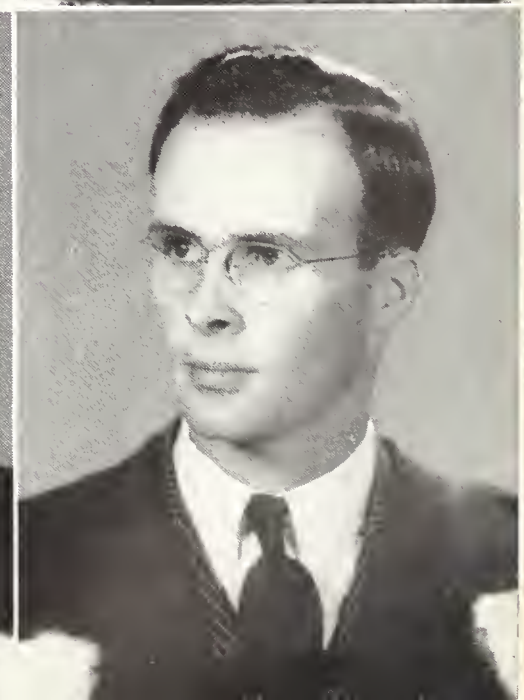

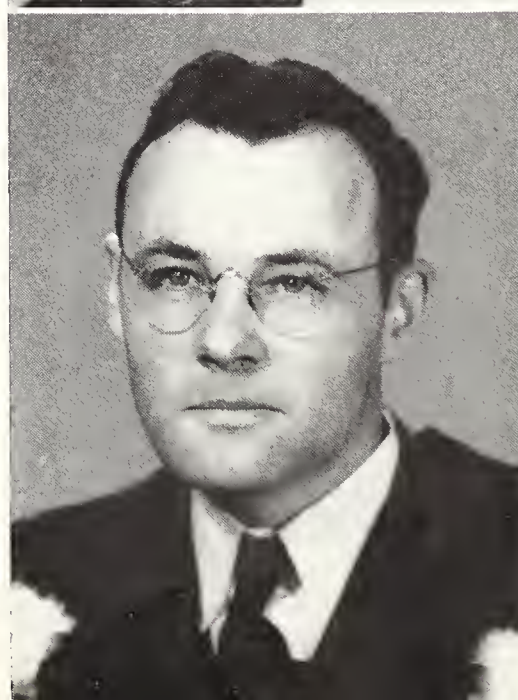

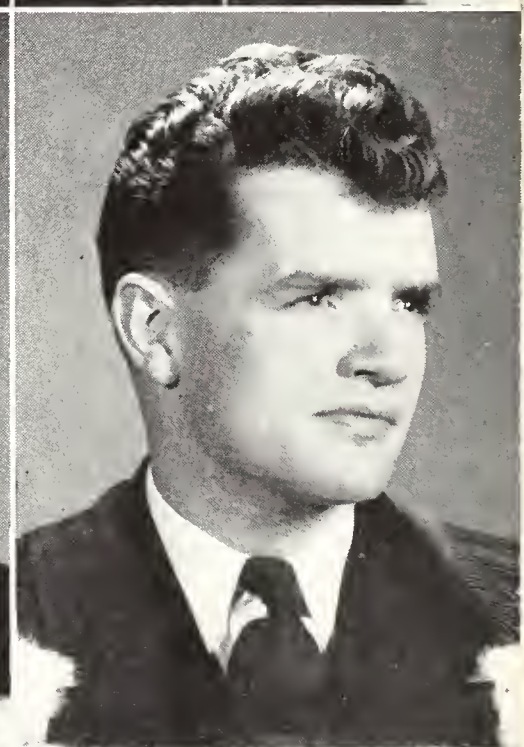

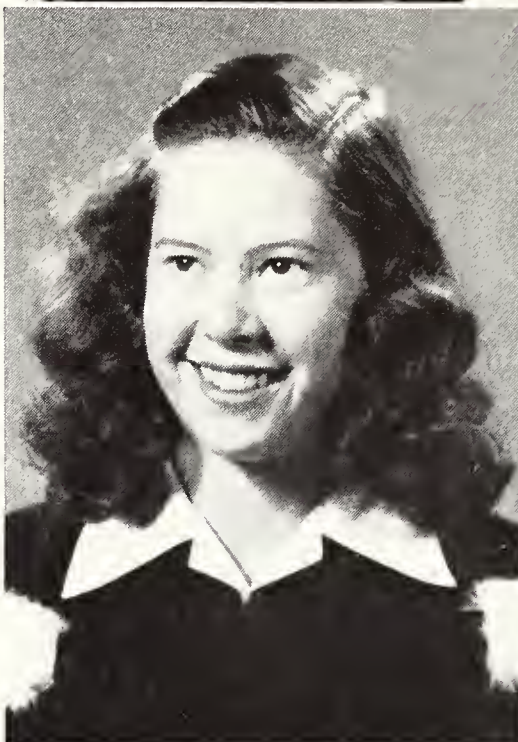

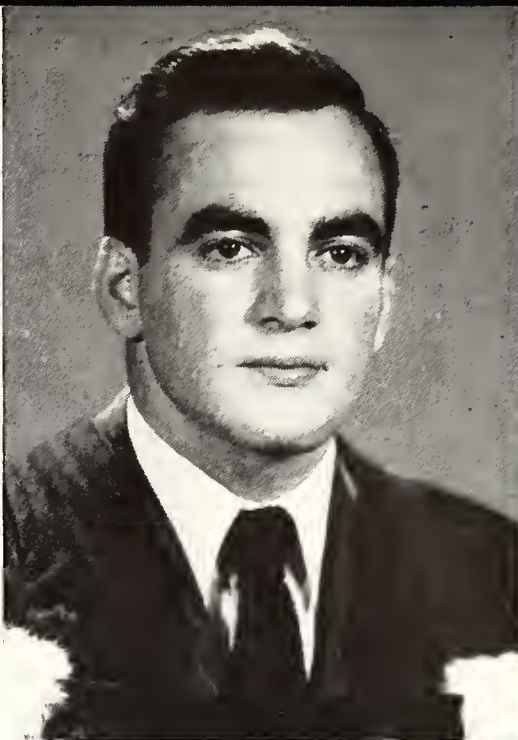

Political Economy Option

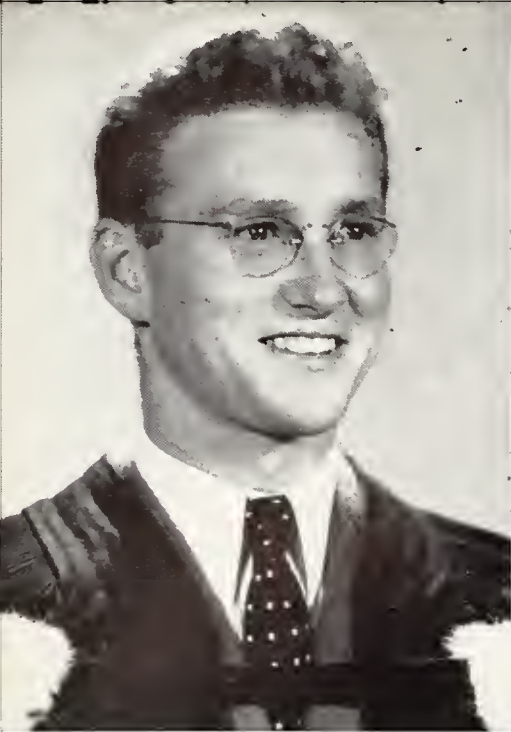

"Curly" came here from H.C.C.I. in 1942 but the R.C.A.F. interrupted, and it wasn't until '45 that he returned to finish up a Pol. Econ. Option. Around Mac, sports have taken up most of his extra-curricular time. He played hockey in year I and, was captain of the Varsity rugby squad in years II and III. He is a great friend with a great future. Good luck, Charlie.

Howard Burton Rodine
HUME, SASK.

Science Option

Howard's first appearance at Mac was as a member of No. 2 C.A.U.C. He returned after discharge from the Army to continue his studies as well as to complete the requirements of the C.O.T.C. When he leaves here he plans to attend O.C.E., and then proclaim to the coming generation the fundamental facts of Science.

Frederick Albert Roloson
BURGESSVILLE, ONT.

Political Economy

"Red Fred," passing through Hamilton on his way to enroll at Western, heard someone mention McMaster University. He stopped to see if such a place existed, and stayed. When he returned for his second year, he brought Elmer along. His memories of Mac include raids on Western and O.A.C., freshettes, inter-year hockey, and Varsity soccer. Osgoode Hall is his next stop.

Barbara Ross
HAMILTON

History Option

"An idle life is the life for me — Idleness spiced with Philosophy." Barb, the unpredictable, the girl with the whims, the lover of opera, the dabbler in art and poetry, has drifted through Mac allowing only a few to realize her amazing capacity for wit. Future: Equally unpredictable.

Lloyd George Russell
HAMILTON

History and Political Economy

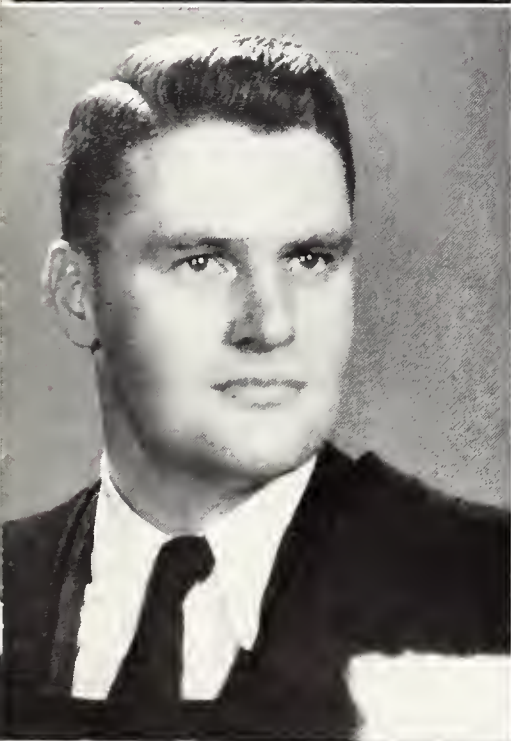

After graduating from H.C.C.I., George took his first year at Mac extra-murally while teaching in Hamilton. He plans to attend O.C.E. next year to obtain his Commercial Specialist's Certificate, and then return to teaching.

Margaret Ryan
BRANTFORD, ONT.

Arts and Nursing

In her own inimitable way, with her combination of sharp wit and a ready smile, Marg has an amazing faculty for forming lasting friendships. Although she majored in Bridge, and did a certain amount of lab-scabbing, Marg will undoubtedly excel in her journalistic endeavours.

Frederick Irvine Ryckman
BURLINGTON, ONT.

Political Economy Option

A consummate exponent of matters economic, a man of sound judgment, unerring reason, and profound wisdom gained through diligent application to the task at hand — that's Mr. Ryckman. A "good head," lots of fun, willing, co-operative and laughingly carefree — that's Irv. A great guy — that's Rick. His background: Burlington, Science, the Army, and Economics.

Jessie Rosser
ST. THOMAS, ONT.

Social Science

After a few years of school teaching in St. Thomas, Jessie decided she would like to be taught, and came to McMaster to enroll in the Social Science Course. She combined work and extra-curricular activities well. She served on the student library staff, was a faithful member of the M.C.U. and Divinity Students' Association, and acted as social convener of the Women's Division of Theology. Her plans for the future include the Leadership Training Course, then a life of service in foreign fields.

Frederick Paul Schneider
KITCHENER

Science Option

Fred hailed from "up Kitchener way," a graduate of K.C.I., and an avowed bachelor (which he remains). He was an avid skier and an enthusiastic member of the Chicopee Ski Club. His favourite extra-curricular activity seemed to be going home for the week-ends. Post-graduate work awaits Fred, and he hopes this will lead him to a successful business life.

Katherine Leah Schubert
PORT DOVER, ONT.

Arts and Nursing

Kay, the longest and strongest of the "formidable four," came to Mac to learn to knit, to glamourize our hair-styling, and to practise her bed-side manner. For 2½ years, she has helped us over the rough spots with her special brand of laughter and her home-made raspberry jam. Now as H.G.N. takes over her life, the wall goes up in Wallingford, "Who's going to do my hair to-night?"

Mavis Skeats
BUFFALO, N.Y.

General

Skeats zoomed into Mac from Lafayette High in 1941. After two years she left to work for Uncle Sam, but the irresistible call of McMaster drew her back in 1946. With her sparkling good humour and ready wit, she has added much to the social life in residence. During her stay at Mac, Skeats was Secretary-Treasurer of the Debating Society (I), Social Convenor of her year (II), Year Rep. in the Dramatic Society (II), and Year Rep. in Sociology Club (IV). An all 'round good sport, Skeats will go a long way!

Marjorie Mary Smith
MERION, PENN., U.S.A.

English Option

Smitty, a delectable little package of charm, cheerfulness and chatter, since the day she arrived from Philadelphia. Her amazing ability has found expression in a great many university activities, and especially in dramatics. She has directed many small plays, and has had leading roles in two Big Plays, reaching a pinnacle of perfection in her superb portrayal of Elizabeth Barrett Browning. Marj, with her gay spirit and enthusiastic love of work was indispensable to the Board of Pubs, where she held the offices of Secretary, Assistant Editor and finally Editor of the Muse. In addition, she was Sec. of Women's Debating (I), manager of horseback riding and dancing, and Mac reporter for the Hamilton Spectator. Smitty will be remembered for her New York suits, fluffy blonde bangs, spontaneous shrieks of laughter, and her one culinary achievement — fudge-making.

Lloyd Neil Stirling
HAMILTON

Geography and Geology

Ruth Clare Stevenson
HAMILTON

Science Option

Ruthie came to Mac from Central C.I., to bury herself in a science course. Her special love for music lured her from the lab. to take part in the Operetta and Women's Choir. Being an ardent sport fan, Ruth was a member of the volleyball and basketball teams and was especially interested in Western Soccer games. Her future: Undecided, but her cute smile will surely bring her success.

Patricia Beryl Smith
BURLINGTON, ONT.

Social Science

Beryl came from Burlington High School in search of higher learning at McMaster. Apart from scholastic activities, she found time to sing in the Operetta (I, II, III) and attend the Pol. Econ. and Sociology Clubs, being Secretary-Treasurer of the latter in her senior year. Her quick wit and charming personality have won for her many friends, who wish her the best of luck in the future.

Doris Marie Stark
FORT ERIE, ONT.

Arts and Nursing

Dorie has successfully combined work with play. Her friendliness and a faculty for conversation have made her a favourite among "Wallingfordites," and her enviable capacity for work has made her an able Biologist with a recently acquired interest in Geology. She was a valuable forward on the Varsity and inter-year basketball teams (II, III), and a Pre-Med. Club member (II, III). We predict a successful but not "lifelong" career as a lab-worker.

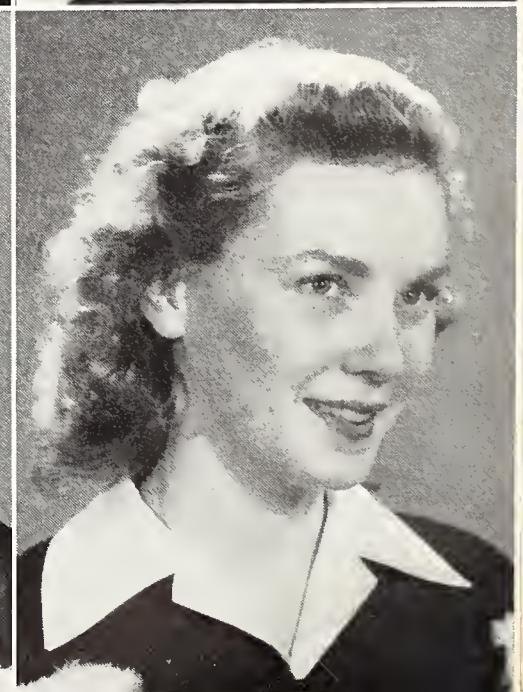

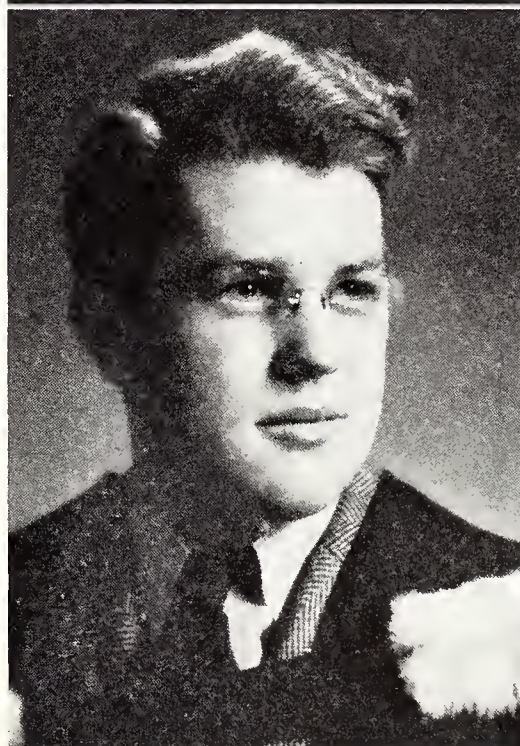

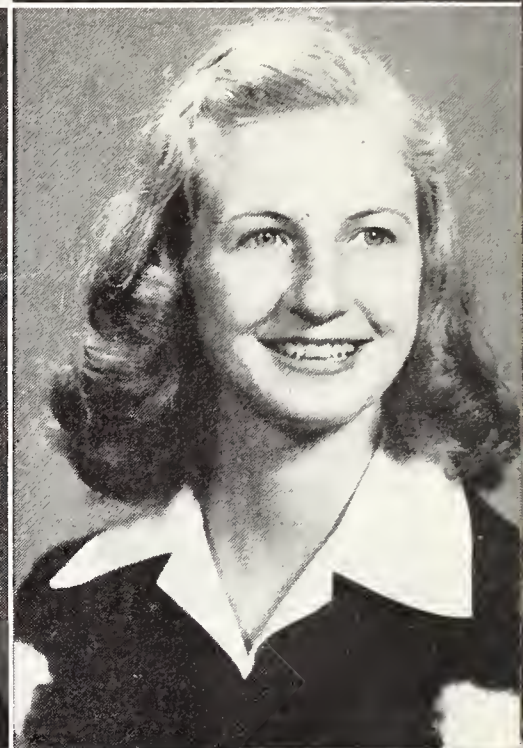

Allan J. D. Stevenson
ALDRESHOT, ONT.

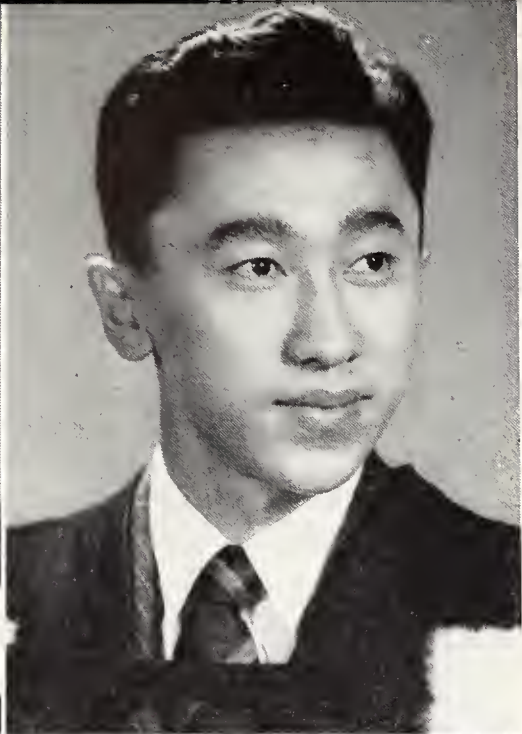

English Option

College days for "Steve" have been a mad confusion of blind dates, sewer pipes, knitting, hitch-hiking (and growing moustaches), with a considerable time in bell-bottoms seeing the North Atlantic and "Newfie." He plans now to roam around the world, and may even settle long enough to teach English to some dusky aboriginal tribe.

Barbara Elaine Syme
HAMILTON

General

James W. Swackhamer
ANCASTER, ONT.

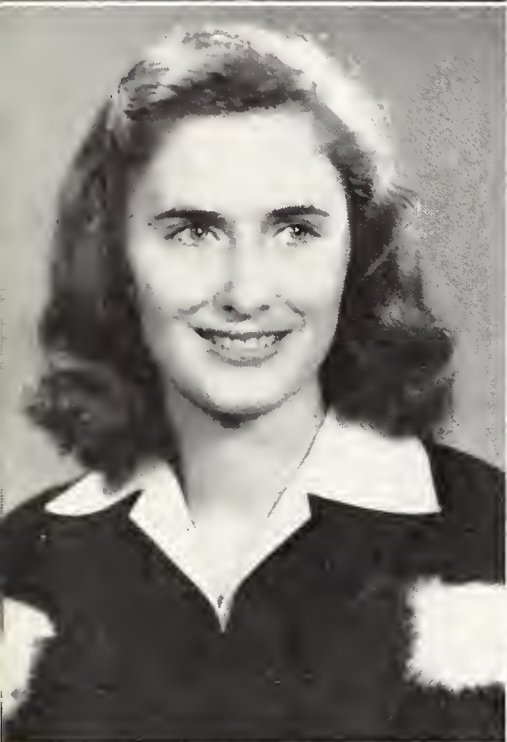

History and Political Economy

Bill belonged to the class of '46, but interrupted his course to serve in the Navy. When he returned he was busy picking up the threads of his civilian life, but he found time to be a divisional officer of the U.N.T.D. We wish all success to the ever-pleasant "Swack" as he leaves us again—this time for Osgoode.

Richard K. Takimoto
BEAMSVILLE, ONT.

Science Option

Dick came to Mac from Beamsville, and registered in first year Pre-Med. Because of his varied interests, however, he could not confine himself to any one course, and gave both Mathematics and Science a try. At present his plans are indefinite, but with his industrious nature and sense of humour, we know he will be successful.

Margaret Elizabeth Telford
WYNNEWOOD, PENN., U.S.A.

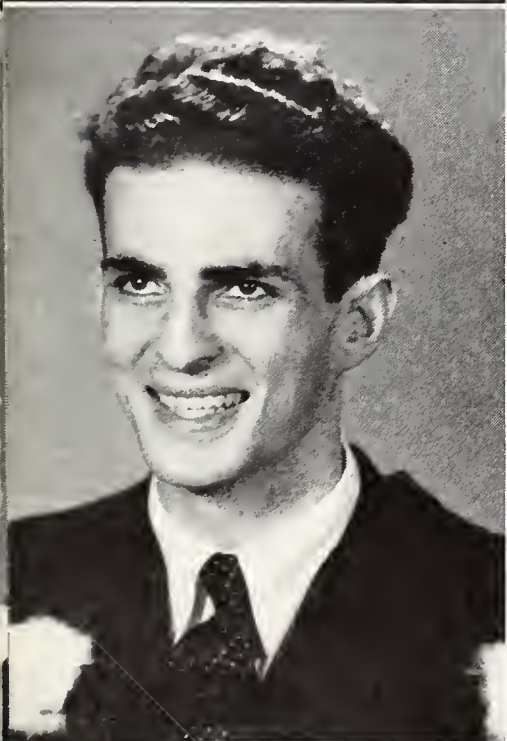

Social Science

"The belle from Burma," after sojourning in England, Scotland and Toronto's Moulton College, took Mac by storm with her combination of beauty, brains and personality. Between "affaires de coeur" and "affaires de universite" Telf spent a hectic and hilarious three years, but had no difficulty retaining her scholarship. Her gracious smile, natural poise, and keen mind won her laurels in campus activities. She was interested in athletics and took an enthusiastic part in basketball, tennis and field hockey. Her creative, executive and acting ability was shown in dramatics, where in year II she had the lead role in the Big Play and in year III directed two plays, besides being Vice-President of the Dramatic Society. Telf's plans include a course in personnel work and then a career, but who knows?

Mary Loreen Tenny
WINONA, ONT.

Social Science

Hailing from Winona, Mary came to Mac via Grimsby High. Three years of Mac, a Social Science Course and "commuting," have equipped her adequately for life in the world. A ready smile has made her many friends who will follow her progress with interest. Post-graduate work in Toronto is indicated and her charming personality ensures success.

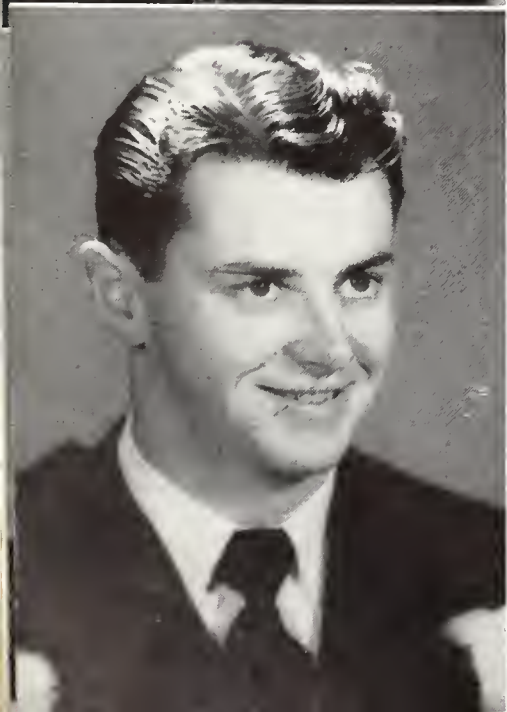

Frank Vine
HAMILTON

History and Political Economy

Alexander Viola
HAMILTON

General

A graduate of Hamilton Tech., Alex registered in Pass Science, but after two years he gave up test tubes and rheostats to pursue the arts (Course 1). He was a tower of strength on year '47's championship rugby team in year III. Alex will be remembered for his exuberant Italian geniality, and his predilection for bestowing appellations of grandeur indiscriminately upon his friends.

Charles Gladstone Virtue
LETHBRIDGE, ALTA.

History and Political Economy

Three years ago, "the Bronc," an ambassador of good-will and good-times, galloped across the prairies into the civilized(?) atmosphere of McMaster. As an undergrad, he was a member of the Men's Choir and the Refectory Quartet. He played inter-year hockey, rugby, soccer, and stuke, and managed the Varsity hockey team (II). A staunch supporter of the Triple C and the Triumvirate, he took part in many North House activities. Capability and character mark the Bronc for success as Lethbridge's leading lawyer. Future: Law at University of British Columbia. We wish you fortune, pal.

Geraldine Ruth Vivian
HAMILTON

General

Gerrie, the slinky villian-ess of "Curse you, Jack Dalton," the champion of Women's Golf (I, II, III), the Fashion Council Rep. of McMaster, the member of many clubs, that is, of the Modern Lit., Philosophy, Debating, Flying and Women's International Relations Clubs, was a distinctive personality. She was "the girl with the voice," an Iturbi at the piano, and a "wiz" on the dance floor. Future: A post-graduate course in merchandising in New York. With her keen wit, vivacity, ambition, determination and talent, Gerrie is headed for success.

Zerlina Jana Eva Vogl
ST. CATHARINES

Science (Pre-Medical)

Teddy came from Czechoslovakia to claim St. Kitts as her home town. Bringing her congenial personality to Mac, she wisely divided her interests between bridge, labs and Walsh and still found time to join the Varsity swimming team (I, II, III) manager (III), and Pre-Med. Club. Her hobby—taking signs from the Lower Hall. Her pet aversion—“those awful words.” Ambition and integrity assure her of a successful future in medical school. Carry on, Doctor.

Constance P. Weiland
HAMILTON

Science Option

Pat came from Delta Collegiate to take her place among the scientists of Hamilton Hall, but science has not claimed all her abilities. She has been social convener on two year-executives, a member of the Operetta (II and III) and memorial committee (II and III), and Vice-President of the Science Club (III). The Board of Pubs has interested Pat also, and here again her achievement is notable.

Jessie Myrtle Williams
HAMILTON

General

Jessie came to the Hamilton Normal from Sterling High School, and after teaching in the public schools of the city, began work on Course 18 at McMaster. This year ('46) she decided to concentrate on higher, rather than on elementary education, and so transferred to Course 1. After graduation she will resume teaching.

George Arthur Wood
HAMILTON

General

After serving in the Navy, George took time off from the teaching profession to attend Mac. Though he spent but one year at the university (previous courses having been completed extra-murally), his quiet and good-natured attitude won him many friends on the campus. George was a member of the tennis team, a golfer, and squash player of no mean note.

Robert Neil Washburn
HAMILTON

Political Economy Option

McMaster first met Bob in 1940, but after his first year of studies and Varsity sports, the Navy received his attention. After an absence of four years, during which he acquired a wife and daughter, Bob returned to his Alma Mater to explore the mysteries of Pol. Econ. Whether the future holds a business or professional career, we know that “Wash” will make more than a success of it.

June Marjorie Wilhelm
HAMILTON

Arts and Nursing

“Willie” came to Mac via Sudbury High and H.C.C.I. to spend her time capering with cats in Hamilton Hall and doing the other numerous assignments of a technician in training. To her many friends she was a witty conversationalist and a real pal.

Elizabeth Alice Winchester
HAMILTON

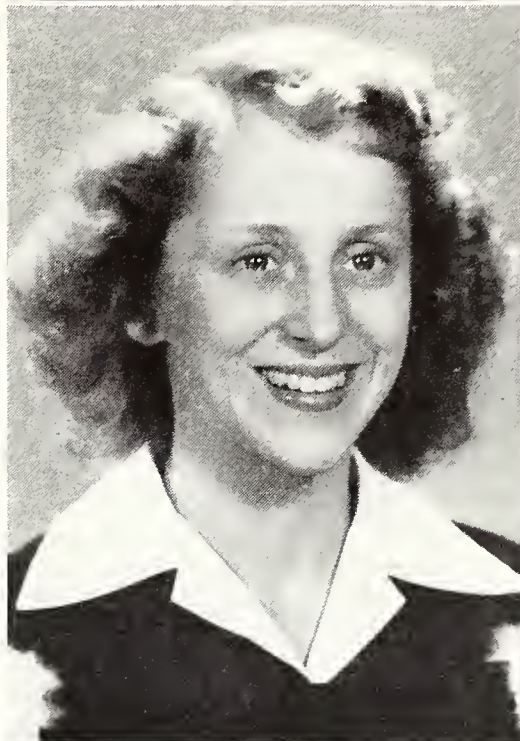

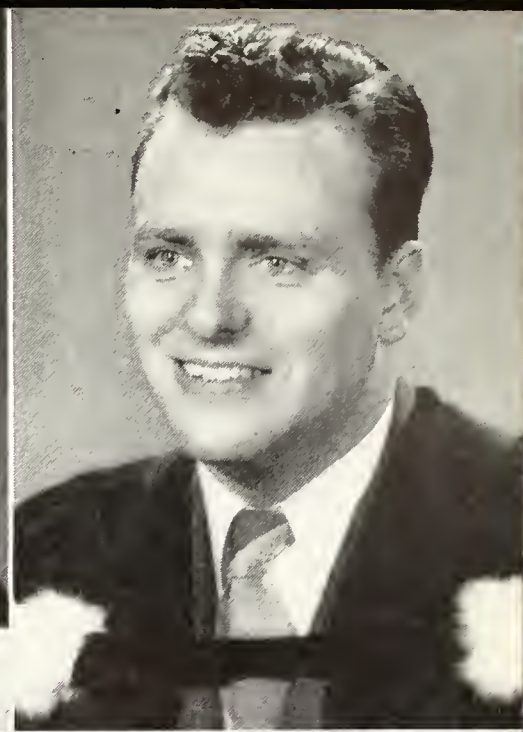

English Option

Betty's philosophy:
Life's no longer if you hurry,
The world's no better if you worry.
During three enjoyable years here, she has actively participated in sports, the Classics Club and the Modern Literature Club. Her future is uncertain, but she is likely to have one, and if it corresponds with her past life, it is sure to be interesting.

Mary Louise Wood
CAINSVILLE, ONT.

Social Science

Mary's lively sense of humour and ready wit have made her everybody's friend. During her years at Mac the Sociology Club, Debating Society, Pol. Econ. Club, M.C.U., W.I.R.C. and Family Service Bureau have claimed her time and talents. More lofty aspirations and a natural gift for philosophising prompted her to join the Philosophy Club, of which she was Vice-President in year III. Her thoughts, however, are centered in her mother's gladioli beds, that fond niece, French translations, and the latest Liberal Convention. Social work is Mary's vocation. With her fund of common sense, dependability, and sympathetic understanding, she is sure to succeed in her chosen field.

Samuel William Wood
OTTAWA

General

Bill came to Mac in 1939 via Glebe Collegiate, Ottawa. In his second year he joined the Canadian Army and served overseas for five years. From 1939-41 his extra-curricular activities consisted of the Modern Language Club and basketball. His many friends wish him the best of luck.

Kathleen Ann Yeager
GRIMSBY, ONT.

Social Science

Kathleen left Grimsby to enter a Social Science course, full of high ideals and aspirations, only to be labelled by her friends as "Butch." During her stay, she was an active member of the Sociology Club and W.I.R.C. Kay will always be remembered for a heart of gold and frequent flashes of wit and enthusiasm. As for her future, we predict a very successful but short-lived career in social work.

Phyllis Youngblud
HAMILTON

History Option

Phyl, an R.C.A.F. vet., came to Mac to take a History course. Now, having learned everything(?) in this course, she returns to the Hamilton Teaching Staff.

J. Bernard Zimmerman
HAMILTON

Science Option

A letterman from Central Collegiate, Hamilton, Bernard came to McMaster via the R.C.A.F. route in 1943. Being a benedick, he spent most of his time in the class-rooms, laboratories and library. Throughout his entire course he proved himself a diligent student and an "all round good fellow."

Patricia Hamilton
HAMILTON

A sudden change of plan has taken Pat from her honour chemistry labs and Mac activities to graduate this year. Pat has contributed her hard working efficiency to Mac as Junior Vice-President, in which capacity she helped plan the Junior Prom and the Junior Collation. Remembering this and Pat's other Mac work as last year's service club treasurer, this year's C.I.C. treasurer and faithful operetta chorus girl, we wish her good luck with her most exacting job yet.

FRESHMEN

Faculty of Theology

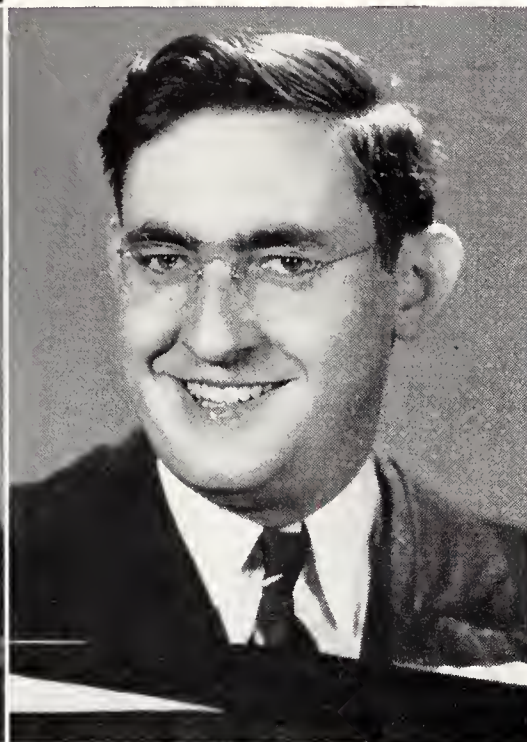

Theology

James Charles Barton
WINNIPEG, MAN.

B. D. Course

As Theology President (II) and Dramatic Representative (I), Jim has exhibited great executive ability and fine dramatic skill. His preaching is powerful, his bearing is distinctly dignified, his top-knot revels in weighty ideas which he expresses in sonorous tones. All this, and (you'd never guess) — a boyish grin and a quick sense of humour which is easily tickled into infectious laughter. Well partnered by an attractive and gifted wife, Tony will successfully perform the duties of herding his flocks.

Leonard Victor Hultgren
MIDALE, SASK.

B. D. Course

During his stay at McMaster our genial and gifted President of Theology has maintained a consistent record of good scholarship, and a keen interest in student affairs. His activities have included the Philosophy Club, M.C.U., Men's Choir, Operetta, and McMaster Band. He is at present the pastor of Jerseyville Baptist Church. His success in the Christian Ministry is assured, and fortunate indeed is Wetaskiwin, Alberta, his next charge.

John Wesley Allen Mair
TORONTO

B. D. Course

Genial John is the undisputed poet laureate of Theology — he can always pull a crumpled wad of poetry from his pocket. Scholastically, John is known for his prowess in Hebrew and Old Testament. He took his early training at Toronto Bible College, then came to McMaster in 1941 to resume his Arts and Theology career.

Roy Harold Massecar
WATERFORD, ONT.

B. D. Course

Roy came to Mac from T.B.C. and scrounged his B.A. Thereupon he acquired a family and settled down for serious work in Theology. While holding Pastorates at Lynnvillie, Wyoming, and Drumbo, he learned the motion picture industry from the bottom up and carried his B.D. subjects as a side line. In Theology, Roy is Barthian, but to his many friends he will always be the Cecil B. DeMille of religious motion pictures. Good luck, Roy, and may dreams materialize.

John Kenneth Mildon
HAMILTON

B. D. Course

John breezed into Mac from the Air Force. Before long he had organized the Sociology Club ('44). Loving an argument, he soon found himself deep in the Debating Society ('44-'46). He also served as clergyman at Beechville, '45-'46. Between times he studied; sometimes he wrote essays. The future: Well, not dull! A new daughter to raise, and Baptist people to serve.

David Blagdon Phillips
VANCOUVER, B.C.

B. D. Course

"Dave," who came to us from the "real West," graduated in Arts from U.B.C. in '44. At Mac he proved to be an "all round" man, proficient in everything from soccer to studies. In his last year he was the athletic representative for Theology. A good, dependable friend, Dave leaves us with our best wishes for his success as he faces a future of missionary endeavour.

Muriel Margaret Spurgeon
WATERLOO, ONT.

B. D. Course

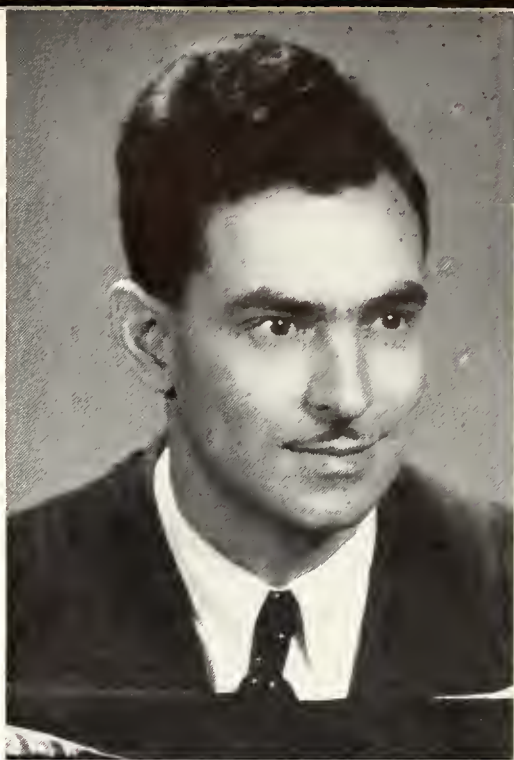

With a hop, skip and jump, "Moo" landed at Mac, bringing with her a determined purpose and a blythe spirit. With great alacrity she whisked through Latin, Greek, Hebrew, et al in her B.A. course. Then she went on to Theology and succeeded in winning two scholarships. On the side came Dramatics, Guides and Brownies, "prefecting" at Wallingford, M.C.U. and chess. But always before her Muriel saw India and its great call. We will all watch with keen interest her doings in the days ahead.

Theology

James E. Smith
WYOMING, ONT.

B. D. Course

Jimmy, an effective pastor and boy's worker, hails from the West. His friends have discovered him to be: as a pastor, energetic but not impatient; as a student, open-minded but not void of conviction; as a friend, staunch; as a companion, congenial. We predict that Jimmy will go far in his chosen field.

Leonard Mark Wenham
CLAREMONT, ONT.

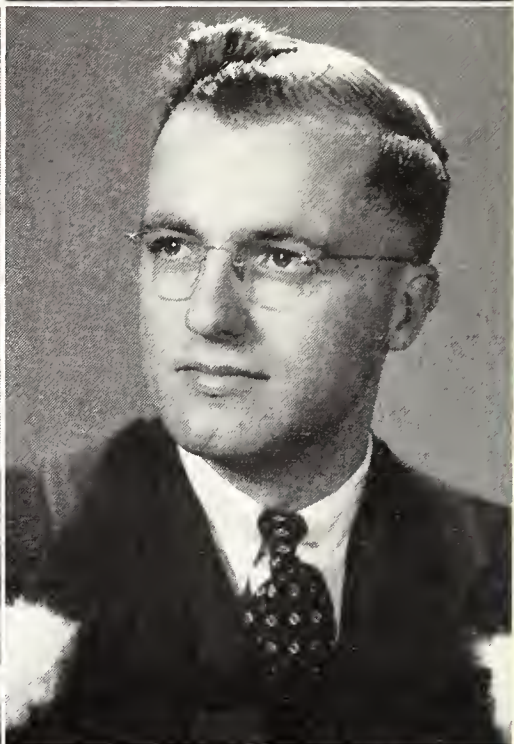

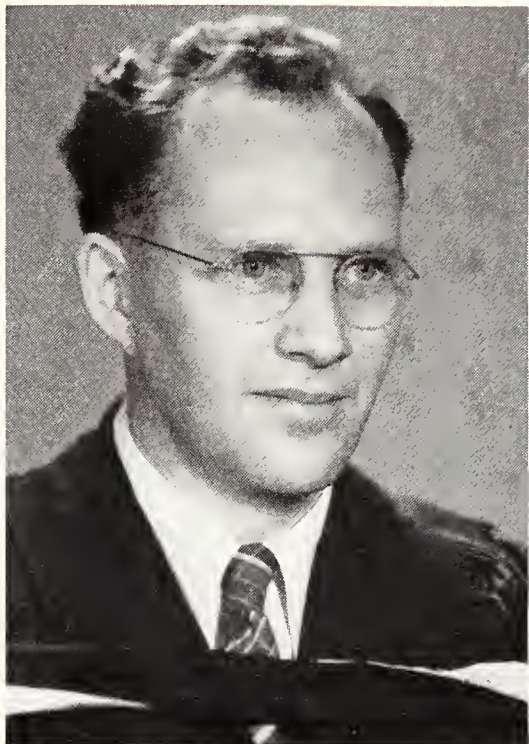

B. D. Course

Len is a staunch veteran of Western fields, and possesses a B.A. from Brandon College, Manitoba University, as well as from Mac. As a father, he is proud of his two sons and daughter; as a Pastor, he is rich in homiletics, sacrificial service, and denominational loyalty; as a student, he is serious, efficient, and a demon for work; as a friend, he is loyal, lasting and congenial. Such a galaxy of good qualities, augurs well for this John Wesley of the West.

Fred Allen Jewell
GODERICH, ONT.

Diploma Theology

Fred was born on a farm, and one day decided to respond to the call of the ministry. He graduated from the Salvation Army Theological College 1940-41, and spent several years in social and war work in New Brunswick as well as Ontario. He came to McMaster in Sept., 1943. Fred believes in being happy and sincere — a good combination.

Charlotte Bell Hardie

Leadership Training Course
SASKATCHEWAN

(Mrs.) Doris Arkwright
HAMILTON

Leadership Training Course

Doris' home is in Blind River, Ontario, but before coming to McMaster, she spent one year in the Wrens. When Doris chose for her husband a theology student, she realized the multitudinous demands on a Pastor's wife and so entered the L.T.C. We know her sunny disposition will grace her work of tomorrow.

Olive Phippen
KIRKLAND LAKE, ONT.

Leadership Training Course

There was a young lady named Phippen, Who from Kirkland Lake to McMaster came trippin'. In Women's Leadership she enrolled, Now — her purpose two-fold — To serve "Martin" and a Home Mission. Best of luck, Olive!

Edith Webster
REGINA, SASK.

Leadership Training Course

Edith is a typical Westerner who has won her way into our affections through her friendliness, cheerfulness, kindness, and sincerity. Regina's loss has been our gain. She goes to some corner out West this summer. Where? Edith doesn't know. Her work? — A Baptist Home Missionary.

Woodcock, Jewell, Brown.
Hultgren (*President*), Spurgeon, Prof. Parker.

THEOLOGY

Extension Course

SUMMER SCHOOL 1946

Extension

Charles Edward Bennett
HAMILTON

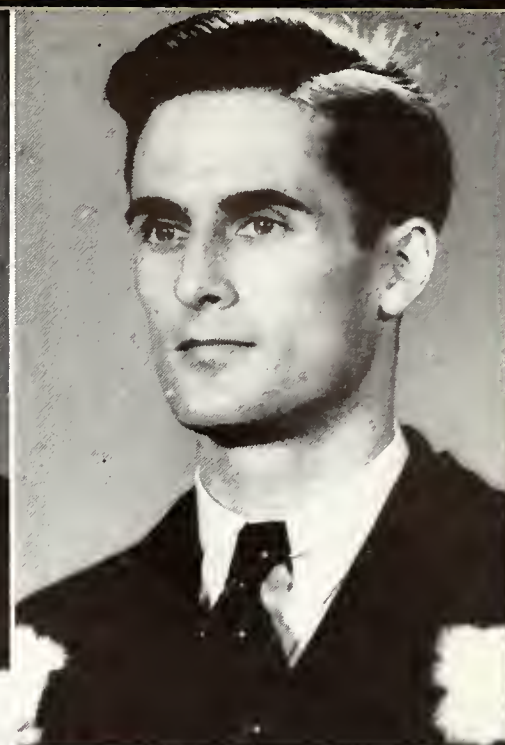

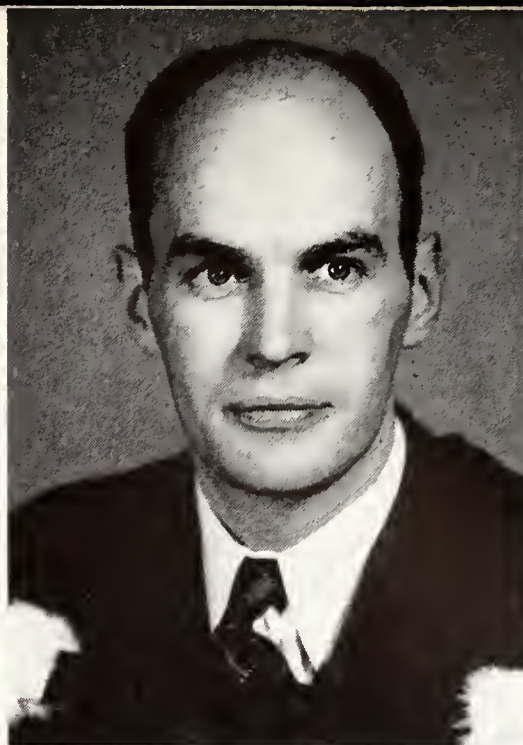

Extension Course

Received his matriculation in Saskatchewan, attended Regina Normal School, and taught in Saskatchewan. He left that province upon joining the Army. At present he is a member of the staff of Hillfield School, Hamilton.

Bernard Bruce Bond
HAMILTON

Extension Course

Bernard came to Canada from Nottinghamshire and went to live in Saskatchewan. He received his elementary education at Beaconsfield, P.Q., and his secondary education at Pelham, Ont. He taught three years in Norfolk County before enlisting in the Canadian Army, in which he rose to the rank of Captain. His extra-curricular activity has to do with his baby son born last August. Future: Teaching again!

A. E. Lloyd East
HAMILTON

Extension Course

Lloyd was raised (high) on the prairies, where he also took some university work as well as teaching school. A mild climate and the history department both brought him to us, but the Mac Sales Course (or was it twins) appeared to exert a strong pull also for he entered the business world. Lloyd says his year at Mac was his pleasantest and we can vouch for it being a full one, as his activities in volleyball, tennis, archery, men's choir, and on the veterans' committee will show.

Elwood W. Cook
HAMILTON

Extension Course

Elwood is a graduate of Thornbury Continuation School. At present he is a member of the staff of the Hamilton Board of Education; his hobby is woodwork.

Gordon Bruce Hamilton
HAMILTON

Extension Course

Gordon studied two years at the University of Toronto prior to spending five years in the Artillery. He commenced his studies at McMaster when he attended summer school last year, having in mind a B.A. in Political Economy this May. He was not often seen around the campus since he claims he "works" when not at lectures.

Lillian Ethel Garnish
HAMILTON

Extension Course

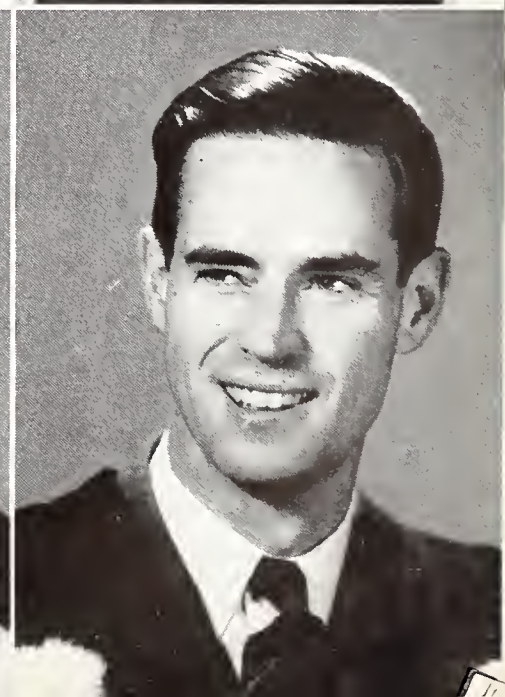

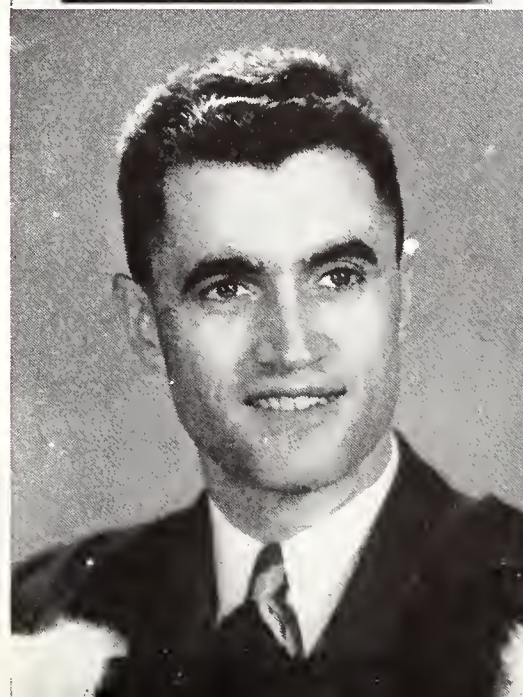

**Cambel Bannerman
Hughes**
STROUD, ONT.

Extension Course

Joseph Albert Harris
HAMILTON

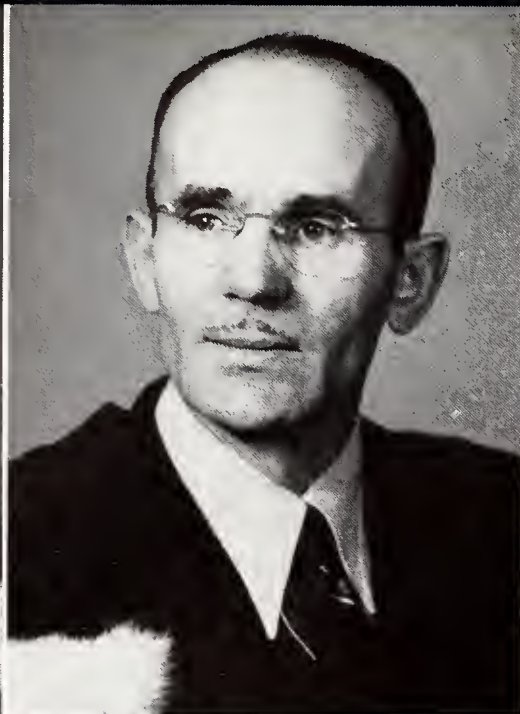

Extension Course

I attended a rural grade school and Georgetown High School, where I obtained Senior Matriculation. I spent one year at Toronto Normal School, and in 1935 began teaching in the rural school I attended as a boy. Following this I was principal of a two-roomed school, until I joined the Hamilton Public School Staff in January, 1941. At present I am teaching Science at the Memorial School in Hamilton.

William Hunt
Extension Course

Serafin K. Kostell
HAMILTON

Extension Course
"Persistence! 'twas his journey's
theme,
Will you guage
If it's a gift or a chance
All ye sage?"

Jeane M. Mercer
HAMILTON
Extension Course

Jeane is a graduate of Hamilton Central Collegiate and the Hamilton Normal School. Since graduating she has been on the staff of the Hamilton Public School, first as a grade teacher, then as instructress in Physical Education at the Memorial and Tweedsmuir Senior Schools. At present she is Supervisor of Physical Education in the Hamilton Public Schools.

Winnifred L. Moir
HAMILTON

Extension Course
Winnifred is a graduate of Hamilton Central Collegiate and the Hamilton Normal School.

Mrs. E. H. Stahl
PORT ARTHUR, ONT.

Extension Course

Mary was a freshette in 1939 and then attended Normal School for a year. Since then she has taught school and taken courses extra-murally and at summer school. After her four years at Tutola she married the secretary of the school in Convocation Hall and held the reception in Wallingford Hall.

Carl Wilmer Zavitz
HAMILTON

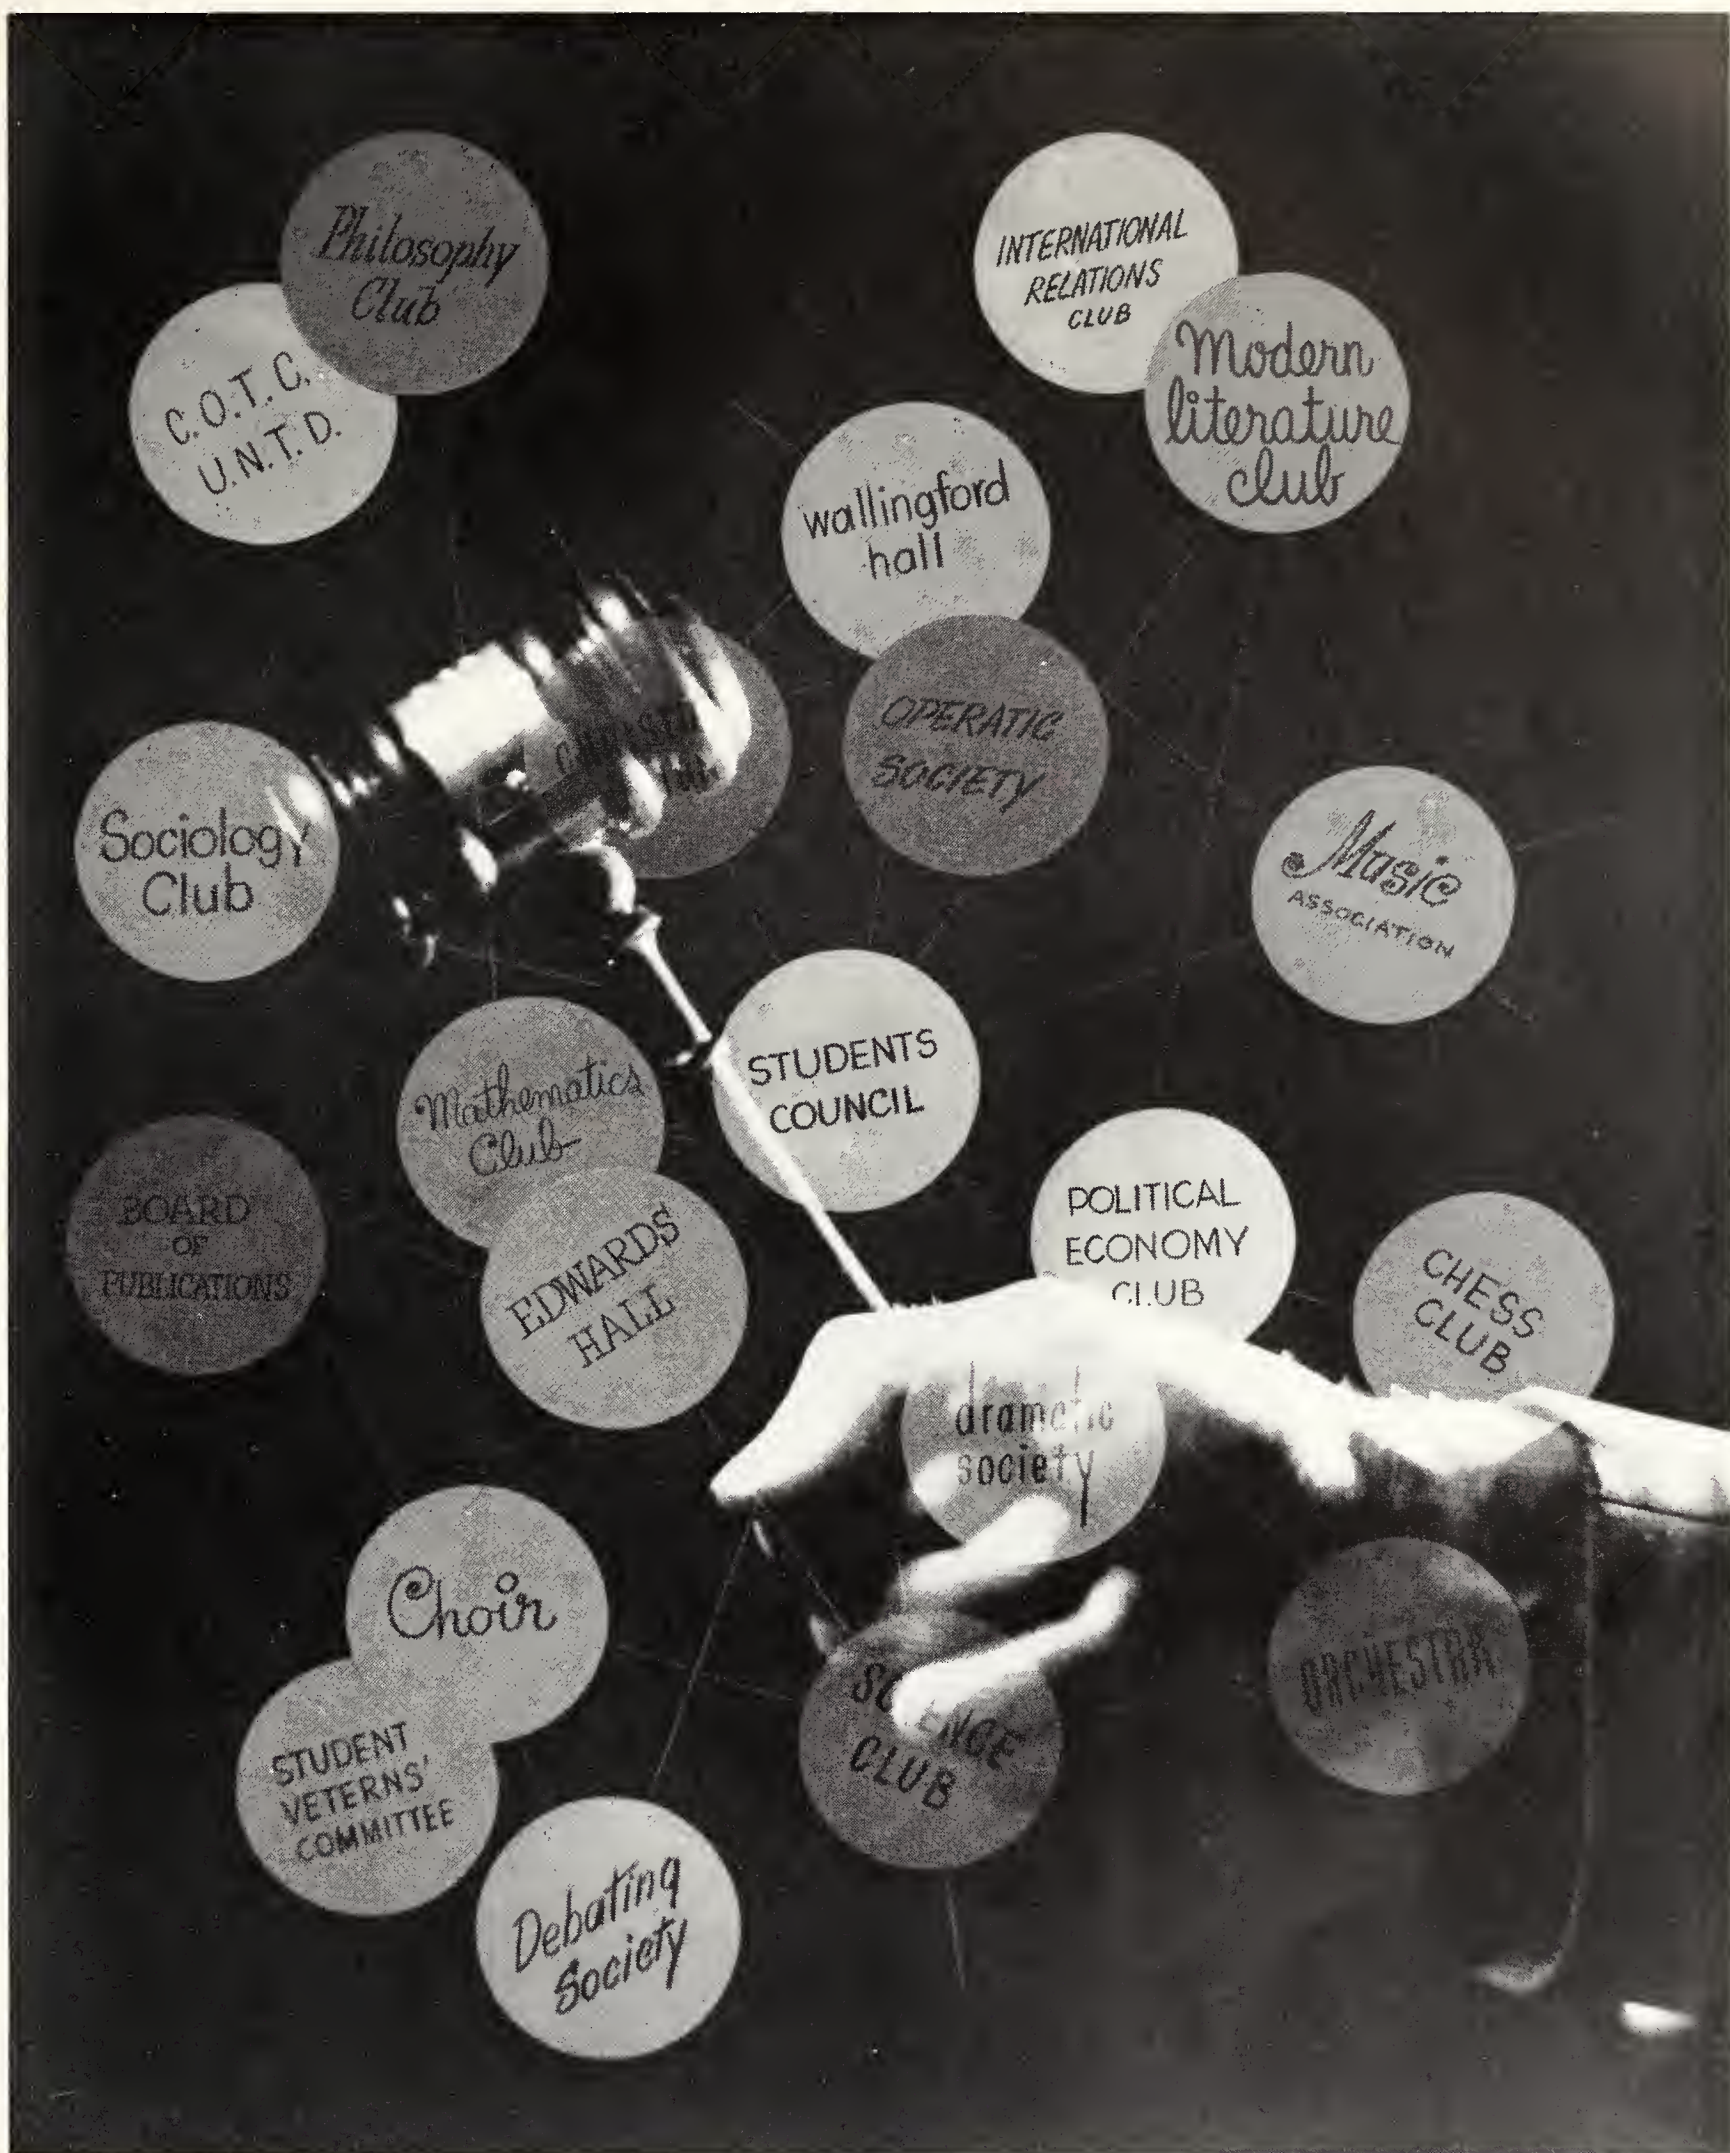

Extension Course

Carl was born at Alvinston, Ont. He attended Watford High School and London Normal School. In 1935 he began teaching in a rural school. At present he is teaching in the Memorial School, Hamilton.

Roy Donald Graydon
COMBER, ONT.

AROUND the CAMPUS

The initiations started off with a

bang and ended with a splash . . .

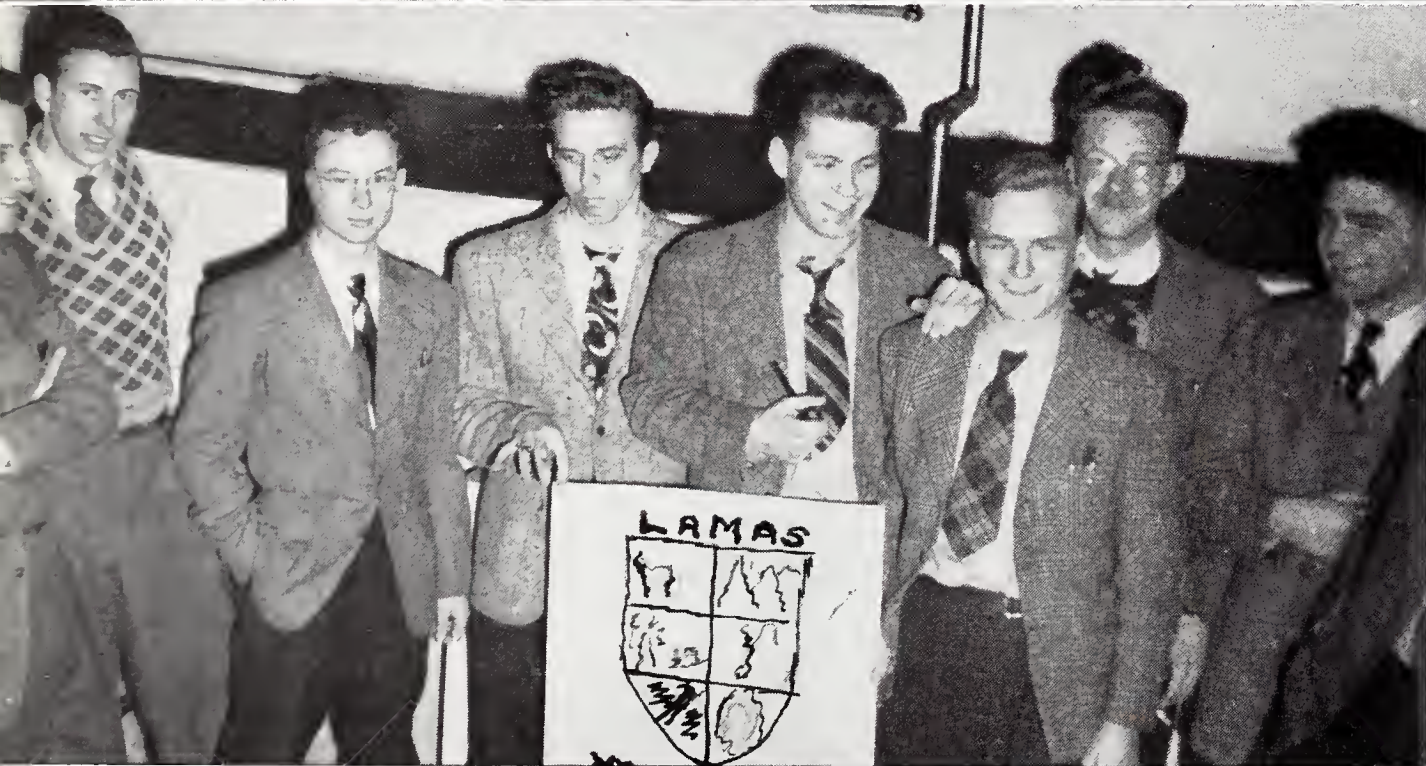

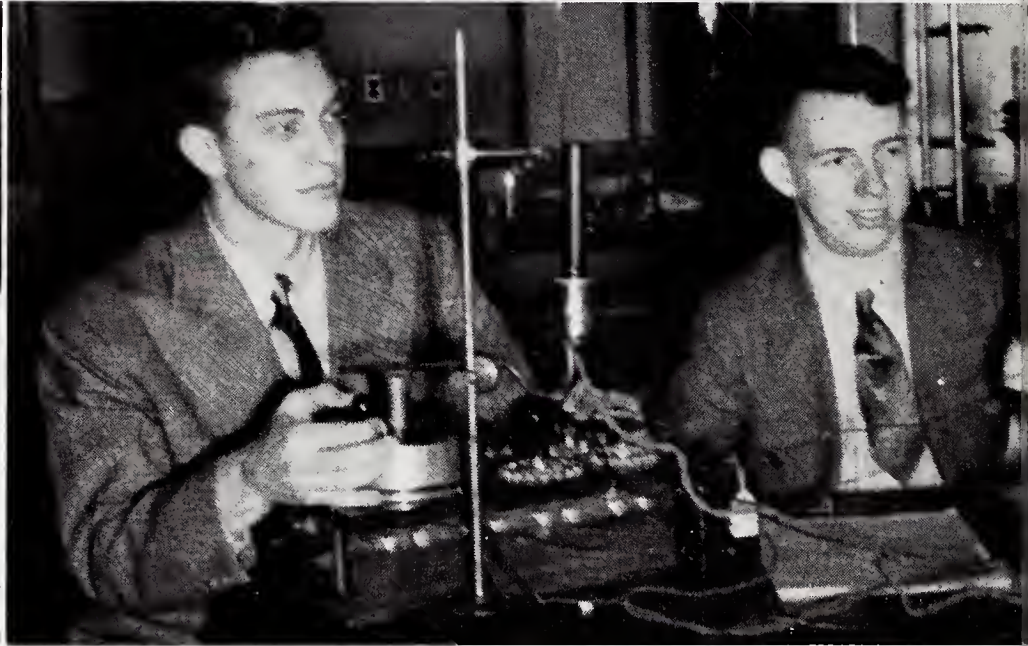

. . . then came the pep rallies,

parties and assemblies . . .

. . . followed by concerts, a few labs and clubs.

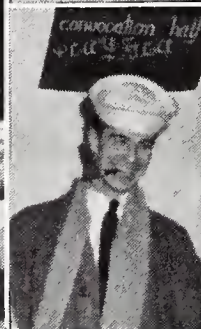

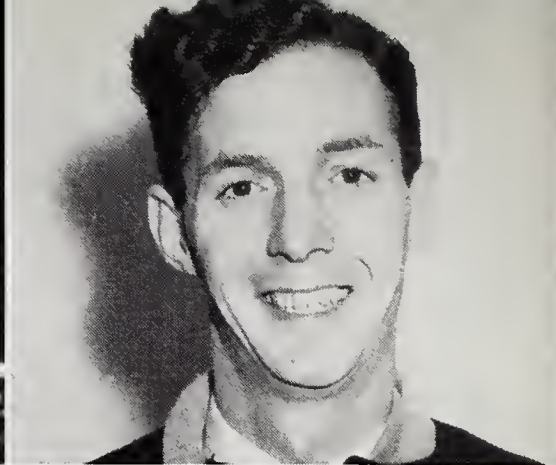

Back stage bustle and Autumn Convocation . . .

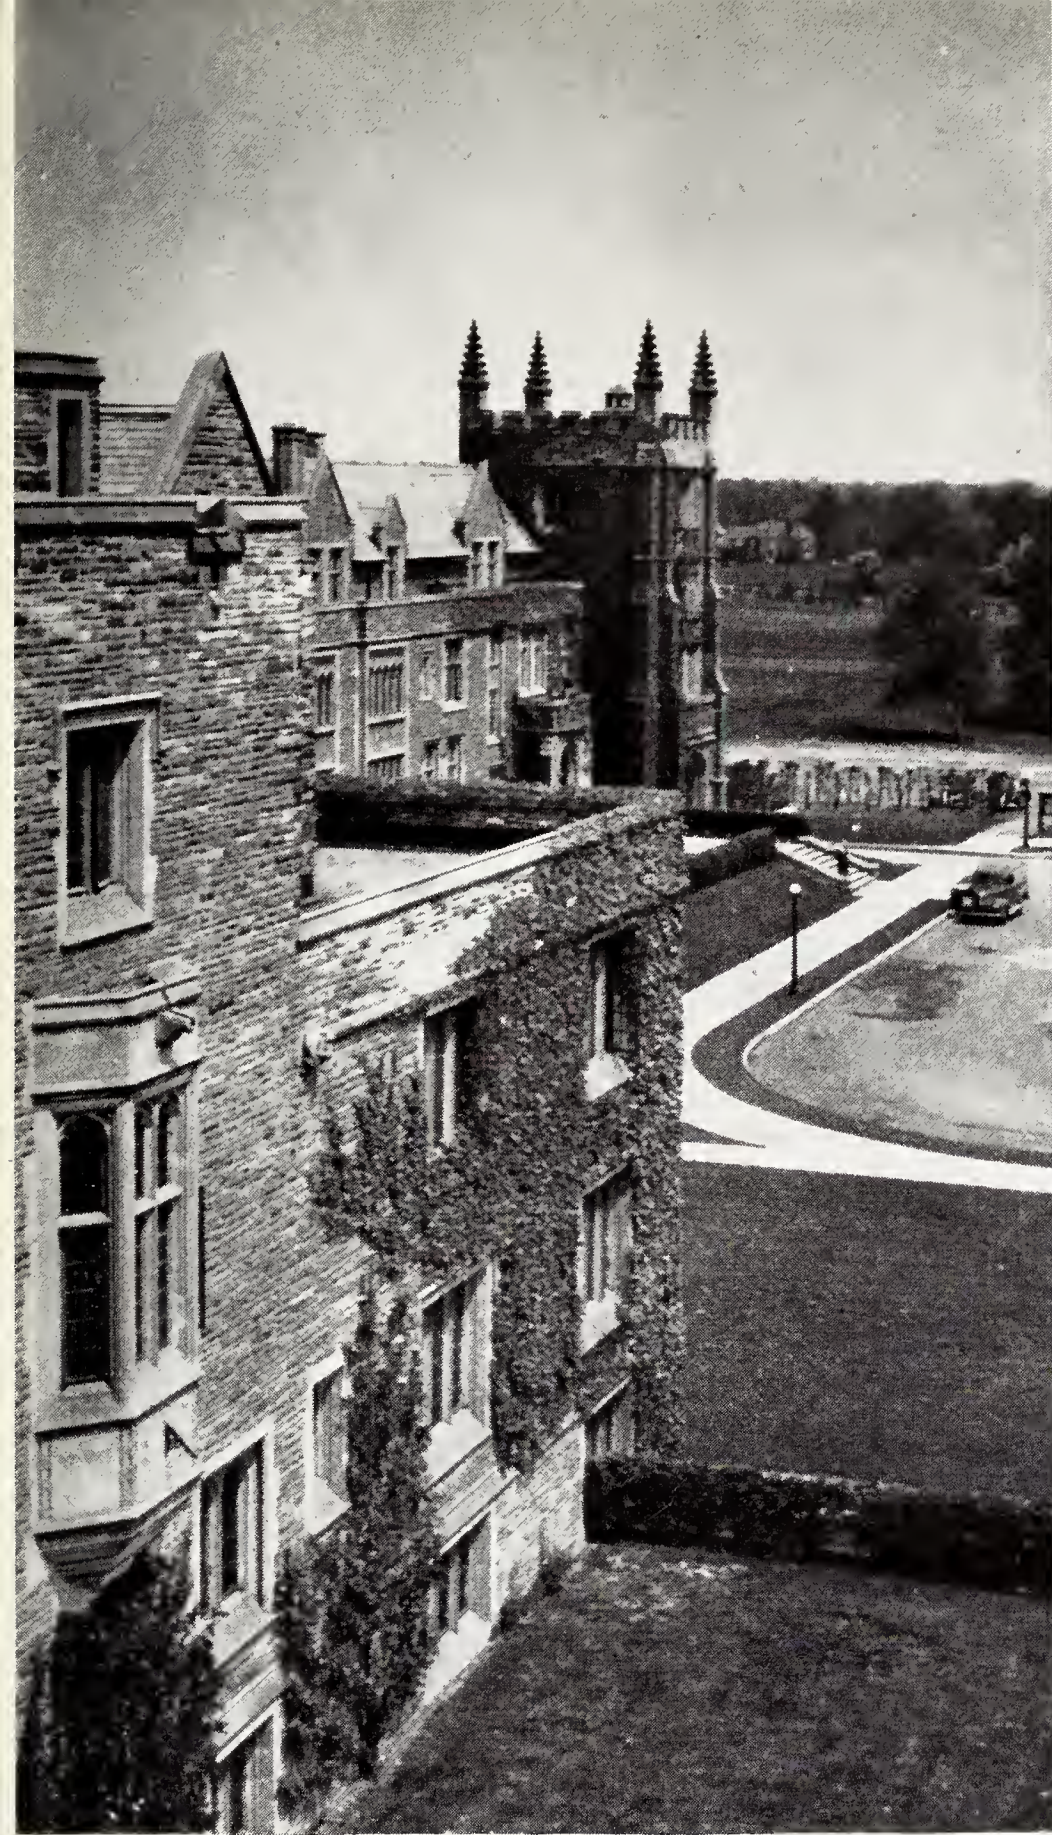

. . . clued up the cringing
freshmen . . .

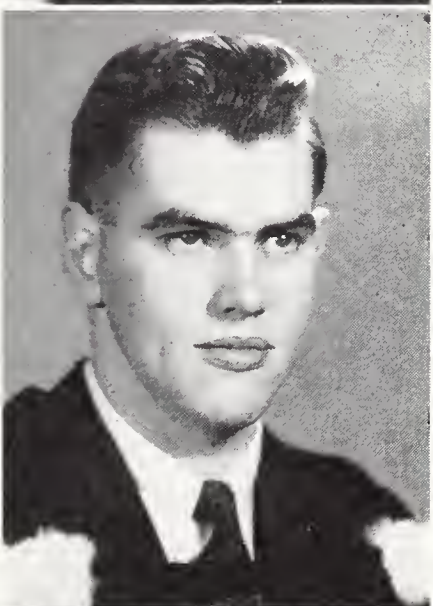

. . . in varied campus activities.

Assorted diurnal denizens . . .

. . . of the ivy towers.

McMASTER HONOUR SOCIETY

Admission to the Honour Society shall be reserved to students in the second term of their final year who, maintaining a satisfactory academic standing during their undergraduate course, have rendered valuable service to the University in non-athletic extra-curricular activities, namely, the major offices of student government, journalistic work, debating and dramatics, and to such other students as are recommended by the unanimous decree of a special committee appointed for this specific purpose. These students shall be granted the Honour "M" and they shall automatically become members of the Honour Society.

RETROSPECT

WHEN the curtain opened on the McMaster scene in September, 1946, there were more people on the campus than ever before. The arrival of the large Freshman class and the return of many veterans caused crowded conditions which in turn necessitated the changes and re-adjustments which have made the past year a period of transition. New buildings have been built and new systems have been established. It has been a trying time for those in authority who, by their sincere and selfless efforts, have proved their mettle and preserved our atmosphere of friendly intimacy, our attitude of good-will and co-operation.

It has been a good year and as we recall what is past our memories are crowded with incidents. We remember the mud baths, tomato fights and tomfoolery of initiations . . . the Soph-Frosh held for the first time in the Drill Hall . . . the field day which for once was warm and sunny . . . the football games at which we shivered and shouted and hoped against hope . . . the cafeteria system introduced into the Refectory . . . the Junior Prom, our only off-campus dance, in a cosy setting and comfortably crowded . . . the writing and passing of a new constitution . . . Marj. Smith as Elizabeth in *The Barretts of Wimpole Street* . . . evergreens, tinsel and soft lights at the Christmas Musicale . . . gay spirits, home-goings and holidays . . . the end of exams celebrated at the New Year's party . . . the Scott versus Muse episode . . . the Drill Hall transformed to ballroom for the Mac Formal . . . Reverend Brien Green speaking in Chapel . . . the Drama Festival . . . Jean Mackenzie and Fred Bullen delighting us for the last time in *H.M.S. Pinaflore* and *Trial by Jury* . . . the Woodchoppers' Ball and popularity contest . . . the Toronto Symphony Orchestra . . . food and fun in the Rec Hut . . . Curtin's cartoons . . . Dewdney's assemblies . . . the damning and downing of gowns . . . the Wallingford Formal followed by the Junior-Senior . . . nominations, speeches and elections . . . the Athletic Banquet . . . spring days, spring fever, and the posting of the examination schedule . . . final lectures, plug week and exams.

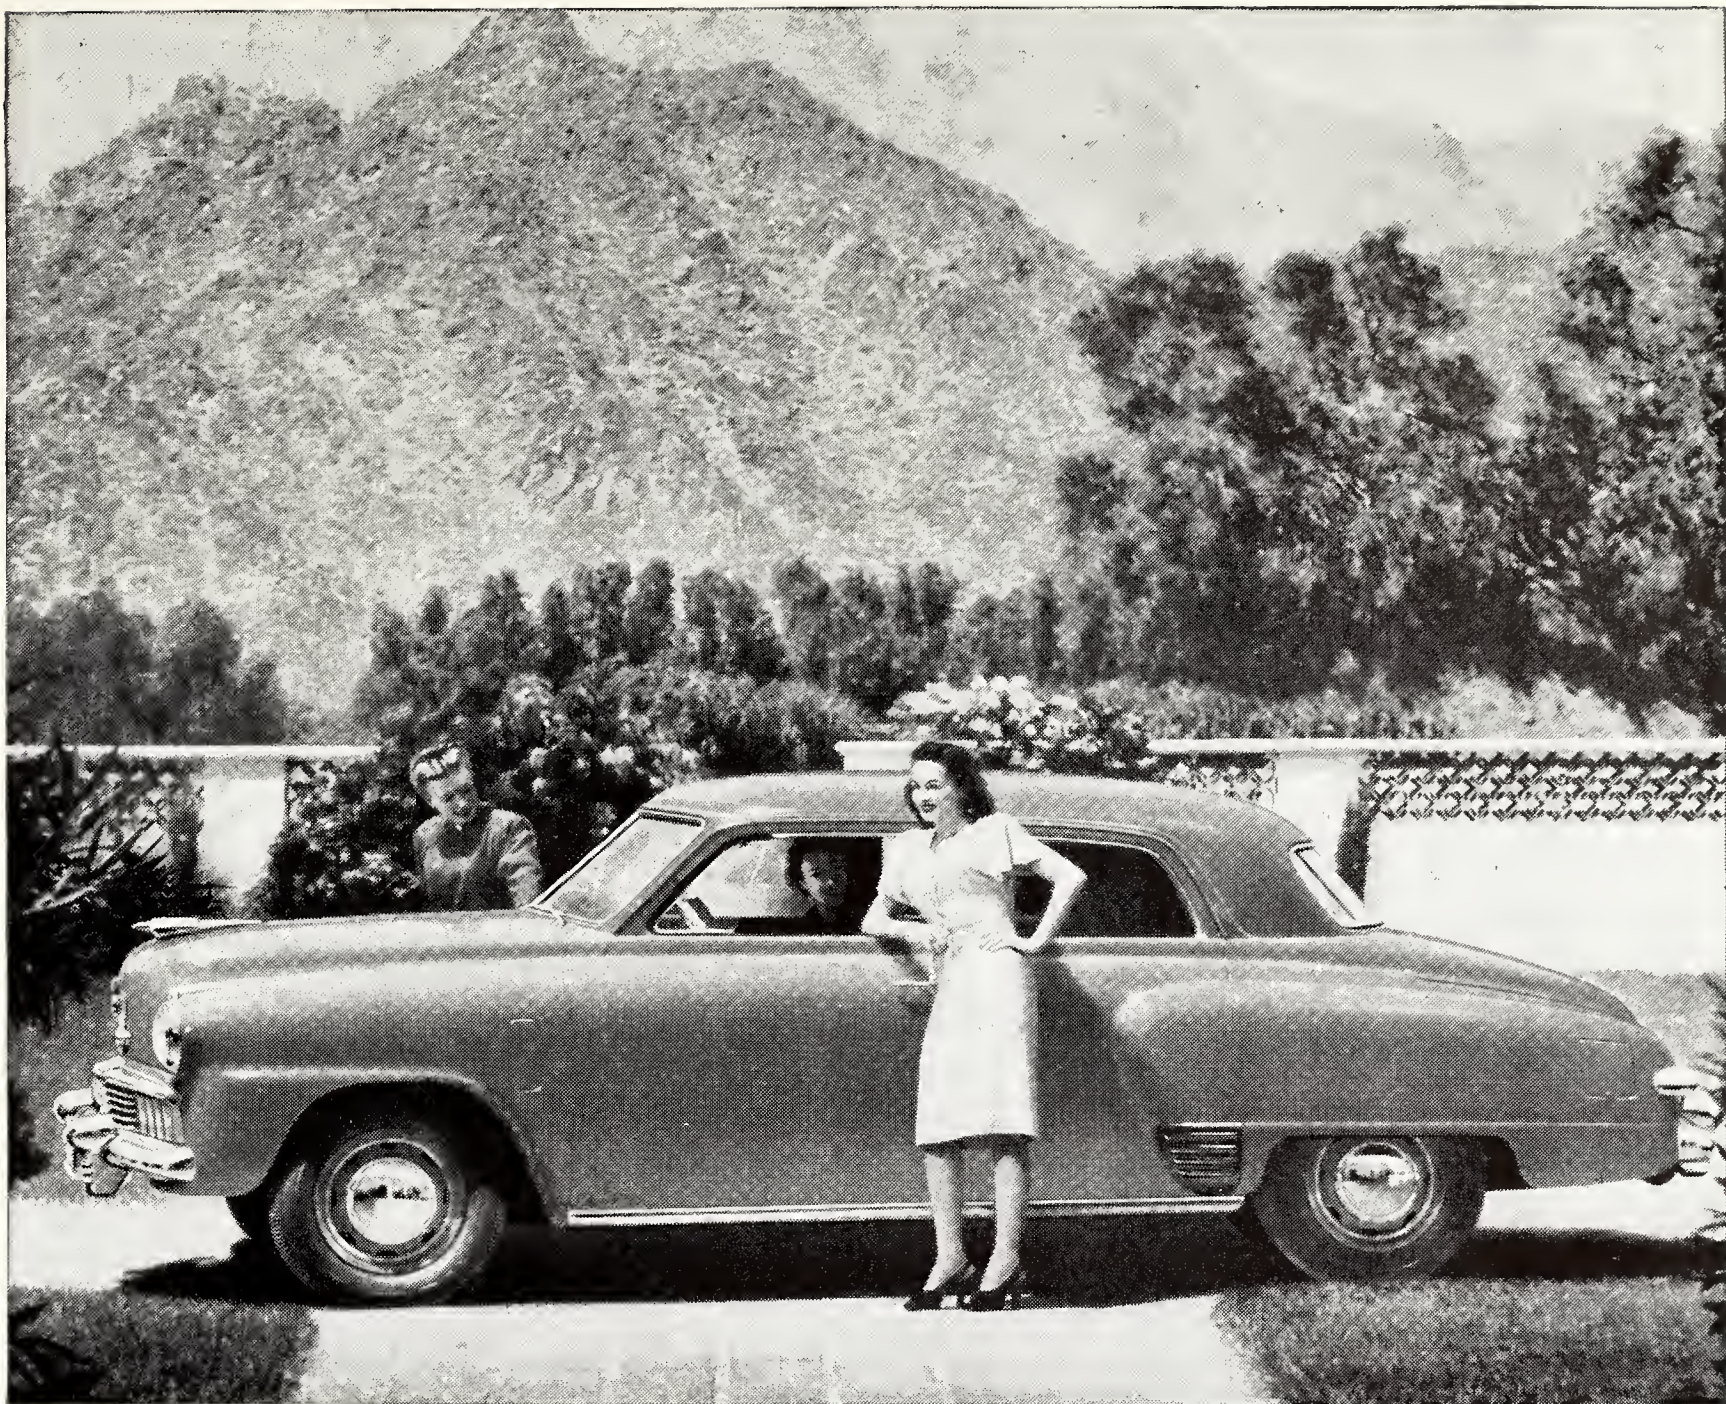

Some of these things we shall soon forget, others we shall always remember. Among our permanent memories will be those of our gracious head girl and our energetic head boy who have given us such excellent leadership. Thank you, Lorna Brown and Garnet McCandless.

Thus the curtain closes on another act of the drama that is life at McMaster. Praised and applauded, the actors of Year '47 make their exit from the stage. But the play is not over, and though it continues with new players in the cast, new changes in the scenery and new complications in the plot, the theme and the purpose shall remain the same. Members of Year '47, your fellow players salute you and bid you farewell.

AVE ATQUE VALE

AUTOGRAPHS

M

Actual photograph of 1947 Studebaker Champion Regal De Luxe 4-door sedan

Sensationally new! First real postwar car wins nation-wide acclaim for Studebaker!

Painstaking care puts long life into your Studebaker
—From machining of parts to upholstering, exceptional craftsmanship marks every step of a Studebaker's construction. Long-time neighbors, fathers and sons, make up the unique Studebaker working force. Pictured is a body plant team—George Scheibelhut and his sons, George junior, Richard and Robert.

THOUSANDS upon thousands of Canadian motorists have been thrilled to their toes by their first look at this daringly different new Studebaker.

With its completely new postwar design, the new Studebaker is clearly established as one car with unquestioned right to the designation—"1947" model.

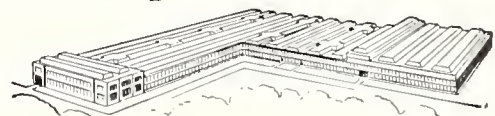

Delighted motorists everywhere agree it's the stand-out car in money's worth, as well as in advanced styling, because it's so thoroughly postwar throughout.

Far ahead of its time in appearance and performance, amazingly roomy, solid and sound in

construction, the 1947 Studebaker particularly excels in a cradled ride that's nothing short of a postwar comfort miracle.

Your dream car is here—the 1947 Studebaker. Studebaker again paces the industry with another "first"—perhaps the most important "first" in its long list of pioneering accomplishments.

STUDEBAKER

Never before has steel played such an important role in our daily lives. The Canadian Farmer, Miner, Logger and Manufacturer — people from all walks of life and from every type of business look to STEEL — backbone of the Nation.

Stelco has doubled its production of steel since 1939 and this increased production has been converted to "turning the sword into ploughshares".

The wide and diversified range of steel products manufactured by Stelco is produced and fabricated by Canadian Workmen for Canadian Industry. Stelco, ninety per cent. of whose shares are owned by residents of Canada, is indeed in partnership with Canada, working hand in hand to further her industrial development and safeguard her future.

Take a guess How much capital is invested in the dairy industry?

Unless you happen to have seen the figure before, you're probably in for a surprise.

There is actually 3½ billion dollars invested in Canada's dairy industry. And here are some more facts that give some idea of its size and importance.

Dairy cows total nearly 4,000,000 — one cow for every three people. The industry takes the output of 500,000 dairy farms and produces many products besides butter, cheese, ice cream and milk concentrates. It does a yearly business of over \$400,000,000 and employs, directly or indirectly, over 17% of Canada's population.

Borden's Plays An Important Part

As stated in our last annual report, the Borden Company paid out \$20,840,258 to farmers and suppliers of agricultural materials, employees and for taxes. There are 42 Borden plants and branches with over 3,000 employees.

The Borden Company is aware of its great responsibility to the dairy industry and to the Canadian public. We are doing our level best to live up to the highest standards of quality and service.
